“Ley de Gobierno Electrónico”

- Se persigue entablar una dinámica intergubernamental que potencie al máximo los beneficios correspondientes a los adelantos en las tecnologías de la información y que **resulte en relaciones interagenciales más cordiales, convenientes, transparentes y menos costosas**.

- Aspira a proveerle al individuo y a las corporaciones una oficina virtual **abierta 24 horas al día**, 7 días a la semana, 365 días al año, donde tengan a su disposición información sobre los servicios, **formularios para solicitar servicios**, **entrega en línea de formularios**, **presentación en línea de solicitudes, pago de derechos y comprobantes, respuestas a sus solicitudes de servicio, la posibilidad de presentar querellas ante organismos reguladores y foros para opinar sobre la calidad de los servicios recibidos**

“Ley de Gobierno Electrónico”

- Promover el uso del Internet y de otras tecnologías de la información de manera que incremente la participación ciudadana en el gobierno.

- Promover la **colaboración interagencial**, mediante la **integración de funciones relacionadas** y el uso de los procedimientos internos del Gobierno Electrónico, de manera que mejoren los servicios al ciudadano.

- Reducir costos y cargas tanto para las entidades gubernamentales como para las personas naturales y jurídicas que requieren servicios gubernamentales

- Proveerle a sus ciudadanos unos servicios de excelencia de forma accesible, rápida, segura y eficiente al menor costo posible.

- Esta transformación de ofrecimiento de servicios gubernamentales se enfoca en tener una **visión integrada de los procesos y evitar la duplicidad de esfuerzos, tanto del ciudadano como del gobierno**.

- Evitar que el gobierno le solicite al ciudadano información que esta en su poder.

- Se establece un nuevo paradigma del gobierno enfocado en **facilitarle al ciudadano el acceso de los servicios de una manera simple y a la vanguardia de nuestros tiempos**.

“Boletin Administrativo Num. 0E-2015-023”

- … estará integrada por un **portal único de servicios en línea**, un numero único de servicios y ventanillas únicas de servicio.

- Se ordena a las agencias a establecer acuerdos interagenciales para proveer acceso a sus bases de datos…

- **A partir del 31 de diciembre de 2015**, **ninguna agencia podrá solicitarle a un ciudadano algún documento o certificación que el propio gobierno tenga en su poder…**

- **A partir del 31 de diciembre de 2015**, todas las agencias deberán estar capacitadas para permitir que los ciudadanos cumplan con su responsabilidad de pago con el gobierno mediante diferentes mecanismos en cualquier lugar y a cualquier hora (“any device, anywhere, anytime”).

Why Office 365 for Your Organization?

With Microsoft Office 365, the government can:

- **Replace Aging Systems.** With Office 365, you are running always-current productivity solutions—no worries about server patching, updating, or upgrading. Office 365 takes care of it, freeing IT staff for more important tasks.
- **Support Telework and Help Reduce Travel Expenses.** Office 365 makes it easy for people to work together regardless of their location. With audio and video conferencing plus screen sharing and a virtual whiteboard just a few clicks away—accessible via the Internet—it's almost like you're all in the same room, even when you aren't.
- **Plan for Continuity of Operations .** Disaster preparedness is paramount for every level of government service. Office 365 delivers mission-critical communications tools from geo-redundant data centers with SAS 70 and ISO/IEC 27001 certification.
- **Automate E-Discovery.** Document retention and auditing policies in Office 365 help you control and track access to information, while enabling you to search and store more efficiently across records repositories, including email and IM.
- **Save Costs, Securely.** The cloud offers considerable cost savings by leveraging vast economies of scale. Microsoft has built a network of next generation geo-redundant data centers around the globe which allow us to offer leading online services at low cost. Compared to traditional systems deployed on-premises, cloud computing can offer **significant cost reductions and better support for disaster recovery** and mobility efforts, such as teleworking.
- **With guaranteed 99.9-percent uptime**, geo-redundancy, and built-in disaster recovery, Office 365 provides the robust security and reliability your agency requires.

Office 365

Savings

- Patch Management
- Implementations
- Migrations
- Servers / Hardware
- Network / Hardware
- Storage (NAS, SAN)
- Management and Administration

- Disaster Recovery
- High Availability
- Anti Virus / Anti Spam
- Bandwidth consumption savings in some cases
- Relocation of expertise to Citizen value add initiatives.

Microsoft Onboarding Center

Scenarios

Scenarios inspire people to work in new ways using Office 365, along with related communication kits to support adoption.

Get Started

Methodology

A four-step approach to drive adoption supported by downloadable templates and best practices.

Get Started

Communities

Featured adoption communities where you can learn from your peers and adoption experts.

Get Started

Resources

Helpful resources to learn about other customer stories and special offers to make it easier to get started.

Get Started

Office 365 Success Center has tools and resources for IT and End User Adoption.

Proven four-step approach to drive adoption, with great content to use.

Office 365

Empowering Digital Government

Data Driven Decisions, Lower Operational Costs, Manage Transparency

EFFICIENT GOVERNMENT OPERATIONS

Optimize the operating efficiency of government with flexible, trusted cloud services and solutions which allow you to harness the power of the cloud on your terms

SMARTER GOVERNMENT ACTION

Harness the sensory and system data explosion to produce actionable analysis, deep insights, better decision making and intelligent government action.

MODERNIZING GOVERNMENT MOBILITY

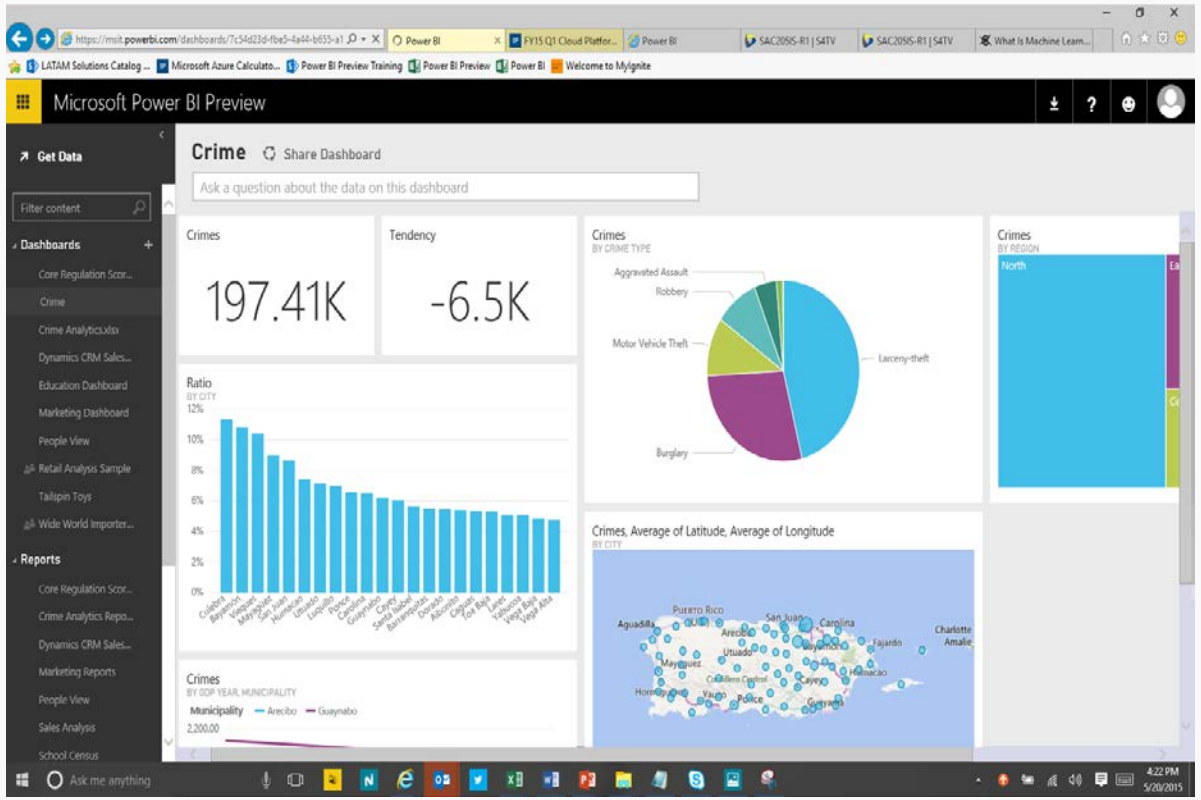
Equipping everyone with the right mobile devices that enable unparalleled productivity by providing secure access to information and systems anytime, anywhere, and always

CONNECTING AGENCIES AND CITIZENS

Connect government agencies in an effort to increase productivity, collaboration, and to innovate new digital services that benefit both society and the economy.

An Integrated Government

- Enable transactions and business processes that span various agencies.
- Reduce or eliminate duplicate data entry efforts.
- Enable single view of the citizen.
- Enable self service government transactions.
- Monitor and **gain visibility** government transaction efficiency.
- Connect to almost any system.



- Proveerle a sus ciudadanos unos servicios de excelencia de forma accesible, rápida, segura y eficiente al menor costo posible.
- Esta transformación de ofrecimiento de servicios gubernamentales se enfoca en tener una **visión integrada de los procesos y evitar la duplicidad de esfuerzos, tanto del ciudadano como del gobierno**.
- Evitar que el gobierno le solicite al ciudadano información que esta en su poder.

Microsoft SQL Server

Microsoft Azure

Microsoft BizTalk Server

Empowering Digital Government

Deploy your infrastructure and applications to the cloud

- Develop, test, and run apps
- Get up and running in minutes instead of spending weeks procuring and provisioning your infrastructure.

Faster turnaround times	Lower cost	Less risk
Enable your application teams to make changes quicker with faster infrastructure provisioning and rollout times on Windows Azure.	Minimize your investment and pay only for what you use on Windows Azure for testing and development.	Minimize your upfront investment using Windows Azure, with the option to expand rapidly as required.

- Infrastructure Deployment
- Application Hosting
- Storage
- Disaster Recovery
- Data Analytics
- Internet of things

- Se persigue entablar una dinámica intergubernamental que potencie al máximo los beneficios correspondientes a los adelantos en las tecnologías de la información y que resulte en relaciones interagenciales más cordiales, convenientes, transparentes y **menos costosas**.
- permitir que los ciudadanos cumplan con su responsabilidad de pago con el gobierno mediante diferentes mecanismos en cualquier lugar y a cualquier hora ("**any device, anywhere, anytime**").
