

## Attachment 1-A

The Department of Agriculture recently amended its fertilizer regulation. Among other things we are requiring that registrants of products, submit a certification from the state or country in which the manufacturing plant is located.

The state or country must certify that they are free of the following pest and or diseases that have not been reported in Puerto Rico.

1. Lethal Yellowing (*Myndus crudus*)
2. Red Ring Disease
3. Coffe Bean Borer
4. Black Sigatoka
5. Bacterial Wilt (Moko Disease)
6. Declain Citrus Disease
7. Hog Pseudorabia
8. Clasical Swine Fever (hog cholera)
9. Foot and Mouth Disease

In order to comply with the regulation we would appreciate if you send us the above-mentioned certification.

For additional information, please contact us; our Office number is (787)-796-1735.
