ARTICLE 5 ELIGIBILITY AND ENROLLMENT

5.1 Eligibility

5.1.1 The Commonwealth has sole authority to determine eligibility for the GHP, as provided in Federal law and Puerto Rico's State Plan, with respect to the Medicaid and CHIP Eligibles; and, with respect to the Other Eligible Persons listed in Section 1.3.1.2, as provided in Article VI, Section 5 of Act 72 and other Puerto Rico law and Regulation 7758 – Regulation Number 138 of the Health Department.

5.1.3.1 Effective Date of Eligibility for Medicaid and CHIP Eligibles (see Section 1.3.1.1) is the eligibility period specified on the Form MA-10 which is the first day of the month in which the Potential Enrollee

submits its eligibility application with the Medicaid Program Office and they shall be eligible to be enrolled as of that date. The eligibility period specified on the MA-10 may be a retroactive eligibility period which is up to ninety (90) Calendar Days before the first day of the month in which the Potential Enrollee submits its eligibility application with the Medicaid Program Office for the Medicaid and CHIP populations only during which services can be retroactively covered.

5.1.3.2 Effective date of Eligibility for the Commonwealth Population (see Section 1.3.1.2.1) is the eligibility period specified on the Form MA-10 and they shall be eligible to be enrolled as of that date.

5.1.3.3 Public employees and pensioners (see Section 1.3.1.2.2) shall be eligible to enroll in the GHP according to policies determined by the Commonwealth and their eligibility period shall be determined through such policies. The Puerto Rico Medicaid Program and ASES do not play a role in determining the eligibility for public employees and pensioners.

5.2.1 The Contractor shall coordinate with ASES as necessary for all Enrollment and Disenrollment functions.

5.2.1.1 The Contractor shall accept all Potential Enrollees into its Plan without restrictions. The Contractor shall not discriminate against individuals on the basis of religion, gender, race, color, national origin, or sexual preference, and will not use any policy or practice that has the effect of discriminating on the basis of religion, gender, race, color, or national origin or on the basis of health, health status, pre-existing condition, or need for health care services.

5.2.1.2 The Contractor shall maintain adequate capacity in the Northeast Region, to ensure prompt and voluntary Enrollment of all Potential Enrollees, on a Daily Basis and in the order in which they apply.

The mother shall be Auto-Assigned to the PMG and PCP to which she was assigned before the Re-Enrollment.

5.2.2.4 *Effective Date of Re-Enrollment for Enrollees Who Lose Eligibility.* If an Enrollee who is a Medicaid- or - CHIP Eligible Person or member of the Commonwealth Population loses eligibility for the GHP for a period of less than two (2) months in duration, Enrollment in the Contractor's Plan shall be reinstated. Upon notification from ASES of the Recertification, the Contractor shall Auto-Enroll the person, with Enrollment effective as of the eligibility period specified on the MA-10.

5.2.3 Term of Enrollment. The Term of Enrollment shall be a period of twelve (12) consecutive months for all GHP Enrollees, except that in cases in which the Puerto Rico Medicaid Program has designated an eligibility period shorter than twelve (12) months for an Enrollee who is a Medicaid or CHIP Eligible or a member of the Commonwealth Population, that same period shall also be considered the Enrollee's Term of Enrollment. Such a shortened eligibility period may apply, at the discretion of the Puerto Rico Medicaid Program, when an Enrollee is pregnant, is homeless, or anticipates a change in status (such as receipt of unemployment benefits or in family composition). Notwithstanding this Section, Section 5.3.3 controls the Effective Date of Disenrollment.

5.2.3.1 Except as otherwise provided in this Section 5.2, and notwithstanding the Term of Enrollment provided in Section 5.2.3, Enrollees shall remain enrolled in the Contractor's Plan until the occurrence of an event listed in Section 5.3 (Disenrollment).

5.2.5 Enrollment Procedures for All Enrollees Except Newborns

5.2.5.1 Upon receipt of the notices in accordance with Section 5.1.5 of this Contract, the Contractor shall comply with the process of Auto-Enrollment and issue to the Enrollee a notice informing the Enrollee

of the PMG and PCP they are assigned to and their rights to change the PMG or PCP during a ninety (90) Calendar Day period from the date of the communication which informed them of their initial assignment by calling or visiting the Contractor's office.

5.2.5.2 Once the Enrollee calls or visits the Contractor's office to execute the right of changing the assigned PMG, PCP, or both, the Contractor shall request that the Enrollee select a new PMG and PCP. During the visit or call, the Contractor shall issue to the Enrollee an Enrollee ID Card, a notice of Enrollment, an Enrollee Handbook, and a Provider Directory; or, such notice of Enrollment, an ID Card, a Handbook, and a Provider Directory may be sent to the Enrollee via surface mail within five (5) Business Days of the Enrollee's request to change the Auto-Enrollment assignments.

5.2.5.3 The notice of Enrollment that the Contractor issues pursuant to Section 5.2.5.2 will clearly state the Effective Date of Enrollment. The notice of Enrollment will explain that the Enrollee is entitled to both physical and Behavioral Health Services through the Contractor's Plan. The notice will inform the Enrollee of his or her limited right to disenroll, per Section 5.3 of this Contract. The notice of Enrollment shall inform the Enrollee that exercising the right to disenroll from the MCO only means losing access to services under the GHP. The notice shall advise the Enrollee of the Enrollee's right to select a different PCP or to change PMGs, as described in Section 5.4, and will encourage the Enrollee to pursue this option if he or she is dissatisfied with care or services.

5.2.6 Procedures for Auto-Enrollment of Newborns

5.2.6.1 The Contractor shall notify ASES and the Puerto Rico Medicaid Program in writing of any Enrollees who are expectant mothers Immediately at the moment of diagnosis of the pregnancy or at least sixty (60) Calendar Days before the expected date of delivery.

5.2.6.2 The Contractor shall promptly, upon learning that an Enrollee is an expectant mother, mail a newborn Enrollment packet to the expectant mother (i) instructing her to register the newborn with the Puerto Rico Medicaid Program within ninety (90) Calendar Days of birth by providing evidence of the newborn's birth and birth certificate; (ii) notifying her that the newborn will be auto-enrolled in the GHP; (iii) informing her that unless she visits the Contractor's office to select a PMG and PCP, the child will be auto-assigned to the mother's PMG and to a PCP who is a pediatrician; and (iv) informing her that she will have ninety (90) Calendar Days after the child's birth to disenroll the child from the Plan or to change the child's PMG and PCP, without cause.

5.2.6.3 The Contractor shall provide assistance to any expectant mother who contacts the Contractor wishing to make a PCP and PMG selection for her newborn and record that selection, per Section 5.4.

5.2.6.4 If the mother has not made a PCP and PMG selection at the time of the child's birth, the Contractor shall, within one (1) Business Day of the birth, auto-assign the newborn to a PCP who is a pediatrician and to the mother's PMG.

5.2.6.5 Within one (1) Business Day of acknowledging, either by concurrent review or hospital notification of the birth of a child to an Enrollee, the Contractor shall ensure the submission of a newborn notification form to ASES and to the Puerto Rico Medicaid Program; such form shall be given prior written approval by ASES and the Puerto Rico Medicaid Program.

5.2.6.6 The Contractor shall participate in any meeting, working group, or other mechanism requested by ASES in order to ensure coordination among the Contractor, ASES, and the Puerto Rico Medicaid Program in order to implement newborn Auto-Enrollment.

5.2.7 Re-Enrollment Procedures

5.2.7.1 The Contractor shall inform Enrollees who are Medicaid- and CHIP Eligibles and members of the Commonwealth Population of an impending Redetermination through written notices. Such notices shall be provided ninety (90) Calendar Days, sixty (60) Calendar Days, and thirty (30) Calendar Days before the scheduled date of the Redetermination. The notice shall inform the Enrollee that, if he or she is recertified, his or her term of Enrollment in the Plan will automatically renew; but that, effective as of the date of Recertification, he or she will have a ninety- (90) Calendar Day period in which he or she may disenroll from the Plan without cause or may change his or her PMG and/or PCP selection without cause. The notice shall advise Enrollees that Disenrollment from the MCO only will terminate the Enrollee's access to health services.

5.2.7.2 The Contractor shall provide Enrollees and their representatives with sixty (60) Calendar Days written notice before the start of each term of Enrollment, as specified in Section 5.2.3, of the right to disenroll or to change PMG or PCP during the first ninety (90) Calendar Days of the new term of Enrollment.

5.2.7.3 Upon the receipt of written request from ASES, the Contractor shall provide a report for a specific period of time containing documentation that the Contractor has furnished the notices required in this Section 5.2.7.

5.2.7.4 The form letters used for the notices in this Section 5.2.7 shall fall within the requirements in Section 6.2.1 that the Contractor seek advance written approval from ASES of certain documents.

5.2.8 Specific Contractor Responsibilities Regarding Dual Eligible Beneficiaries. At the time of Enrollment, the Contractor shall provide Potential Enrollees who are Medicaid-eligible and are also eligible for Medicare Part A or Medicare Part A and Part B ("Dual Eligible Beneficiaries") with the information about their Covered Services and Co-Payments that is listed in Section 6.13. Members of the Commonwealth Population (see section 1.3.1.2.1) who are Medicare-eligible shall not be considered Dual Eligible Beneficiaries.

5.3 Disenrollment

5.3.1 Disenrollment occurs only when ASES or the Medicaid Program determines that an Enrollee is no longer eligible for the GHP; or when Disenrollment is requested by the Contractor or Enrollee, and approved by ASES, as provided in Sections 5.3.4 and 5.3.5.

5.3.2 Disenrollment will be effected by ASES, and ASES will issue notification to the Contractor. Such notice shall be delivered via file transfer to the Contractor on a Daily Basis simultaneously with Information on Potential Enrollees within five (5) Calendar Days of making a final determination on Disenrollment.

5.3.2.1 Disenrollment decisions are the responsibility of ASES; however, notice to Enrollees of Disenrollment shall be issued by the Contractor. The Contractor shall issue such notice in person or via surface mail to the Enrollee within five (5) Business Days of a final Disenrollment decision, as provided in Sections 5.3.4 and 5.3.5.

5.3.2.2 Each notice of Disenrollment shall include information concerning:

5.3.2.2.1 The Effective Date of Disenrollment;

5.3.2.2.2 The reason for the Disenrollment;

5.3.2.2.3 The Enrollee's Appeal rights, including the availability of the Grievance System and of ASES's Administrative Law Hearing process, as provided by Act 72 of September 7, 1993;

5.3.2.2.4 The right to re-enroll in the GHP upon receiving a Recertification from the Puerto Rico Medicaid Program, if applicable; and

5.3.2.2.5 Disenrollment shall occur according to the following timeframes (the "Effective Date of Disenrollment").

5.3.3 The Effective Date of Disenrollment is as follows:

5.3.3.1 Except as otherwise provided in this Section 5.3, Disenrollment will take effect as of the Effective Date of Disenrollment specified in ASES's notice to the Contractor that an Enrollee is no longer eligible. If ASES notifies the Contractor of Disenrollment on or before the last working day of the month in which eligibility ends, the Disenrollment will be effective on the first day of the following month.

5.3.3.2 When Disenrollment is effected at the Contractor's or the Enrollee's request, as provided in Sections 5.3.4 and 5.3.5 of this Contract, Disenrollment shall take effect no later than the first day of the second month following the month that the Contractor or Enrollee requested the Disenrollment. If ASES fails to make a decision on the Contractor's or Enrollee's request before this date, the Disenrollment will be deemed granted. If the Enrollee requests reconsideration of a Disenrollment through the Contractor's Grievance System, as provided in Article 14, the Grievance System process shall be completed in time to permit the Disenrollment (if approved) to take effect in accordance with this timeframe.

5.3.3.3 If what would otherwise be the Effective Date of Disenrollment under this Section 5.3.3 falls:

5.3.3.3.1 When the Enrollee is an inpatient at a hospital, ASES shall postpone the Effective Date of Disenrollment so that it occurs on the last day of the month in which the Enrollee is discharged from the hospital, or the last day of the month following the month in which Disenrollment would otherwise be effective, whichever occurs earlier;

5.3.3.3.2 During a month in which the Enrollee is in the second or third trimester of pregnancy, ASES shall postpone the Effective Date of Disenrollment so that it occurs on the date of delivery; or

5.3.3.3.3 During a month in which an Enrollee is diagnosed with a Terminal Condition, ASES shall postpone the Effective Date of Disenrollment so that it occurs on the last day of the following month.

5.3.3.4 For the public employees and pensioners who are Other Eligible Persons referred to in Section 5.3.1.2.2, Disenrollment shall occur

according to the timeframes set forth in a Normative Letter issued by ASES annually.

5.3.4 Disenrollment Initiated by the Contractor

5.3.4.1 The Contractor has a limited right to request that an Enrollee be disenrolled without the Enrollee's consent. The Contractor shall notify ASES upon identification of an Enrollee who it knows or believes meets the criteria for Disenrollment.

5.3.4.2 The Contractor shall submit Disenrollment requests to ASES, and the Contractor shall honor all Disenrollment determinations made by ASES. ASES's decision on the matter shall be final, conclusive, and not subject to appeal by the Contractor.

5.3.4.3 The following are acceptable reasons for the Contractor to request Disenrollment:

5.3.4.3.1 The Enrollee's continued Enrollment in the Contractor's Plan seriously impairs the ability to furnish services to either this particular Enrollee or other Enrollees;

5.3.4.3.2 The Enrollee demonstrates a pattern of disruptive or abusive behavior that could be construed as non-compliant and is not caused by a presenting illness;

5.3.4.3.3 The Enrollee's use of services is fraudulent or abusive (for example, the Enrollee has loaned his or her Enrollee ID Card to other persons to seek services);

5.3.4.3.4 The Enrollee has moved out of the Contractor's Service Regions;

5.3.4.3.5 The Enrollee is placed in a long-term care nursing facility or intermediate care facility for the intellectually disabled;

5.3.4.3.6 The Enrollee's Medicaid or CHIP eligibility category changes to a category ineligible for the GHP; or

5.3.4.3.7 The Enrollee has died, been incarcerated, or moved out of Puerto Rico, thereby making him or her ineligible for Medicaid or CHIP or otherwise ineligible for the GHP.

5.3.4.4 ASES will approve a Disenrollment request by the Contractor, in ASES's discretion, only if ASES determines:

5.3.4.4.1 That it is impossible for the Contractor to continue to provide services to the Enrollee without endangering the Enrollee or other GHP Enrollees; and

5.3.4.4.2 That an action short of Disenrollment, such as transferring the Enrollee to a different PCP or PMG, will not resolve the problem.

5.3.4.5 The Contractor may not request Disenrollment for any discriminatory reason including, but not limited, to the following:

5.3.4.5.1 Adverse changes in an Enrollee's health status;

5.3.4.5.2 Missed appointments;

5.3.4.5.3 Utilization of medical services;

5.3.4.5.4 Diminished mental capacity;

5.3.4.5.5 Pre-existing medical condition;

5.3.4.5.6 The Enrollee's attempt to exercise his or her rights under the Grievance System; or

5.3.4.5.7 Uncooperative or disruptive behavior resulting from the Enrollee's special needs.

5.3.4.6 The request of one (1) PMG to have an Enrollee assigned to a different PMG, per Section 5.4, shall not be sufficient cause for the Contractor to request that the Enrollee be disenrolled from the Plan. Rather, the Contractor shall, if possible, assign the Enrollee to a different and available PMG within the Plan.

ADMINISTRACION DE SEGUROS DE SALUD

5.3.4.7 When requesting Disenrollment of an Enrollee for reasons described in Section 5.3.4.3, the Contractor shall document at least three (3) interventions over a period of ninety (90) Calendar Days that occurred through treatment and Care Management to resolve any difficulty leading to the request. The Contractor shall also provide evidence of having given at least one (1) written warning to the Enrollee, with a certified return receipt requested, regarding implications of his or her actions.

5.3.4.8 If the Enrollee has demonstrated abusive or threatening behavior as defined by ASES, only one (1) Contractor intervention, and a subsequent written attempt to resolve the difficulty, are required.

5.3.4.9 In the event that the Contractor seeks Disenrollment of an Enrollee, the Contractor must notify the Enrollee of the availability of the

Grievance System and of ASES's Administrative Law Hearing process, as provided by Act 72 of September 7, 1993, as amended.

5.3.4.10 The Contractor shall maintain policies and procedures to comply with the Puerto Rico Patients' Bill of Rights Act and with the Medicaid Regulations of 42 CFR 438.100, to ensure that the Enrollee's exercise of Grievance rights does not adversely affect the services provided to the Enrollee by the Contractor or by ASES.

5.3.5 Disenrollment Initiated by the Enrollee

5.3.5.1 An Enrollee wishing to request Disenrollment must submit an oral or written request to ASES or to the Contractor. If the request is made to the Contractor, the Contractor shall forward the request to ASES, within ten (10) Business Days of receipt of the request, with a recommendation of the action to be taken.

5.3.5.2 An Enrollee may request Disenrollment from the Contractor's Plan without cause during the ninety (90) Calendar Days following the Effective Date of Enrollment with the Plan or the date that the Contractor sends the Enrollee notice of the Enrollment, whichever is later. An Enrollee may request Disenrollment without cause every twelve (12) months thereafter. In addition, an Enrollee may request Disenrollment without cause in the event that ASES notifies the Enrollee that ASES has imposed or intends to impose on the Contractor the intermediate sanctions set forth in 42 CFR 438.702(a)(3).

5.3.5.3 An Enrollee may request Disenrollment from the Contractor's Plan for cause at any time. ASES shall determine whether the reason constitutes a valid cause. The following constitute cause for Disenrollment by the Enrollee:

5.3.5.3.1 The Enrollee moves to a Service Region not covered by the Contractor, or outside of Puerto Rico;

5.3.5.3.2 The Enrollee needs related services to be performed at the same time, and not all related services are available within the network. The Enrollee's PCP or another Provider in the Preferred Provider Network have determined that receiving services separately would subject the Enrollee to unnecessary risk; and

5.3.5.3.3 Other acceptable reasons for Disenrollment at Enrollee request, per 42 CFR 438.56(d)(2), including, but not limited to, poor quality of care, lack of Access to Covered Services, or lack of Providers experienced in dealing with the Enrollee's health care needs.

5.3.5.4 If the Contractor fails to refer a Disenrollment request within the timeframe specified in Section 5.3.3, or if ASES fails to make a Disenrollment determination so that the Enrollee may be disenrolled by the first day of the second month following the month when the Disenrollment request was made, per Section 5.3.3, the Disenrollment shall be deemed approved at that time.

5.3.5.5 ASES shall make the final decision on Enrollees' requests for Disenrollment. ASES may approve or disapprove the request based on the reasons specified in the Enrollee's request, or upon any relevant Information provided to ASES by the Contractor about the Disenrollment request.

5.3.5.6 If the Enrollee's request for Disenrollment under this Section is denied, the Contractor shall provide the Enrollee with a notice of the decision. The notice shall include the grounds for the denial and shall inform the Enrollee of his or her right to use the Grievance System as provided in Article 14, and to have Access to an Administrative Law Hearing after first exhausting the Contractor's Grievance System.

5.3.5.7 Use of the Contractor's Grievance System. ASES may at its option require that the Enrollee seek redress through the Contractor's Grievance System before ASES makes a determination on the Enrollee's request for Disenrollment. The Contractor shall Immediately inform ASES of the outcome of the Grievance process. ASES may take this Information into account in making a determination regarding the request for Disenrollment. The Grievance process must be completed in time to permit the Disenrollment (if approved) to be effective in accordance with the timeframe specified in Section 5.3.3; if the process is not completed within the specified timeframe, then the Disenrollment will be deemed approved by ASES.

5.3.6 Disenrollment during Termination Hearing Process. If ASES notifies the Contractor of its intention to terminate the Contract as provided in Article 35, ASES may allow Enrollees to disenroll Immediately without cause. In the event of such a Termination, ASES must provide Enrollees with the notice required by 42 CFR 438.10, listing their options for receiving services following the Termination Date of the Contract.

5.3.7 ASES shall ensure, through the obligations of the Contractor under this Contract that Enrollees receive the notices contained in Section 5.2.7 (Re-Enrollment Procedures). While these notices shall be issued by the Contractor, per Section 5.2.7], ASES shall provide the Contractor with the information on Certifications and Negative Redetermination Decisions (see Section 5.1.5.1) needed for the Contractor to carry out this responsibility.

5.3.8 Enrollment Database

5.3.8.1 The Contractor shall maintain an Enrollment database that includes all Enrollees, and contains, for each Enrollee, the Information specified in the Carrier Billing File/Carrier Eligibility File format.

5.3.8.2 The Contractor shall notify the Puerto Rico Medicaid Program Immediately when the Enrollment database is updated to reflect a change in the place of residence of an Enrollee.

5.3.8.3 The Contractor shall secure any authorization required from Enrollees under the laws of Puerto Rico in order to allow the US Department of Health and Human Services, and ASES and its Agents to review Enrollee Medical Records, in order to evaluate the Information and determine quality, appropriateness, timeliness, and cost of services performed under this Contract; provided that such authorization shall be limited by the Contractor's obligation to observe the confidentiality of Enrollees' Personal Health Information, as provided in Article 34.

5.3.9 Notification to ASES and the PBM of New Enrollees and of Completed Disenrollments

5.3.9.1 The Contractor shall notify ASES and the PBM of new Enrollees and of completed Disenrollments on a routine Daily Basis; or at any time, if requested by ASES. Such notification will be made through electronic transmissions.

5.3.9.2 The notification will include all new Enrollees as of the Business Day before the notification is issued, and will be sent no later than the following Business Day after the Enrollment process has been completed (as signified by issuance of the Enrollee ID Card, either in person or by surface mail) or the Disenrollment process has been completed (as signified by the issuance of a Disenrollment notice).

5.3.10 In the event that the Contractor must update information previously submitted to ASES about a new Enrollment, or that the Contractor must add a new Enrollee who was previously omitted, such update must occur the next Business Day after the information is updated or a new Enrollee is added. ASES reserves the authority not to accept any new additions or corrections to Enrollment Data after sixty (60) Calendar Days past the Effective Date of Enrollment stated in the Contractor's notification to ASES.

Preferential Turns refers to a policy of requiring Providers to give priority in treating Enrollees from these island municipalities, so that they may be seen by a physician within a reasonable time after arriving in the Provider's office. This priority treatment is necessary because of the remote locations of these municipalities, and the greater travel time required for the residents to seek medical attention. This requirement was established in Laws No. 86 enacted on August 16, 1997 (Arts. 1 through 4) and Law No. 200 enacted on August 5, 2004 (Arts. 1 through 5). The Contractor shall include this requirement in the Provider Guidelines (see Section 10.2.1.4).

14.4.4.5 For authorization decisions not reached within the timeframes required in Section 11.4 for either standard or expedited authorizations, the Notice of Action shall be mailed on the date the timeframe expires, as this constitutes a denial and is thus an Action.

14.5 Appeal Process

14.5.1 The Enrollee, the Enrollee's Authorized Representative, or the Provider may file an Appeal either orally or in writing.

14.5.2 Oral inquiries seeking to appeal an Action are treated as Appeals (to establish the earliest possible filing date for the Appeal), but Enrollees must confirm oral requests for Appeals in writing within ten (10) Calendar Days of the oral filing, unless the Enrollee requests expedited resolution, then no additional follow-up is required.

14.5.3 The requirements of the Appeal process shall be binding for all types of Appeals, including expedited Appeals, unless otherwise established for expedited Appeals.

14.5.5 Appeals shall be filed directly with the Contractor, or its delegated representatives. The Contractor may delegate this authority to an Appeal committee, but the delegation shall be in writing.

14.5.6 The Appeals process shall provide the Enrollee, the Enrollee's Authorized Representative, or the Provider acting on behalf of the Enrollee with the Enrollee's written consent, a reasonable opportunity to present evidence and

14.5.7 The Appeals process shall provide the Enrollee, the Enrollee's Authorized Representative, or the Provider acting on behalf of the Enrollee with the Enrollee's written consent, opportunity, before and during the Appeals process, to examine the Enrollee's case file, including Medical Records, and any other documents and records considered during the Appeals process and provide copies of documents contained therein without charge.

14.5.10 The Contractor shall establish and maintain an expedited review process for Appeals, subject to prior written approval by ASES, when the Contractor determines (based on a request from the Enrollee) or the Provider indicates (in making the request on the Enrollee's behalf) that taking the time for a standard resolution could seriously jeopardize the Enrollee's life or health or ability to attain, maintain, or regain maximum function. The Enrollee, the Enrollee's Authorized Representative, or the Provider acting on behalf of the Enrollee with the Enrollee's written consent, may file an expedited Appeal either orally or in writing.

If the Enrollee disagrees with the decision to extend the prescribed timeframe, he or she has the right to file a Grievance and the Grievance shall be resolved within twenty-four (24) hours. The Contractor shall also make reasonable efforts to provide oral notice for resolution of an expedited review of an Appeal.

14.5.13 The Contractor may extend the timeframe for standard or expedited resolution of the Appeal by up to fourteen (14) Calendar Days if the Enrollee, Enrollee's Authorized Representative, or the Provider acting on behalf of the Enrollee with the Enrollee's written consent, requests the extension or the Contractor demonstrates (to the satisfaction of ASES, upon its request) that there is need for additional information and how the delay is in the Enrollee's interest. 14.7.5 If the Contractor or ASES reverses a decision to deny, limit, or delay services that were not furnished while the Appeal / Administrative Law Hearing was pending, the Contractor shall authorize or provide the disputed services promptly and as expeditiously as the Enrollee's health condition requires.

ARTICLE 19 ENFORCEMENT – INTERMEDIATE SANCTIONS

19.1 General Provisions

19.1.1 In monitoring Contractor's compliance with the terms of the Contract, ASES may impose intermediate sanctions, and/or liquidated damages, and/or fines pursuant to Puerto Rico Act No. 134, for Contractor's failure to comply with the terms and conditions of this Contract (as further specified in Articles 19 and 20 of the Contract).

19.1.2 In the event the Contractor incurs any proscribed conduct or otherwise is in default as to any applicable term, condition, or requirement of this Contract, and in accordance with any applicable provision of 42 CFR 438.700 and Section 4707 of the Balanced Budget Act of 1997, at any time following the Effective Date of the Contract, the Contractor agrees that, in addition to the terms of Section 35.1.1 of this Contract, ASES may impose intermediate sanctions against the Contractor for any such default in accordance with this Article 19. ASES may not impose intermediate sanctions with respect to a specific event of default of the Contractor for which liquidated damages sought to be imposed or are imposed against the Contractor in accordance with Article 20 of this Contract. ASES may impose both intermediate sanctions and fines pursuant to Puerto Rico Act No. 134. The assessment of intermediate sanctions under this Contract cannot and will not limit the power or authority of ASES to impose any other fines, civil money penalties, sanctions, or other remedies recognized by the Commonwealth or Federal laws or regulations.

19.1.3 Notwithstanding any intermediate sanctions imposed upon the Contractor under this Article 19, other than Contract termination, the Contractor shall continue to provide all Covered Services and other Benefits under this Contract.

19.1.4 ASES shall have the right impose the following intermediate sanctions:

19.1.4.1 **Civil Money Penalty** – ASES may impose a civil money penalty for the following categories of events.

19.1.4.1.1 **Category 1** - A civil money penalty in accordance with any applicable provision of 42 CFR 438.700 up to one-hundred thousand dollars ($100,000) per determination shall be imposed for this category. The following constitute Category 1 events:

19.1.4.1.1.1 Acts that discriminate among Enrollees on the basis of their health status or need for health care services. This includes termination of Enrollment or refusal to reenroll a Potential Enrollee, except as permitted under the Medicaid program, or any practice that would reasonably be expected to discourage Enrollment by beneficiaries whose medical or Behavioral Health condition or history indicates probable need for substantial future medical or Behavioral Health Services. Notwithstanding the foregoing, ASES may impose a civil money penalty in the amount of fifteen thousand dollars ($15,000) per each (i) Potential Enrollee that was not enrolled because of discriminatory practices

as described above and/or (ii) discriminatory practices imposed on Enrollees, subject to the overall limit of one-hundred thousand dollars ($100,000) per each determination.

19.1.4.1.1.2 The misrepresentation or falsification of information submitted to ASES and/or CMS.

19.1.4.1.3 **Category 3** – Pursuant to 42 CFR 438.704 (c), ASES may impose a civil money penalty for the Contractor's imposition of premiums or charges in excess of the amounts permitted under the Medicaid program. The maximum amount of the penalty is the greater of twenty-five thousand dollars ($25,000) or double the amount of the excess charges. ASES will deduct from the penalty the amount of overcharge and return it to the affected Enrollees.

19.1.4.2 **Temporary Management** - ASES may appoint temporary management for the Contractor's GHP operations, as provided in 42 C.F.R. 438.702 and 42 C.F.R. 438.706 as a result of Contractor's:

19.1.4.2.1 Continued egregious behavior, including but not limited to behavior described in Categories 1 through 3 of this Article 19;

19.1.4.2.2 Behavior that is contrary to, or is non-compliant with, Sections 1903(m) or 1932 of the Social Security Act, as amended, found at 42 U.S.C. §§ 1396b (m) and 1396u-2;

19.1.4.2.3 Actions which have caused substantial risk to an Enrollee's health; and/or

19.1.4.2.4 Behavior which has led ASES to determine that temporary management is necessary to ensure the health of Contractor's Enrollees while improvements to remedy Category 1 through 3 violations are being made, or until the Contractor's orderly termination or reorganization.

19.1.4.2.5 If temporary management is appointed for any reason specified in Sections 19.1.4.2 above, such temporary management will cease once ASES has, in its discretion, determined that the sanctioned behavior will not re-occur.

19.1.4.3 **Enrollment Termination** – ASES may grant Enrollees the right to terminate Enrollment without cause, and notify the affected Enrollees of their right to disenroll when:

19.1.4.3.1 The Contractor has engaged in continued egregious behavior, including but not limited to behavior described in Categories 1 through 3 of this Article 19;

19.1.4.3.2 The Contractor has engaged in behavior that is contrary to, or is non-compliant with, Sections 1903(m) or 1932 of the Social Security Act, as amended, found at 42 U.S.C. §§ 1396b (m) and 1396u-2;

19.1.4.6 **Mandatory Imposition of Certain Intermediate Sanctions** – ASES shall impose the temporary management and Enrollment suspension intermediate sanctions described in Sections 19.1.4.2 and 19.1.4.3 above, if ASES finds that the Contractor has repeatedly failed to meet substantive requirements in Sections 1903(m) or 1932 of the Social Security Act, as amended, found at 42 U.S.C. §§ 1396b (m) and 1396u-2.

19.1.4.7 Subject to Article 35 of this Contract, in lieu of imposing a sanction allowed under this Article 19, ASES may terminate this Contract, without any liability whatsoever (but subject to making any payments due under this Contract through any such date of termination), if the terms of a Corrective Action Plan implemented pursuant to this Article 19 to address a failure specified in Category 1 or Category 2 of this Article 19 are not implemented to ASES's approval or if such failure continues or is not corrected, to ASES's satisfaction.

19.2 **Notice of Administrative Inquiry**

19.2.1 Prior to the imposition of an intermediate sanction under this Contract, ASES shall issue a notice of administrative inquiry informing the Contractor about ASES's compliance, monitoring, and auditing activities regarding potential non-compliance as described in this Article 19. 19.2.2 The Contractor shall have the right to submit a Corrective Action Plan within fifteen (15) Calendar Days of receipt of the notice of administrative inquiry. If the Contractor timely submits a Corrective Action Plan acceptable and approved by ASES, ASES shall not impose intermediate sanctions on the facts described in its notice of administrative inquiry pursuant to this Article 19. The Contractor cannot submit a Corrective Action Plan for an incident similar to a previous incident for which the Contractor had previously been under a Corrective Action Plan acceptable to ASES.

19.2.3 A notice of administrative inquiry shall not be deemed to constitute and is not ASES's final or partial determination of intermediate sanctions. Thus, any administrative inquiries issued by ASES are not subject to administrative review under Section 19.5, and would be considered premature rendering any administrative examiner without jurisdiction to review the matter.

19.2.4 If the Contractor fails to comply with any material provision under a Corrective Action Plan submitted to ASES pursuant to Section 19.2.2 above, ASES may impose:

19.2.4.1 A daily $5,000 civil money penalty, up to a maximum total of $100,000, for Contractor's ongoing failure to comply with any material provision of the Corrective Action Plan; or

23.4.3 Estate Recoveries. ASES (or another agency of the Commonwealth) will have the sole and exclusive right to pursue and recover correctly paid benefits from the estate of a deceased GHP Enrollee who was Medicaid Eligible in accordance with Federal and Puerto Rico law. Such recoveries will be retained by ASES.

23.4.4 Subrogation

23.4.4.1 Third Party resources shall include subrogation recoveries. The Contractor shall be required to seek subrogation amounts regardless of the amount believed to be available as required by Federal Medicaid guidelines and Puerto Rico law.

23.4.4.2 The amount of any subrogation recoveries collected by the Contractor outside of the Claims processing system shall be treated by the Contractor as offsets to medical expenses for the purposes of reporting.

23.4.4.3 The Contractor shall conduct diagnosis and trauma code editing to identify potential subrogation Claims. This editing should, at minimum, identify Claims with a diagnosis of 900.00 through 999.99 (excluding 994.6) or Claims submitted with an accident trauma indicator of 'Y.'

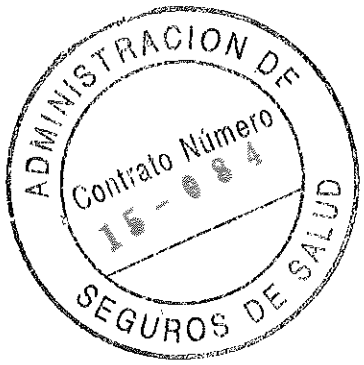
23.4.5 Cost Avoidance

23.4.5.1 When the Contractor is aware of health or casualty insurance coverage before paying for a Covered Service, the Contractor shall avoid payment by promptly (within fifteen (15) Business Days of receipt) rejecting the Provider's Claim and directing that the Claim be submitted first to the appropriate Third Party.

23.4.5.2 Exceptions to the Cost Avoidance Rule. In the following situations, the Contractor shall first pay its Providers and then coordinate with the liable Third Party, unless prior approval to take other action is obtained from ASES:

23.4.5.2.1 The coverage is derived from a parent whose obligation to pay support is being enforced by a government agency.

23.4.5.2.2 The Claim is for maternal and prenatal services to a pregnant woman or for EPSDT services that are covered by the Medicaid program.



23.4.5.2.3 The Claim is for labor, delivery, and post-partum care and does not involve hospital costs associated with an inpatient stay.

23.4.5.2.4 The Claim is for a child who is in the custody of ADFAN.

23.4.5.2.5 The Claim involves coverage or services mentioned in this Section in combination with another service.

23.4.5.3 If the Contractor knows that the Third Party will neither pay for nor provide the Covered Service, and the service is Medically Necessary, the Contractor shall neither deny payment for the service nor require a written denial from the Third Party.

23.4.5.4 If the Contractor does not know whether a particular service is covered by the Third Party, and the service is Medically Necessary, the Contractor shall promptly (within ten (10) Business Days of receipt of the Claim) contact the Third Party and determine whether or not such service is covered rather than requiring the Enrollee to do so. Further, the Contractor shall require the Provider to bill the Third Party if coverage is available.

23.4.6 Sharing of TPL Information by ASES

23.4.6.1 By the fifth (5th) Calendar Day after the close of the month during which ASES learns of such information, ASES will provide the Contractor with a list of all known health insurance information on Enrollees for the purpose of updating the Contractor's files.

23.4.6.2 Additionally, by the fifteenth (15th) Calendar Day after the close of the calendar quarter, ASES will provide to the Contractor a copy of a report containing all of the health insurers licensed by the Commonwealth as of the close of the previous quarter, and any other related information that is needed to file TPL Claims.

23.4.7 Sharing of TPL Information by the Contractor

23.4.7.1 The Contractor shall submit a monthly report to ASES (following ASES file content, format and transmission specifications) by the fifth (5th) Calendar Day after the close of the month during which the Contractor learns that an Enrollee has new health insurance coverage, or casualty insurance coverage, or of any change in an Enrollee's health insurance coverage. The Contractor shall impose a corresponding requirement on its Providers to notify the Contractor of any newly discovered coverage.

23.4.7.2 When the Contractor becomes aware that an Enrollee has retained counsel, who either may institute or has instituted a legal cause of action for damages against a Third Party, the Contractor shall notify ASES in writing, including the Enrollee's name and GHP Enrollee identification number, the date of the accident/incident, the nature of the injury, the name and address of the Enrollee's legal representative, copies of the pleadings, and any other documents related to the action in the Contractor's possession or control. This shall include, but not be limited to, the name of the Provider, the Enrollee's diagnosis, the Covered Service provided to the Enrollee, and the amount paid to the Provider for each service.

23.4.7.3 The Contractor shall notify ASES within thirty (30) Calendar Days of the date it becomes aware of the death of one of its Medicaid Eligible Enrollees age fifty-five (55) or older, giving the Enrollee's full name, Social Security number, and date of death. ASES will then determine whether it can recover correctly paid Medicaid benefits from the Enrollee's estate.

23.4.7.4 The Contractor agrees to share with ASES instances of Enrollee non-cooperation with the Contractor's and with Network Providers' efforts to determine sources of Third Party Liability.

23.4.7.5 The Contractor agrees to cooperate with ASES in its oversight and monitoring reviews of all Third Party Liability activities.

23.4.8 Historic Cost Avoidance due to the existence of liable Third Parties is embedded in the cost of health services delivery and is reflected in the rates upon which ASES will base PMPM Payments to the Contractor. The PMPM Payment does not include any reductions due to tort recoveries.

23.5 **GHP as Secondary Payer to Medicare**

23.5.1 In general, as provided in Section 7.12, except for services offered by Medicare Platino plans which operate independently of this Contract, the GHP does not duplicate coverage provided by Medicare to Dual Eligible Beneficiaries and the Contractor shall not be a secondary payer for services for which Medicare is liable.

23.5.1.1 However, in a situation in which a Covered Service is covered in whole or part by both Medicare and GHP (for example, hospitalization services for a Dual Eligible Beneficiary who is enrolled in Medicare Part A only and whose hospitalization costs exceed the Medicare limit, per Section 7.12. of this Contract), the Contractor shall determine liability as a secondary payer as follows:

23.5.1.1.1 If the total amount of Medicare's established liability for the services (Medicare paid amount) is equal to or greater than the negotiated contract rate between the Contractor and the Provider for the services, minus any GHP cost-sharing requirements, then the Provider is not entitled to, and the Contractor shall not pay, any additional amounts for the services.

23.5.1.1.2 If the total amount of Medicare's established liability (Medicare paid amount) is less than the negotiated contract rate between the Contractor and the Provider for the services, minus any GHP cost-sharing requirements, the Provider is entitled to, and the Contractor shall pay, the lesser of:

23.5.1.1.2.1 The Medicaid cost-sharing (Deductibles and coinsurance) payment amount for which the Dual Eligible Beneficiary is responsible under Medicare, and

23.5.1.1.2.2 An amount which represents the difference between (1) the negotiated contract rate between the Contractor and the Provider for the service minus any GHP cost-sharing requirements, and (2) the established Medicare liability for the services.

23.5.2 Enrollment Exclusions and Contractor Liability for the Cost of Care. Any Dual Eligible Beneficiary who is already enrolled in a Medicare Platino Plan may not be enrolled by the Contractor. However, if the Contractor operates its own Medicare Platino plan, the Contractor may enroll a Dual Eligible Beneficiary in the Platino plan, which furnishes GHP Benefits, per separate contract with ASES.

23.5.3 Protections for Medicaid Enrollees

23.5.3.1 The Contractor shall neither impose, nor allow Providers to impose, any cost-sharing charges of any kind upon Medicaid Eligibles enrolled in GHP, other than as authorized in this Contract.

23.5.3.2 Unless otherwise permitted by Federal or Puerto Rico law, Covered Services may not be denied to a Medicaid Enrollee because of a Third Party's potential liability to pay for the services, and the Contractor shall ensure that its Cost Avoidance efforts do not prevent Enrollees from receiving Medically Necessary Services.

23.6 **Physician Incentive Plans**

23.6.1 Any Physician Incentive Plans established by the Contractor shall comply with Federal and Puerto Rico regulations, including 42 CFR 422.208 and 422.210, and 42 CFR 438.6(h), and with the requirements in Section 10.7 of this Contract.

23.6.2 The Contractor shall obtain prior written approval from ASES before implementing any Physician Incentive Plan arrangements, as required in Section 10.7, and shall provide information about such arrangements to Enrollees upon request, as required in Section 6.4.5 of the Contract. Such disclosure shall include:

23.6.2.1 Whether services not furnished by the Provider or PMG are covered by the incentive plan;

23.6.2.2 The type of incentive arrangement;

23.6.2.3 The percentage of Withhold or bonus;

23.6.2.4 The panel size and if patients are pooled, the method used; and

23.6.2.5 If the Provider or PMG is at substantial financial risk proof that the Provider or PMG has adequate stop loss coverage, including amount and type of stop loss.

23.6.3 Annually, the Contractor shall report the information specified by the regulations to ASES in order that ASES can adequately monitor the

Contractor's plan, under the criteria set forth in 42 CFR 422.208 and 422.210.

23.6.4 Such Physician Incentive Plans may not provide for payment, either directly or indirectly, to a Provider or PMG as an inducement to reduce or limit Medically Necessary Services furnished to an Enrollee.

23.7 **Financial Reporting Requirements**

23.7.1 The Contractor shall submit to ASES all of the reports as indicated in Section 22.1.

23.7.2 Failure to submit the reports within the established timeframes, or failure to submit complete, accurate reports, may result in the imposition of liquidated damages and/or fines as outlined in Article 20 of this Contract.

23.7.3 The Contractor, at its sole expense, shall submit by May 15 (or a later date if approved by ASES) of each year a "Report on Controls Placed in Operation and Tests of Operating Effectiveness," meeting all standards and requirements of the AICPA's SAS 70, for the Contractor's operations performed for ASES under the GHP Contract.

23.7.3.1 The audit shall be conducted by an independent auditing firm, which has prior SAS 70 audit experience. The auditor shall meet all AICPA standards for independence. The selection of, and contract with the independent auditor shall be subject to the prior written approval of ASES. ASES reserves the right to, at the Contractor's expense, designate other auditors or reviewers to examine the Contractor's operations and records for monitoring and/or stewardship purposes.

In particular, both the "Statements on Auditing Standards Number 70-Reports on the Processing of Transactions by Service Organizations" and the AICPA Audit Guide, "Audit Guide of Service-Center-Produced Records" are to be used.

23.7.3.3 The Contractor shall respond to the audit findings and recommendations within thirty (30) Calendar Days of receipt of the final audit report. Also the Contractor must submit a Corrective Action Plan to ASES which will be subject to ASES' prior review and written approval within twenty (20) Calendars Days of the

notification of the audit. The Contractor must implement the Corrective Action Plan, as a maximum, within fifteen (15) Calendar Days of its approval by ASES. The entity should request an extension by formal written request addressed to the Office of Compliance of ASES who will evaluate the request and provide the specific timeframe for the extension.

23.7.4 The Contractor shall submit to ASES a "Disclosure of Information on Annual Business Transactions." This report must include:

25.1 Neither Party is an Agent, employee, or servant of the other. It is expressly agreed that the Contractor and any Subcontractors and Agents, officers, and employees of the Contractor or any Subcontractor in the performance of this Contract shall act as independent contractors and not as officers or employees of ASES. The Parties acknowledge, and agree, that the Contractor, its Agent, employees, and servants shall in no way hold themselves out as Agent, employees, or servants of ASES. _____, 2015

Dear Enrollee:

Greetings and welcome to the Government Health Plan of Puerto Rico!

The Health Insurance Administration (ASES, its Spanish acronym) has developed this Uniform Guide for you to be informed on the use of the benefits provided by the Government Health Plan (GHP). This way you can have available the information you need regardless of the company that provides your healthcare.

The GHP offers the broadest benefit coverage through a coordinated care model. Under the GHP model you will be able to move freely within the preferred network and visit your specialists, sub-specialists, laboratories, x-rays and other health care providers without the need for referral and without co-pays. Your Primary Medical Group (PMG) and the Health Plan will inform you who are the providers that compose the preferred network.

You have the opportunity to choose a Primary Medical Group (PMG) and a Primary Care Physician (PCP) and if you do not choose you will be assigned a PMG and PCP in your area. They will keep a complete clinical record on your health conditions, allergies, medications. All of the services offered will comply with the strictest quality and cost-effective standards required by the health industry and federal and Commonwealth regulations.

We ask that you keep your address and personal information updated by contacting the Medicaid Program Office in which you submitted your eligibility application. You must also attend your re-certification appointments so that you do not lose your health care benefits.

Visit your PCP for the necessary tests for your cholesterol, sugar, and blood pressure. Visiting your PCP can also help to early detect diseases such as cardiovascular diseases, diabetes and cancer.

We invite you to make good use of this benefit offered by the Government of Puerto Rico, whose aim is to safeguard your health.

Cordially,

Ricardo A. Rivera Cardona
Director Ejecutivo

IMPORTANT:

No Hospital can refuse emergency services for not having the Government Health Plan card. Under EMTALA you have the right to receive adequate emergency services, including evaluation and Treatment of an emergency condition or delivery in Hospital Emergency Rooms.

DISENROLLMENT

You may request Disenrollment from your Health Plan without cause during the ninety (90) calendar days following the Effective Date of Enrollment with the Health Plan or the date that the Health Plan sends you notice of the Enrollment, whichever is later. You may request Disenrollment without cause every twelve (12) months thereafter.

You may request Disenrollment from the Government Health Plan for cause at any time. The following constitute cause for Disenrollment by the Enrollee:

1. The Enrollee moves to a Service Region not administered by the Health Plan, or outside of Puerto Rico;
2. The Enrollee needs related services to be performed at the same time, and not all related services are available within the General Network. The Enrollee's PCP or another Provider in the Preferred Provider Network have determined that receiving service separately would subject the Enrollee to unnecessary risk;
3. Poor quality of care; or
4. Lack of Access to Covered Services, or lack of Providers experienced in dealing with the Enrollee's health care needs.

ASES shall make the final decision on Enrollee requests for Disenrollment. An Enrollee wishing to request Disenrollment must submit an oral or written request to ASES or to the Health Plan. If the request is made to the Health Plan, the Health Plan shall forward the request to ASES, within ten (10) Business Days of receipt of the request, with a recommendation of the action to be taken.

The following are acceptable reasons for the Health Plan to request Disenrollment:

1. The Enrollee's continued enrollment in the Government Health Plan seriously impairs the ability to provide services to either this particular Enrollee or other Enrollees;
2. The Enrollee demonstrates a pattern of disruptive or abusive behavior that is not caused by a presenting illness;
3. The Enrollee's use of services constitutes Fraud, Waste or Abuse (for example, the Enrollee has loaned his or her Enrollee ID Card to other persons to seek services);
4. The Enrollee has moved out of Puerto Rico or out of the Health Plan's Service Regions;

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15 - 0 8 4

5. The Enrollee is placed in a long-term care nursing facility or intermediate care facility for the developmentally disabled;
6. The Enrollee's Medicaid or CHIP eligibility category changes to a category ineligible for the Government Health Plan; or
7. The Enrollee has died or has been incarcerated, thereby making him or her ineligible for Medicaid or CHIP or otherwise ineligible for the Government Health Plan.

If you are disenrolled from your Health Plan, you will lose access to services under the Government Health Plan.

RE-ENROLLMENT

If you are a Medicaid or CHIP member or member of the Commonwealth Population and you lose eligibility for the GHP for a period of less than two (2) months, you will be re-enrolled in your Health Plan.

FRAUD, WASTE AND ABUSE

What is Fraud?

Fraud affects adversely insured beneficiaries, health plans and professionals and entities that render health services. Fraud refers to any intentional and deliberate act to deprive another of property or money through deception or any other unfair action. It is done with the purpose of deceiving or making false misrepresentation with the purpose of obtaining a personal benefit or to benefit another person.

You have the responsibility of reporting any situation you understand may involve fraud against the Medicaid Program. Some examples of fraud are:

- Billing for medical services or procedures not actually performed.
- Billing for supplies or medications not dispensed.
- Lending an ID card to someone who is not entitled to it (misrepresentation) to obtain clinical services or medications.
- Billing for a more costly payment than the one actually performed to obtain a higher payment.
- Submitting false documents to obtain reimbursements.
- Billing for the same service more than once.
- Providing false information in a health enrollment form.
- Billing for the dispensing of full Prescription when the Prescription was actually filled partially.
- Receiving services rendered by a provider that has been excluded from the Medicaid Program.
- Receiving reimbursement for services that are not medically necessary or that do not comply with the health care professional standards.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
5 - 084

It is important that any illegal or fraudulent action be reported immediately to your Health Plan's Complaint Unit, the Patient's Advocate Office or to ASES at the telephone numbers or email addresses included in page [5] of this Handbook.

What is Abuse?

Abuse is the excessive and improper use of a product, service or benefit, which results in unnecessary or excessive costs for the health care system.

Some examples are:

- Overuse of services that are not medically necessary, such as the constantly using the emergency room instead of going to the Primary Care Physician.
- Excess in the orders for diagnostic tests that do not have a medical justification.
- Waiving health plan Copayments or Coinsurances to attract customers.

What is Waste?

Waste is the overutilization of services, misuse of resources or other practices that, directly or indirectly, result in unnecessary costs.

Some examples are:

- Prescribing high cost medications instead of similar generic or lower cost medication.
- Billing errors due to inefficient billing systems.
- Inflated prices on services or devices.

What can I do to avoid Fraud, Waste and Abuse?

- Protect your ID card information: never provide information on your Health Plan to strangers or to callers by phone.
- Learn the terms of your coverage and keep a copy of the medical studies to avoid duplicating services. If you visit a doctor, keep a copy of your laboratory results and other tests performed and have on hand a list of the medications you are taking. In this way you will not have to repeat tests that will consume time and money.
- Verify the information before signing any insurance enrollment form or health service form.
- Request and review the quarterly summary of the services you receive. You may request the summary of services directly to the Health Plan that provides you the Government Health Plan Services.

How can I report situations on Fraud, Waste and/or Abuse?

If you have information or suspicion that you have been a victim of health plan fraud, you may contact your Health Plan through the call center of the Government Health Plan at the numbers that appear on the back of your ID card. PRIMARY MEDICAL GROUP AND PRIMARY CARE PHYSICIAN

Can I change my Primary Medical Group or the Primary Care Physician?

Yes, you may change your Primary Medical Group or your Primary Care Physician either by visiting your Health Plan's Service Center or by calling your Health Plan's Customer Service Line at [xxx-xxx-xxxx].

Changes to the Primary Medical Group and Primary Care Physician – You will only be able to change within the first 90 days following the date in which you received your Government Health Plan ID card. After this 90-day period, you may only change your Primary Medical Group and your Primary Care Provider once a year. If there is a Good Cause, you may change your Primary Medical Group or your Primary Care Physician at any time.

The following events are considered a Good Cause for a change:

1. You move out of the region;
2. For moral or religious reasons, the provider does not render the services you need;
3. You need services that must be rendered at the same time and the services are unavailable. Not receiving all the services as ordered may put you at risk unnecessarily.
4. Other acceptable reasons include, but are not limited to:
   a. Bad quality of services;
   b. Lack of Access to Covered Services; and
   c. Lack of providers with experience to take care of your health care needs.

ASES will determine if the reason is a Good Cause.

Changing the Primary Care Physician and the Primary Medical Group, (referred in previous paragraph) must be made during the first 5 days of the month, so the change becomes effective the next month (e.g. If you make the change on January 5, the change will be effective on February 1). However, if you change after the first 5 days of the month, the change will be effective on the subsequent month. (e.g. If you make the change on January 6, it will be effective on March 1).

To change the Primary Care Physician within the same Primary Medical Group, you only have to choose the new Primary Care Physician within same Primary Medical Group you have now and the change will be effective on the following month.

IMPORTANT:
The Medicaid Program is the only office authorized to make changes on your personal information and your residential address. You must notify the Medicaid Program of any changes such as changes in address, family group, marital status, your income, corrections to names, and dates of birth, among others.

Your Health Plan must keep you informed when a Primary Care Physician. Specialist or Sub-specialist is no longer available to be your medical service provider, so you can choose a new Primary Care Physician, Specialist or Sub-Specialist. You must receive the notice sent by your Health Plan within 15 days from the date your Health Plan was informed that the provider will not continue providing services. The notice the Health Plan provides to you will give you the instructions for you to be able to choose a new physician among those in your Primary Medical Group.

Choosing the Primary Medical Group and the Primary Care Physician

Remember that you have the freedom to choose the Primary Medical Group and the Primary Care Physician you want. If you do not agree with the assigned PMG and/or PCP made by your Health Plan, you can change. **The Primary Medical Group and the Primary Care Physician you choose must render services with the region to which you belong.**

You must choose a Primary Care Physician for each insured member in your family. The Primary Care Physicians you use for you and your dependents may be different, but they must belong to the same Primary Medical Group.

If you are a woman, you may choose a gynecologist/obstetrician in addition to any other Primary Care Physician. If you are pregnant, your Primary Care Physician will be your gynecologist/obstetrician during your pregnancy. When your pregnancy ends you will go back to receive care from the Primary Care Physician you chose: a Generalist, Internist, or Family Practitioner. Your gynecologist will still be your other Primary Care Physician to meet your gynecological situations. You may choose a pediatrician for your baby or one will be assigned to you.

IMPORTANT:
Remember, you must register your baby in the Medicaid Program before he is 90 days of age. You must bring with you the birth certificate.

RECERTIFICATION OF ELIGIBILITY

Once the Medicaid Program (PAM, for its acronym in Spanish) of the Health Department certifies you as eligible, you must attend all the appointments to all reevaluation appoints, so you don't lose your eligibility. If you lose eligibility you will lose the benefits of the Government Health Plan, because you will not have the benefits of your Health Plan. Your Health Plan will send you a letter at 90 days, 60 days and 30 days before your eligibility ends as a reminder that you must visit the Medicaid Office in your hometown to recertify your eligibility.

If you miss your recertification appointment, you must immediately call the Medicaid Program Call Center at the toll-free number 1-885-400-4224 or visit your Medicaid Office located in your hometown to request a new appointment.

You must notify the Medicaid Program of any changes in address, income level, dependents, corrections to your address or name, or changes in marital status (married, divorced widower, etc.).

If you are pregnant, when you have your baby, you must visit the Medicaid Program Office and submit the birth certificate to enroll the baby in the Government Health Plan. If you do not comply with this requirement, the baby will lose the right to receive services under the Government Health Plan of Puerto Rico. It is possible that with the arrival of this new baby you can obtain more benefits if your level of poverty changes.

IMPORTANT:
Remember, it is your responsibility to keep appointments and update your information and mailing address with the Medicaid office in order to receive communications related to your recertification. If you do not receive the notification from your Health Plan, it is your responsibility to request the reevaluation appointment.

PUBLIC EMPLOYEE

If you are a public employee or a retiree from the Government of Puerto Rico and your payroll is process by the Treasury Department, you may enroll in the Government Health Plan during the open enrollment period to choose public employees health insurance plans. If you choose the Government Health Plan, the employer contribution will go to ASES and you will pay the difference, if any.

You can also visit the Medicaid Program for them to evaluate your case and, if found eligible and medically indigent, you will not have to pay the difference, if any, between the premium and the employer contribution as it will be paid with government funds.

Medical indigence is granted for a period of 12 months. Your plan will send you a letter 90 days, 60 days, and 30 days prior to the end of your eligibility period, reminding you that your eligibility is about to end and that you must visit your Medicaid Program Office located in your town of residence and request the reevaluation of your case.

In case of public employees that are married, they may enroll in the Government Health Plan combining both employer contributions (known as joint enrollment) for your eligibility. Your employer will provide the contributions to ASES, while you remain active and eligible under the Medicaid Program.

If after the evaluation, it is determined that you are no longer eligible to the Government Health Plan as medically indigent, you can enroll in the Government Health Plan as ELA Puro until the new health plan open enrollment period for public employees or you may enroll in any other health insurance plans contracted for public employees. It is your choice!

IMPORTANT:
Remember to attend your eligibility reevaluations on time, so you do not lose your Government Health Plan benefits.

What can I do if my eligibility in GHP is cancelled?

If the Medicaid Program determined that you are no longer eligible to the Government Health Plan, and you are an employee or retiree of the Government of Puerto Rico, you have the right to enroll in the Government Health Plan under ELA Puro within the 30 days following the date in which you lost your eligibility. In this way, you will not lose your medical coverage until the new government employee open enrollment period and you can choose any of the health plans contracted, including enrolling in the Government Health Plan.

If you are not an employee or retiree of the Government of Puerto Rico and you lose your eligibility, you may enroll in a Pago Directo Plan by submitting an application with your Health Plan. You must complete the formalities within 30 days from the date your eligibility to the Government Health Plan was cancelled.

How can I enroll in another of the plans contracted for government employees?

If you decide to join another plan from among the plans contracted for government employees according to Law 95, which is not the Government Health Plan, before you enroll in the new plan you will have to go to the Medicaid Program Office in your hometown to cancel your eligibility. The cancellation of your Government Health Plan coverage will be effective on the first day of the month following the date in which you requested your cancellation under the Medicaid Program.

If you do not cancel your eligibility to the Medicaid Program, ASES will continue receiving you employer contribution and you will have to pay the total premium of the Private Plan you chose.

IMPORTANT:
Remember that for you to be able to enroll in another plan, you must have lost your eligibility and may only enroll in another plan during the open health insurance enrollment period for the employees of the Government of Puerto Rico established by ASES.

Can the members of the Police Department of Puerto Rico enroll in the Government Health Plan?

The members of the Police Department of Puerto Rico, their spouses and children may also enroll in the Government Health Plan of Puerto Rico and the Police Department of Puerto Rico will transfer to ASES their employer contribution.

You must visit the Medicaid Program Office located in your town of residence to be certified under the Medicaid Program. This benefit will remain valid even if the member of the Police Department dies under any circumstance and as long as the widow does not re-marry and the children are under age 26 and are not married.

WHAT IS COORDINATED CARE?

The Government Health Plan uses a Coordinated Care model in which your health is under the care of a Primary Care Physician, who will be responsible to evaluate the beneficiary periodically and coordinate all the health services the person may need. Under this model your Primary Care Physician will keep an updated record of all the services you receive.

YOUR PRIMARY MEDICAL GROUP AND YOUR PRIMARY CARE PHYSICIAN

What is a Primary Medical Group?

Primary Medical Group (PMG) – is composed of several physicians who have joined to provide the services you need to keep you healthy. What was known as IPA, now it is known as PMG. Within this Group, there are physicians with different specialization which have been classified as Primary Care Physicians, among which there are:

- General Practitioners
- Family Physicians
- Pediatricians
- Gynecologists/Obstetricians
- Internists

Besides these five categories of Primary Care Physicians, under the new model of the Government Health Plan you will also have Specialists, sub-specialists, laboratories, X-rays facilities and Hospitals, among others, to form what we call the Preferred Providers Network of the Primary Medical Group. You have the freedom to visit the physicians and providers that are part of the Preferred Network without the need of a Referral or Copayment.

IMPORTANT:

Routine physical exams shall be provided for Enrollees age twenty-one (21) and over within thirty (30) calendar days of the Enrollee's request for the service.

Routine physical exams for minors less than twenty-one (21) years of age - an initial health and screening visit shall be provided to all newly enrolled Medicaid and CHIP Eligible children within ninety (90) calendar days and within twenty-four (24) hours of birth to all newborns; and, after the initial checkup, annually.

Routine evaluations for Primary Care shall be provided within thirty (30) calendar days, unless the Enrollee requests a later time.

Covered Services shall be provided within fourteen (14) calendar days following the request for service.

Specialist Services shall be provided within thirty (30) calendar days of the Enrollee's original request for service.

Dental services shall be provided within sixty (60) calendar days following the request, unless the Enrollee requests a later date.

Behavioral Health Services shall be provided within fourteen (14) calendar days following the request, unless the Enrollee requests a later date.

Diagnostic laboratory, diagnostic imaging and other testing appointments shall be provided consistent with the clinical Urgency, but no more than fourteen (14) calendar days, unless the Enrollee requests a later time.

Appointment for urgent situations – as long there is not a risk of death or damage to the body or body organs, they must be obtained within a period of 24 hours.

These conditions must be treated at the medical office or offices with extended business hours, not at emergency rooms.

What is a Preferred Providers Network?

They are a group of Specialists, sub-specialists and health service facilities with a contract with your Health Plan to provide services under your Primary Medical Group. As long as you visit your Primary Medical Group Preferred Network, you will not have to wait for a Referral or pay Copayments.

The information below tells about some physicians and providers, without limiting to these specializations that **may belong** to the Primary Medical Group of your choice:

- Specialists and sub-specialists (including but not limited to Cardiologists, Orthopedists, Rheumatologists, Endocrinologists, Urologists, Gastroenterologist, Oncologists, Physiatrists).

- Ancillary Service providers: physical therapists, nutritionists, speech pathologists, among others.
- Clinical laboratories.
- Specialized diagnostic tests.
- Imaging centers.
- Cardiovascular surgery and catheterism centers.
- Hospitals.
- Urgency rooms.
- Emergency rooms.

Another benefit you will now have under the Government Health Plan is that you will no longer need the countersignature of your Primary Care Physician on the Prescriptions ordered by any other physician that is not your Primary Care Physician, **as long as the physician ordering the Prescription is part of the Preferred Network of your Primary Medical Group.**

For laboratory and X-rays services you will need an order from the prescribing physician, but not the Authorization of your Primary Care Physician, as long as you **receive the services at a laboratory or X-rays that belongs to the Preferred Provider Network of your Primary Medical Group.**

The preferred networks will guarantee Access, quality and availability of the health services to be rendered to beneficiaries.

Are all my Specialists within the Preferred Network of my Primary Medical Group?

In case that the Specialist or sub-specialist that you need is not part of the Preferred Network of your Primary Medical Group, your Primary Care Physician must give you a Referral so you can visit the Specialists or sub-specialists outside the Preferred Network of your Primary Medical Group and you will have to pay corresponding Copayments. Your Primary Care Physician will be the one to coordinate the visits to physician and providers of medical services outside the Preferred Network of Providers of your Primary Medical Group.

You may visit Specialists or sub-specialists from your Health Plan's General Network of Providers as long as your Primary Care Physician gives you the corresponding Referral and coordinates the visit, which will be subject to the applicable Copayments.

The Health Plan must cover FQHC services out-of-network at no cost to you for as long as FQHC services are unavailable in the Health Plan's Preferred and General Network of providers. The out-of-network FQHC services require a Referral from your PCP and there is no applicable Copayment. If you wish to visit a Specialist or sub-specialist that does not belong to the Preferred Network of your Primary Medical Group, when there is a physician with the same specialty in the Preferred Network of the Primary Medical Group, you will also need a Referral from your Primary Care Physician and you will be responsible of paying the corresponding Copayment.

Referrals to visit a Specialist or other health provider, for either the general network or out of network services, must be provided during the same visit with the PCP but no later than 24 hours of the Enrollee's request.

Authorizations or Preauthorizations for services must be provided within 72 hours. If life or health could be endangered by a delay in Accessing services, Prior Authorizations must be provided as expeditiously as the Enrollee's health requires, and no later than twenty-four (24) hours from the Service Authorization Request.

Non-compliance with these terms will be a reason to submit a Complaint. Nevertheless, if you are in the Special Coverage Registry you will not need Referrals from your Primary Care Physician, as long as the Treatment you are going to receive corresponds to your Special Coverage diagnosis.

IMPORTANT:

Your Primary Care Physician is the only authorized provider to give you the referrals you need for your health condition. The Administrator, the Medical Director or the Board of the Primary Medical Group cannot issue or authorize the referral.
If your Primary Care Physician does not provide you with the referral, you can request an Administrative Referral from your Health Plan by submitting a Complaint. Your Health Plan evaluates the Complaint or Grievance before proceeding with the final determination.

Your Health Plan will mail to you the Directory of the Providers of the Primary Medical Group and General Network. This information is also available on your Health Plan's website.

What is your Health Plan's General Network?

They are the Specialists, sub-specialists and health services facilities your Health Plan has contracted to provide support to the Primary Medical Groups. This General Network of your Health Plan will be available to provide those services you cannot obtain through the Preferred Network of your Primary Medical Group, as long as your Primary Care Physician gives you a Referral.

To be able to receive services from your Health Plan's General Network, you must obtain a Referral from your Primary Care Physician and pay the corresponding Copayments. Prescription drugs or other service orders issued by your Health Plan's General Network will need the countersignature or Authorization of your Primary Care Physician. That is, you will always have to go back to your Primary Care Physician for him/her to authorize the service ordered (laboratory, x-rays) and to countersign the Prescription of the medications for the pharmacy to be able to dispense them.

Will I need the Countersignature on the Prescriptions of Medications?

No participating pharmacy of the Government Health Plan can request the countersignature of the Primary Care Physician on Prescriptions ordered by Specialists or sub-specialists that belong to the Preferred Network of the Primary Medical Group.

If the Prescription of medications is from a Specialist or sub-specialist that belongs to your Health Plan's General Network or the Preferred Network of another Primary Medical Group that is not the Primary Medical Group you chose, you will need the countersignature of Primary Care Physician for the Prescription to be dispensed.

Remember, you must visit the Specialists and sub-specialists within the Preferred Network of your Primary Medical Group, so you will not need the countersignature of your Primary Care Physician.

IMPORTANT:
Remember to use the Specialists and sub-specialists within the Preferred Network of your Primary Medical Group, so you do not need the countersignature of your Primary Care Physician on your Prescriptions.

UTILIZATION MANAGEMENT POLICIES AND PROCEDURES

Utilization management is an evaluation of medical information to see if the service requested or recommended by your provider is necessary according to certain rules, known as clinical criteria or guidelines. The utilization management decisions are made by trained health professionals.

Your Health Plan offers clinical support through specialized programs that facilitate the Access and adequacy of services with the guarantee that services offered meet the highest standards of quality. These programs are: Disease Management, Preauthorization of Services and Case Management. Your Primary Care Physician (PCP) may decide to refer you to these programs if he/she believes you may benefit from them. For Covered Services that need Preauthorization, your Health Plan evaluates and issues a precertification of service once the care needs for the service is confirmed. If you have a chronic condition, such as Asthma, Diabetes, Hypertension or Congestive Heart Failure, you may benefit from participating in the Health Plan's Disease Management Program. When your health conditions require Treatment and management considered complex, or Treatments needs to be provided in the home setting, your Primary Care Physician may refer you to the Case Management Program for assistance and coordination of your care needs. For more information please contact your Health Plan's Customer Service.

The Health Plan also has a staff of trained mental health professionals to make decisions concerning utilization management. Some of the services that require an evaluation (Preauthorization) by the utilization management department staff before you get them are:

- Hospitalizations at a psychiatric Hospital;
- Partial hospitalizations;
- Some medications; and
- Some specialized Treatments (e. g. electroconvulsive therapy).

EMERGENCIES AND URGENCIES

How do I know when it is an emergency?

"It is a medical or Behavioral Health condition that manifests itself by acute symptoms of sufficient severity (including severe pain) that a prudent layperson who has average knowledge of medicine and health would reasonably expect the absence of immediate medical attention to result in placing a person's health in serious jeopardy, serious impairment of bodily functions or serious dysfunction of any bodily organ or part, serious harm to self or other due to an alcohol or drug abuse emergency, serious injury to self or bodily harm to others. In case of a pregnant woman that has contractions it may be that there is not enough time to transfer her to any facility before delivery or, that transferring her to a facility, may seriously jeopardize her health or the health of the unborn child.

When can I receive emergency services?

You just have to arrive at any emergency room throughout Puerto Rico. You do not need Referrals or Preauthorization for emergency services.

You can also call the Government Health Plan at the toll-free number listed on the back of your Government Health Plan ID card. When you contact the call center of the Government Health Plan for information and medical advice, you will be provided a code, so you do not have to pay Copayments if you had to go to an ER. No Co-Payment will be imposed on a Medicaid or CHIP Eligible Enrollee for Treatment of an Emergency Medical Condition or Psychiatric Emergency (regardless of whether the Enrollee uses the Medical Advice Service and gets the code or not).

And then, what is an Urgency?

A medical condition that poses no risk of imminent death that can be treated in the doctor's office or in the facilities with extended hours and not in emergency rooms. An Urgency can become an emergency if not properly dealt with at the right time.

How can I receive Urgency services?

Visit or call your Primary Care Physician. If you have an Urgency or a question about your health, you may call toll-free to the Government Health Plan hotline for medical information and advice. The telephone to this hotline, which is available 24 hours a day, 7 days a week, appears on the back of your Government Health Plan ID card.

How can I receive services outside business hours from my Primary Care Physician, the Primary Medical Group or the Preferred Network of Providers?

You must consult the Directory of Providers your Health Plan provided you, to learn about the business hours of your physicians. In addition, the Directory gives you the number for the Government Health Plan call center, so you can receive information and advice regarding your health condition as well as how to obtain services on extended hours.

If you understand that it is necessary to go to an emergency room, nobody can stop that right. When you use the Government Health Plan call center for information and medical advice, they will provide you a code, so you do not have to pay Copayments if you need to go to an emergency room. They will have to give you the code, regardless of your condition. No Co-Payment will be imposed on a Medicaid or CHIP Eligible Enrollee for Treatment of an Emergency Medical Condition or Psychiatric Emergency (regardless of whether the Enrollee uses the Medical Advice Service and gets the code or not).

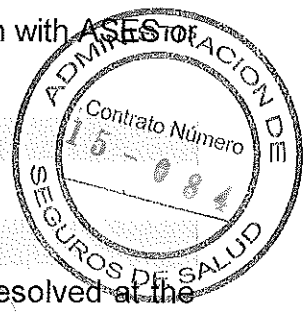
WHAT IS AN ADVANCE DIRECTIVE?

An Advance Directive is a written legal document which allows you to instruct your attending physician on your Treatment preferences in case there is a moment that you lose your capacity to approve the Treatment. The written document that states the Advance Directive is known as a living will.

The instructions regarding your Treatment may be stated before a lawyer, who will prepare a legal document with your instructions or before your attending physician with two witnesses, of legal age and legal capacity, who are not relatives.

Your physician can provide you information on how you can exercise your right to Advance Directives. In case you are confined in a Hospital, the staff from the Hospital Administration Office can provide you the necessary information and the forms you must you fill out to validate your Advance Directives. You may also contact the Senior Citizens Advocate Office at 787-721-6121, who provides information booklets on this topic.

For any Complaints concerning Advance Directives, you can file directly them with ASES or with the Puerto Rico Office of the Patient Advocate.



COMPLAINTS, GRIEVANCES AND APPEALS

What is a Complaint?

A Complaint is an expression of dissatisfaction about any matter that is resolved at the point of contact rather than through filing a formal Grievance (see below for what is a Grievance). Complaints are not Actions; please see below for what is an Action.

For example, you can make a Complaint for incidents related to, but not limited to:

- Problems getting an appointment, or having to wait a long time for an appointment; or
- Disrespectful or rude behavior by doctors, nurses or other Health Plan clinic or Hospital staff.

How can you file a Complaint?

You can call, write or visit your Health Plan's Service Centers for them to take your Complaint. Your physician, a relative or a person authorized by you, can file the Complaint on your behalf. Your Health Plan's staff can provide help to you to file your Complaint.

You or your authorized representative must file a Complaint within fifteen (15) calendar days after the date of occurrence that initiated the Complaint. The Health Plan shall resolve your Complaint within seventy-two (72) hours of receipt of the initial Complaint, whether orally or in writing. If the Complaint is not resolved within this timeframe, the Complaint shall be treated as a Grievance.

What is a Grievance?

A Grievance is a formal expression of dissatisfaction about any matter other than an Action that is documented and investigated by the plan. Grievances are not Actions; please see below for what is an Action.

The Grievance can be presented in writing, by telephone or by visiting any of your Health Plan's Service Centers or the Health Advocate Office (OPS, for its acronym in Spanish). For example, you can file a Grievance for incidents related to, but not limited to:

- The quality of care or services provided
- Access to care or services
- Aspects of interpersonal relationships such as rudeness of a provider or employee,
- Misinformation provided by the Health Plan or providers
- Failure to respect the Enrollee's rights
- Preauthorization requests
- Network provider changes
- Referrals
- Hazardous environment conditions

How can you file a Grievance?

You can call, write or visit your Health Plan's Service Centers to file a Grievance. Your physician, a relative or a person authorized by you, can file the Grievance on your behalf.

You have up to ninety (90) calendar days from the date of the occurrence to file a Grievance with the Health Plan. The Health Plan shall acknowledge receipt of your Grievance in writing to you (and the provider, if the provider filed the Grievance on your behalf) within ten (10) business days of receipt.

The Health Plan shall provide written notice of how the Grievance is resolved as promptly as your health condition requires, but in any event, within ninety (90) calendar days from the day the Health Plan receives the Grievance.

What is an Action?

An Action is a decision that your Health Plan makes that may affect the services you receive, specifically, an Action is:

- The denial or limited Authorization of a requested service, including the type or level of service;
- The reduction, suspension, or termination of a previously authorized service;
- The denial, in whole or in part, of payment for a service; or
- The failure to provide services in a timely manner.

What is a Notice of Action?

A Notice of Action is a written notice provided by the Health Plan to you notifying you of an Action (as defined above). The Notice of Action must contain the following information:

- The Action the Health Plan has taken or intends to take;
- The reasons for the Action;
- Your right to file an Appeal through the Health Plan's internal Grievance System and the procedure for filing an Appeal;
- Your right to request an Administrative Law Hearing after exhaustion of the Health Plan's Grievance System;
- Your right to allow a Provider to file an Appeal or an Administrative Law Hearing on behalf of you, upon written consent;
- The circumstances under which expedited review is available and how to request it;
- Your right to continue receiving Benefits and Covered Services pending resolution of the Appeal with the Health Plan or during the Administrative Law Hearing; and
- How you can request that Benefits be continued and the circumstances under which you may be required to pay the costs of these services.

The Health Plan shall mail the Notice of Action within the following timeframes:

- For termination, suspension, or reduction of previously authorized Covered Services, at least ten (10) calendar days before the date of Action or no later than the date of Action except in the event of one of the following exceptions:
    1. The Health Plan has factual information confirming the death of an Enrollee.
    2. The Health Plan receives a clear written statement signed by the Enrollee that he or she no longer wishes to receive services or gives information that requires termination or reduction of services and indicates that he or she understands that this must be the result of supplying that information.
    3. The Enrollee's whereabouts are unknown and the post office returns the Health Plan's mail directed to the Enrollee indicating no forwarding address.
    4. The Enrollee's Provider prescribes a change in the level of medical care.
    5. The Health Plan may shorten the period of advance notice to five (5) calendar days before the date of Action if the Health Plan has facts indicating that Action should be taken because of probable Enrollee Fraud and the facts have been verified, if possible, through secondary sources.
- For denial of payment, at the time of any Action affecting the Claim.
- If the Health Plan extends the timeframe for the Authorization decision and issuance of Notice of Action the Health Plan shall give you written notice of the reasons for the decision to extend if you did not request the extension. The Health Plan shall issue and carry out its determination as expeditiously as your health requires and no later than the date the extension expires.

What can I do if I do not agree with the Notice of Action?

If you do not agree with your Health Plan's determination included in the Notice of Action, you have the right to appeal the determination before your Health Plan or the Health Advocate Office (OPS, for its acronym in Spanish) within sixty (60) calendar days from the date of the Notice of Action.

What is an appeal?

An appeal is a formal request that you file with your Health Plan or the Health Advocate Office when you do not agree with the determination (Notice of Action) or with the Health Plan's denial of a service, procedure, study, collection or payment. Once you receive the Notice of Action from your Health Plan, you have a period of sixty (60) Calendar days to file your appeal with your Health Plan.

Who will hear your Appeal?

Your Appeal will be evaluated by a team of experts (specific for your health condition) that did not take part in the determination or in the Notice of Action. This is to ensure the appeal process is fair, transparent and dependable.

How much time will they take to make a determination on my Appeal?

If the Appeal does not adversely affect your health and/or does not put your life at risk, you must receive the determination of your appeal within a period that does not exceed forty-five (45) calendar days. However, if your health condition requires an expedited determination; you will receive an answer within a period of three (3) business days or less.

Your Health Plan can request a 14-day extension to send its determination, as long as this extension request benefits the beneficiary (you) or because you need more time to find evidence or data that may benefit your case.

Remember that if during the appeal process you request a continuation of services, you may be required to pay the cost of services furnished while the Appeal is still pending. This would be the case if the final decision is adverse to you.

What is an Administrative Law Hearing?

An Administrative Law Hearing is an appeal process that is available to you after you exhaust your Health Plan's Complaint, Grievance and Appeals processes described above for an Action that your plan takes.

How can you request an Administrative Law Hearing?

If you are not satisfied with the outcome after you have gone through your Health Plan's Complaint, Grievance and Appeal procedures for an Action, you can request an Administrative Law Hearing to ASES or the Health Advocate Office, or both, in a period not to exceed thirty (30) calendar days from the date of the notice of disposition of the Appeal that your Health Plan sends you.

The Administrative Law Hearing resolution will be ninety (90) calendar days of the date you file an Appeal with your Health Plan (not including the days it took you to file for an Administrative Law Hearing) for standard resolutions. For expedited resolution, the Administrative Law Hearing resolution will be within three (3) business days from ASES's receipt of a request for a hearing for a denial of service.

Before the Administrative Law Hearing, you and your authorized representative, or a representative of a deceased Enrollee, if applicable, can ask to look at and copy the documents and records your Health Plan will use at the Administrative Law Hearing or that you may otherwise need to prepare your case for the hearing. Your Health Plan shall provide such documents and records at no charge to you.

If you receive an unfavorable decision at the Administrative Law Hearing, you may appeal the decision to the Court of Appeals of Puerto Rico.

MENTAL HEALTH SERVICES

How can I receive mental health services or services against drug dependence?

Mental health services and services against substance abuse will be provided through your Health Plan. To receive these services you do not need a Referral from your Primary Care Physician, you may request these services for yourself when you feel it is necessary.

The Government Health Plan offers integrated mental health and physical health services. Under the Government Health Plan you can receive mental health services at the same facility where you visit your Primary Care Physician; and primary care health services at the same facility where you visit your mental health provider.

This means that when either your Primary Care Physician or your mental health provider detects that you need mental or physical health services, he/she does not have to send you to another office to receive the services. The psychologist and/or social worker will be physically at your PMG at least sixteen (16) hours per week during regular business hours.

In the same way, a PCP will be physically present at your mental health clinic at least sixteen (16) hours per week at Ambulatory Clinics and twelve (12) hours per week at Addiction Services Units. Psychiatric Hospitals will have at least a PCP on call on a daily basis. Hospitalization Units will have at least one collocated PCP two (2) days per week for four (4) hours and Stabilization Units will have one PCP for Consultation (on call) on a daily basis.

When you fill out your enrollment form at your Health Plan's Service Centers, among the materials you will receive there will be detailed information about the mental health services providers for your Region and how to obtain them when you need them. In addition, the Directory of Providers provided by your Health Plan will indicate the address and telephone numbers of the providers that render mental health services in your Region. For additional information regarding the services and benefits, you may refer to the Mental Health Coverage Section this Guide offers.

You may also contact the Government Health Plan helpline if you do not know where to go. The Government Health Plan helpline will provide you all the information you need or you may contact your Health Plan at the numbers that appear on the back of your card.

Estimado proveedor:

Me place presentarles la Lista de Medicamentos Preferidos (PDL por sus siglas en inglés) para Salud Física del Plan de Salud del Gobierno de Puerto Rico (Mi Salud), vigente desde el 1 de enero de 2013.

Los medicamentos aquí incluidos han sido evaluados y aprobados por el Comité de Farmacia y Terapéutica de ASES, compuesto por médicos primarios y farmacéuticos clínicos.

Este comité se reúne periódicamente para evaluar las clases terapéuticas y emitir recomendaciones basadas en aspectos clínicos. Por consiguiente, este PDL y los PDL's especializados que se incluyen en esta guía, pueden sufrir cambios, los cuales se notifican mediante cartas normativas, conforme van surgiendo.

Les exhorto a conservar esta Guía para su referencia siempre que sea necesario. La misma también está disponible en nuestra página electrónica www.asespr.org.

Cordialmente,

Lcdo. Frank R. Díaz Ginés, MHSA

ASPECTOS GENERALES DE LA CUBIERTA DE FARMACIA
Plan de Salud del Gobierno - Mi SALUD

1. Formularios de Medicamentos

La Administración de Seguros de Salud (ASES) es la agencia responsable de establecer y revisar la Lista de Medicamentos Preferidos (*Preferred Drug List* o "PDL") para Salud Física y Salud Mental de **Mi Salud**. Para estos propósitos se ha establecido un Comité de Farmacia y Terapéutica para Salud Física, y otro para Salud Mental, ambos compuestos por diferentes profesionales de la salud entre estos médicos primarios y farmacéuticos. Estos comités se reúnen periódicamente para evaluar las diferentes clases terapéuticas y emitir sus recomendaciones a ASES sobre los formularios de medicamentos, basados en evidencia científica y aspectos clínicos.

La Lista de Medicamentos Preferidos (PDL) servirá de guía en el suministro de medicamentos bajo la cubierta de farmacia. El "PDL" tiene el propósito de mejorar, actualizar y lograr el uso costo efectivo de medicamentos dentro de la cubierta de **Mi Salud**.

ASES mantiene, además, el Formulario Medular Uniforme (FMU), el cual es utilizado como el formulario oficial del cual se deriva el PDL. Los medicamentos en este formulario que no están en el PDL pueden ser utilizados por las compañías aseguradoras, organizaciones de salud mental y proveedores de servicios de salud sólo como excepciones en los casos en que los medicamentos en el PDL no fueran los más clínicamente efectivos para el paciente en particular.

Así mismo, se creó una Lista de Medicamentos Especializados (contratados). En la situación en que un proveedor de servicios médicos recete un medicamento especializado de esta lista, deberá ser evaluado por las compañías aseguradoras (MCO/TPA por sus siglas en inglés), organizaciones de salud mental (MBHO por sus siglas en inglés) ó la organización contratada por ASES a través del Proceso de Excepción.

En casos excepcionales se podrán utilizar medicamentos fuera de los formularios antes mencionados mediante el Proceso de Excepción el cual explicamos en el punto número 2.

2. Proceso de Excepción

En el caso de pacientes que necesiten un medicamento que no aparezca en el PDL o en el FMU, las compañías aseguradoras, organizaciones de salud mental y proveedores de servicios de salud deberán utilizar el proceso aquí descrito para la aprobación de los medicamentos. Este procedimiento considerará los méritos particulares de cada caso, los cuales pueden incluir:

1. Contraindicación a/los medicamento(s) que aparece(n) en el PDL.
2. Historial de reacción adversa al (los) medicamento(s) que aparece(n) en el PDL.
3. Fallo terapéutico a todas las alternativas disponibles en el PDL.
4. Inexistencia de una alternativa terapéutica en el PDL

b.

ASPECTOS GENERALES DE LA CUBIERTA DE FARMACIA
Plan de Salud del Gobierno - Mi SALUD

Este Proceso de Excepción requiere la documentación oficial, por parte del proveedor de servicios, de las razones clínicas que justifican la utilización de medicamentos fuera del PDL.

3. **Otros aspectos de la cubierta de farmacia**

A. La cubierta de farmacia de **Mi Salud** establece como mandatorio el uso de productos genéricos-bioequivalentes, siempre y cuando no esté contraindicado y así se justifique clínicamente por el proveedor.

B. Las compañías aseguradoras ó TPA, organizaciones de salud mental y proveedores de servicios de salud procesarán sus reclamaciones de farmacia a través del o los Administradores del Beneficio de Farmacia (*Pharmacy Benefit Managers* ó "PBMs") contratados por la Administración.

C. ASES tiene un proceso activo para revisar continuamente los medicamentos que se le requiera incluir en la cubierta de farmacia a las compañías aseguradoras ó TPA, organizaciones de salud mental y proveedores de servicios de salud. Además, se evaluará cualquier medicamento nuevo para inclusión en el mismo o removerá medicamentos de dicho formulario. Por la naturaleza dinámica de este proceso, ASES podrá requerir la inclusión o exclusión de medicamentos según cambios o avances en estándares de la práctica dentro de una enfermedad o área de tratamiento.

D. Ninguna entidad contratada por ASES o las entidades contratadas por las compañías u organizaciones (Grupos Médicos Primarios, proveedores independientes, especialistas, etc.) podrán regirse por un formulario distinto al PDL y al Formulario Medular, ni crear un formulario de medicamentos interno que sea diferente a los establecidos por ASES. Tampoco podrán limitar en forma contraria a lo establecido en el contrato entre ASES y las entidades contratadas y en esta cubierta, los medicamentos que se incluyen en dichos formularios. Las compañías aseguradoras/TPA ó MBHO serán responsables de fiscalizar a sus proveedores y empleados en cuanto al cumplimiento con estas disposiciones.

E. El máximo de despacho para condiciones agudas será para cubrir una terapia de treinta (30) días. Cuando sea médicamente necesario se cubrirán recetas adicionales.

F. El máximo de despacho para condiciones crónicas (medicamentos de mantenimiento) será para cubrir una terapia de treinta (30) días, excepto al comienzo de terapia cuando, por criterio médico, se podrá recetar un mínimo de quince (15) días con el objetivo de reevaluar cumplimiento y tolerancia. Por recomendación del médico se repetirá el despacho de cada receta hasta cinco (5) veces (receta original más cinco (5) repeticiones). Los medicamentos que requieran pre-autorización tendrán vigencia de seis meses a menos que ocurran contraindicaciones o efectos secundarios. En o antes de los noventa (90) días de haberse recetado dicho medicamento de mantenimiento, el médico deberá revaluar la farmacoterapia para efectos de cumplimiento, tolerancia y dosificación. Cambios en la dosis no requerirán pre-autorización. Cambios en el/los medicamento(s) utilizado(s) puede que requiera(n) pre-autorización.

Plan de Salud del Gobierno - Mi SALUD

G. Las indicaciones en las recetas para medicamentos de uso crónico, a favor de Niños con Necesidades Especiales de Salud, deberán indicar claramente que cubren una terapia de treinta (30) días y que se podrán repetir hasta cinco (5) veces (receta original más cinco (5) repeticiones), según criterio médico. Cuando sea médicamente necesario se cubrirán recetas adicionales.

H. Se requiere la coordinación con el Departamento de Salud para provisión de métodos contraceptivos de planificación familiar. Se cubrirán los contraceptivos para el tratamiento de disfunción menstrual y para otras condiciones menstruales a través de su médico primario de Salud Física.

I. Se requiere el uso de genéricos-bioequivalentes aprobados por la Administración de Alimentos y Drogas (FDA), clasificados "AB", así como autorizados por la reglamentación local siempre y cuando no esté contraindicado y así se consigne por el proveedor en la prescripción médica.

J. La inexistencia en inventario de medicamentos bioequivalentes no exime el despacho del medicamento recetado ni conlleva pago adicional alguno por parte del beneficiario. Como regla general, se deberán despachar medicamentos genéricos-bioequivalentes siempre y cuando exista un genérico-bioequivalente para el medicamento de marca correspondiente a menos que a pesar de su existencia, ASES decida cubrir el medicamento de marca o cubrir ambos.

K. Todas las recetas deberán ser despachadas por una farmacia contratada por el PBM, debidamente autorizada bajo las leyes del Estado Libre Asociado de Puerto Rico y libremente seleccionada por el beneficiario.

L. El derecho de libre selección requiere la disponibilidad de determinado número de farmacias en cada municipio para así poder ejercerlo. El PBM es la entidad encargada de contratar la red de farmacias, según los términos especificados por ASES.

M. Los medicamentos recetados deberán ser entregados concurrentemente a la fecha y hora en que el beneficiario recibe la receta y requiere el despacho del medicamento.

4. Regla de Emergencia

Como regla general, para los productos que aparecen en el Formulario de Salas de Emergencia, se despachará la cantidad necesaria hasta el próximo día laborable ó en el caso de fines de semana largos o feriados hasta un máximo de cinco (5) días laborables. Los analgésicos, narcóticos, agentes en combinación, y antinflamatorios no esteroidales se despacharán en cantidad suficiente hasta un máximo de cinco (5) días. El beneficiario que no haya sido admitido en una institución hospitalaria deberá visitar su médico primario para la continuidad de tratamiento, incluyendo la terapia de fármacos. Les recordamos que el modelo del Plan de Salud es un plan de cuidados coordinados. Así mismo, recomendamos que verifiquen que los productos recetados formen parte del Formulario de Medicamentos de Salas de Emergencia.

PRESENTACION DE LA LISTA DE MEDICAMENTOS PREFERIDOS ("PREFERRED DRUG LIST", "PDL") Y GUÍAS DE REFERENCIA

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15 - 084

En el ejemplo a continuación se ilustra la información que se provee para los medicamentos incluidos en el "PDL".

Indicador de Costo Relativo	Nombre Genérico (en negrilla si el medicamento está disponible en genérico)	Nombre de Marca	Guías de Referencia
Signo de $	**Nystatin susp**	Mycostatin	**P, PA**

Para cada medicamento incluido en el "PDL" aparece un Indicador de Costo (Costo Relativo), el Nombre Genérico, el Nombre de Marca y Guías de Referencia según aplican. En los casos en que el medicamento genérico esté disponible, el mismo aparece con letra **en negrilla (bold)**. Aquellos medicamentos genéricos que tienen un asterisco (*) indica que no todas las presentaciones del producto tienen un genérico disponible. Siempre que exista el genérico bioequivalente de un medicamento el mismo será despachado. **El nombre de marca se menciona sólo para referencia.**

Le exhortamos a que utilice el "PDL" como referencia cuando vaya a prescribir medicamentos a los beneficiarios del Plan de Salud del Estado Libre Asociado de Puerto Rico.

INDICADOR DE COSTO RELATIVO

El indicador de costo relativo se incluye en el "PDL" para ofrecer un valor estimado del costo de una terapia medicinal incluyendo cualquier descuento por utilización y comparando el producto específico con las otras alternativas disponibles en esa clase, o para tratar la enfermedad o condición específica. En la mayoría de los casos, se compara el costo por terapia para quince o treinta días dependiendo de si el medicamento es de uso agudo o de mantenimiento, respectivamente. La comparación de costos y asignación de signos de dólares se hace a base de todos los productos incluidos dentro de una clase terapéutica, (e.g. medicamentos cardiovasculares, medicamentos gastrointestinales). Los signos de dólares al lado de un medicamento identifican su costo relativo y se deben interpretar de la siguiente manera:

$	Menos Costoso
$$	
$$$	
$$$$	
$$$$$	
$$$$$!	
$$$$$!!	Más Costoso

Cuando varios medicamentos dentro de la misma clase terapéutica tienen el mismo número de signos de dólares, el medicamento que se menciona primero debe considerarse como el menos costoso.

Donde existe la alternativa de un número de preparaciones adecuadas para tratar una enfermedad o condición en particular, el indicador de costo relativo puede utilizarse para hacer una selección a base del costo.

La designación de los costos relativos es vigente al momento de la publicación de esta edición del "PDL". El costo de los medicamentos está sujeto a cambios constantes.

MEDICAMENTOS GENÉRICOS

Los medicamentos genéricos bioequivalentes se identifican con **negrilla** (**bold**). Ciertos genéricos bioequivalentes tienen un Costo Máximo Permitido (Maximum Allowable Cost List o MAC List) para el pago de los mismos. Este precio típicamente cubre el costo de adquisición de los productos genéricos, pero no del producto de marca. La selección de productos para ser incluidos en el MAC List son aquellos que son prescritos comúnmente y han sido aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés) para ser mercadeados.

GUÍAS DE REFERENCIA

Los medicamentos que aparecen en el "PDL" son aquellos medicamentos preferidos en la cubierta del Plan de Salud del Estado Libre Asociado de Puerto Rico. Estos medicamentos se seleccionan a base de su seguridad, eficacia, alta calidad, existencia de bioequivalentes y costo. Se les sugiere a los médicos que receten y a los farmacéuticos dispensen solamente los medicamentos que aparecen en el "PDL".

Todos los medicamentos incluidos en este documento son medicamentos cubiertos a menos que se les designe como No-Formulario (**NF**; e.g. formas de dosificación de acción prolongada que no están incluidas en el "PDL").

Estimado proveedor:

Me place presentarles la Lista de Medicamentos Preferidos (PDL por sus siglas en inglés) para Salud Mental del Plan de Salud del Gobierno de Puerto Rico (Mi Salud), vigente desde el 1 de enero de 2013.

Los medicamentos aquí incluidos han sido evaluados y aprobados por el Comité de Farmacia y Terapéutica de ASES, compuesto por médicos primarios y farmacéuticos clínicos.

Este comité se reúne periódicamente para evaluar las clases terapéuticas y emitir recomendaciones basadas en aspectos clínicos. Por consiguiente, este PDL y los PDL's especializados que se incluyen en esta guía, pueden sufrir cambios, los cuales se notifican mediante Cartas Normativas, conforme van surgiendo.

Les exhorto a conservar esta Guía para su referencia siempre que sea necesario. La misma también está disponible en nuestra página electrónica www.asespr.org.

Cordialmente,

Lcdo. Frank R. Díaz Ginés, MHSA

ASPECTOS GENERALES DE LA
CUBIERTA DE FARMACIA
Plan de Salud del Gobierno - Mi SALUD

1. Formularios de Medicamentos

La Administración de Seguros de Salud (ASES) es la agencia responsable de establecer y revisar la Lista de Medicamentos Preferidos (*Preferred Drug List* o "PDL") para Salud Física y Salud Mental de **Mi Salud**. Para estos propósitos se ha establecido un Comité de Farmacia y Terapéutica para Salud Física, y otro para Salud Mental, ambos compuestos por diferentes profesionales de la salud entre estos médicos primarios y farmacéuticos. Estos comités se reúnen periódicamente para evaluar las diferentes clases terapéuticas y emitir sus recomendaciones a ASES sobre los formularios de medicamentos, basados en evidencia científica y aspectos clínicos.

La Lista de Medicamentos Preferidos (PDL) servirá de guía en el suministro de medicamentos bajo la cubierta de farmacia. El "PDL" tiene el propósito de mejorar, actualizar y lograr el uso costo efectivo de medicamentos dentro de la cubierta de **Mi Salud**.

ASES mantiene, además, el Formulario Medular Uniforme (FMU), el cual es utilizado como el formulario oficial del cual se deriva el PDL. Los medicamentos en este formulario que no están en el PDL pueden ser utilizados por las compañías aseguradoras, organizaciones de salud mental y proveedores de servicios de salud sólo como excepciones en los casos en que los medicamentos en el PDL no fueran los más clínicamente efectivos para el paciente en particular.

Así mismo, se creó una Lista de Medicamentos Especializados (contratados). En la situación en que un proveedor de servicios médicos recete un medicamento especializado de esta lista, deberá ser evaluado por las compañías aseguradoras (MCO/TPA por sus siglas en inglés), organizaciones de salud mental (MBHO por sus siglas en inglés) ó la organización contratada por ASES a través del Proceso de Excepción.

En casos excepcionales se podrán utilizar medicamentos fuera de los formularios antes mencionados mediante el Proceso de Excepción el cual explicamos en el punto número 2.

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número

2. Proceso de Excepción

En el caso de pacientes que necesiten un medicamento que no aparezca en el PDL o en el FMU, las compañías aseguradoras, organizaciones de salud mental y proveedores de servicios de salud deberán utilizar el proceso aquí descrito para la aprobación de los

medicamentos. Este procedimiento considerará los méritos particulares de cada caso, los cuales pueden incluir:

1. Contraindicación a/los medicamento(s) que aparece(n) en el PDL.
2. Historial de reacción adversa al (los) medicamento(s) que aparece(n) en el PDL.
3. Fallo terapéutico a todas las alternativas disponibles en el PDL.
4. Inexistencia de una alternativa terapéutica en el PDL

Este Proceso de Excepción requiere la documentación oficial, por parte del proveedor de servicios, de las razones clínicas que justifican la utilización de medicamentos fuera del PDL.

3. Otros aspectos de la cubierta de farmacia

A. La cubierta de farmacia de **Mi Salud** establece como mandatorio el uso de productos genéricos-bioequivalentes, siempre y cuando no esté contraindicado y así se justifique clínicamente por el proveedor.

B. Las compañías aseguradoras ó TPA, organizaciones de salud mental y proveedores de servicios de salud procesarán sus reclamaciones de farmacia a través del o los Administradores del Beneficio de Farmacia (*Pharmacy Benefit Managers* ó "PBMs") contratados por la Administración.

C. ASES tiene un proceso activo para revisar continuamente los medicamentos que se le requiera incluir en la cubierta de farmacia a las compañías aseguradoras ó TPA, organizaciones de salud mental y proveedores de servicios de salud. Además, se evaluará cualquier medicamento nuevo para inclusión en el mismo o removerá medicamentos de dicho formulario. Por la naturaleza dinámica de este proceso, ASES podrá requerir la inclusión o exclusión de medicamentos según cambios o avances en estándares de la práctica dentro de una enfermedad o área de tratamiento.

D. Ninguna entidad contratada por ASES o las entidades contratadas por las compañías u organizaciones (Grupos Médicos Primarios, proveedores independientes, especialistas, etc.) podrán regirse por un formulario distinto al PDL y al Formulario Medular, ni crear un formulario de medicamentos interno que sea diferente a los establecidos por ASES. Tampoco podrán limitar en forma contraria a lo establecido en el contrato entre ASES y las entidades contratadas y en esta cubierta, los medicamentos que se incluyen en dichos formularios. Las compañías aseguradoras/TPA ó MBHO serán responsables de fiscalizar a sus proveedores y empleados en cuanto al cumplimiento con estas disposiciones.

ASPECTOS GENERALES DE LA
CUBIERTA DE FARMACIA
Plan de Salud del Gobierno - Mi SALUD

E. El máximo de despacho para condiciones agudas será para cubrir una terapia de treinta (30) días. Cuando sea médicamente necesario se cubrirán recetas adicionales.

F. El máximo de despacho para condiciones crónicas (medicamentos de mantenimiento) será para cubrir una terapia de treinta (30) días, excepto al comienzo de terapia cuando, por criterio médico, se podrá recetar un mínimo de quince (15) días con el objetivo de reevaluar cumplimiento y tolerancia. Por recomendación del médico se repetirá el despacho de cada receta hasta cinco (5) veces (receta original más cinco (5) repeticiones). Los medicamentos que requieran pre-autorización tendrán vigencia de seis meses a menos que ocurran contraindicaciones o efectos secundarios. En o antes de los noventa (90) días de haberse recetado dicho medicamento de mantenimiento, el médico deberá reevaluar la farmacoterapia para efectos de cumplimiento, tolerancia y dosificación. Cambios en la dosis no requerirán pre-autorización. Cambios en el/los medicamento(s) utilizado(s) puede que requiera(n) pre-autorización.

G. Las indicaciones en las recetas para medicamentos de uso crónico, a favor de Niños con Necesidades Especiales de Salud, deberán indicar claramente que cubren una terapia de treinta (30) días y que se podrán repetir hasta cinco (5) veces (receta original más cinco (5) repeticiones), según criterio médico. Cuando sea médicamente necesario se cubrirán recetas adicionales.

H. Se requiere la coordinación con el Departamento de Salud para provisión de métodos contraceptivos de planificación familiar. Se cubrirán los contraceptivos para el tratamiento de disfunción menstrual y para otras condiciones menstruales a través de su médico primario de Salud Física.

I. Se requiere el uso de genéricos-bioequivalentes aprobados por la Administración de Alimentos y Drogas (FDA), clasificados "AB", así como autorizados por la reglamentación local siempre y cuando no esté contraindicado y así se consigne por el proveedor en la prescripción médica.

J. La inexistencia en inventario de medicamentos bioequivalentes no exime el despacho del medicamento recetado ni conlleva pago adicional alguno por parte del beneficiario. Como regla general, se deberán despachar medicamentos genéricos-bioequivalentes siempre y cuando exista un genérico-bioequivalente para el medicamento de marca correspondiente a menos que a pesar de su existencia, ASES decida cubrir el medicamento de marca o cubrir ambos.

K. Todas las recetas deberán ser despachadas por una farmacia contratada por el PBM, debidamente autorizada bajo las leyes del Estado Libre Asociado de Puerto Rico y libremente seleccionada por el beneficiario.

L. El derecho de libre selección requiere la disponibilidad de determinado número de farmacias en cada municipio para así poder ejercerlo. El PBM es la entidad encargada de contratar la red de farmacias, según los términos especificados por ASES.

M. Los medicamentos recetados deberán ser entregados concurrentemente a la fecha y hora en que el beneficiario recibe la receta y requiere el despacho del medicamento.

4. Regla de Emergencia

Como regla general, para los productos que aparecen en el Formulario de Salas de Emergencia, se despachará la cantidad necesaria hasta el próximo día laborable ó en el caso de fines de semana largos ó feriados hasta un máximo de cinco (5) días laborables. Los analgésicos, narcóticos, agentes en combinación y antinflamatorios no esteroidales se despacharán en cantidad suficiente hasta un máximo de cinco (5) días. El beneficiario que no haya sido admitido en una institución hospitalaria deberá visitar su médico primario para la continuidad de tratamiento, incluyendo la terapia de fármacos. Les recordamos que el modelo del Plan de Salud es un plan de cuidados coordinados. Así mismo, recomendamos que verifiquen que los productos recetados formen parte del Formulario de Medicamentos de Salas de Emergencia.

Para cualquier duda sobre la cubierta de farmacia puede comunicarse con la compañía aseguradora contratada por ASES en su región de servicios.

LISTA DE MEDICAMENTOS PREFERIDOS (PDL)
SALUD MENTAL
2013-2014

PARTE I - DISEÑO DE LA LISTA DE MEDICAMENTOS PREFERIDOS DE SALUD MENTAL

PRESENTACIÓN DE LA LISTA DE MEDICAMENTOS PREFERIDOS DE SALUD MENTAL ("PREFERRED DRUG LIST", "PDL") Y GUÍAS DE REFERENCIA

En el ejemplo a continuación se ilustra la información que se provee para los medicamentos incluidos en el "PDL" de Salud Mental.

Indicador de Costo Relativo	Nombre Genérico (en negrilla si el medicamento está disponible en genérico)	Nombre de Marca	Guías de Referencia
Signo de $	**Trazodone tab**	Desyrel	**PA**

Para cada medicamento incluido en el "PDL" de Salud Mental aparece un Indicador de Costo (Costo Relativo), el Nombre Genérico, el Nombre de Marca y Guías de Referencia según aplican. En los casos en que el medicamento genérico esté disponible, el mismo aparece con letra **en negrilla (bold)**. Aquellos medicamentos genéricos que tienen un asterisco (*) indica que no todas las presentaciones del producto tienen un genérico disponible. Siempre que exista el genérico bioequivalente de un medicamento el mismo será despachado siempre y cuando sea más costo-efectivo. **El nombre de marca se menciona sólo para referencia.**

Le exhortamos a que utilice el "PDL" de Salud Mental como referencia cuando vaya a prescribir medicamentos a los beneficiarios del Plan de Salud del Estado Libre Asociado de Puerto Rico.

INDICADOR DE COSTO RELATIVO

El indicador de costo relativo se incluye en el "PDL" de Salud Mental para ofrecer un valor estimado del costo de una terapia medicinal incluyendo cualquier descuento por utilización y comparando el producto específico con las otras alternativas disponibles en esa clase, o para tratar la enfermedad o condición específica. En la mayoría de los casos, se compara el costo por

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15-084

terapia para quince o treinta días dependiendo de si el medicamento es de uso agudo o de mantenimiento, respectivamente. La comparación de costos y asignación de signos de dólares se hace a base de todos los productos incluidos dentro de una clase terapéutica, (e.g. antidepresivos tricíclicos, inhibidores de la recaptación de serotonina). Los signos de dólares al lado de un medicamento identifican su costo relativo y se deben interpretar de la siguiente manera:

$	Menos Costoso
$$	
$$$	
$$$$	
$$$$$	
$$$$$!	
$$$$$!!	Más Costoso

Cuando varios medicamentos dentro de la misma clase terapéutica tienen el mismo número de signos de dólares, el medicamento que se menciona primero debe considerarse como el menos costoso.

Donde existe la alternativa de un número de preparaciones adecuadas para tratar una enfermedad o condición en particular, el indicador de costo relativo puede utilizarse para hacer una selección a base del costo.

La designación de los costos relativos es vigente al momento de la publicación de esta edición del "PDL" de Salud Mental. El costo de los medicamentos cambia continuamente.

MEDICAMENTOS GENÉRICOS

Los medicamentos genéricos bioequivalentes se identifican con **negrilla (bold)**. Ciertos genéricos bioequivalentes tienen un Costo Máximo Permitido (*Maximum Allowable Cost o MAC*) para el pago de los mismos. Este precio típicamente cubre el costo de adquisición de los productos genéricos, pero no del producto de marca. La selección de productos para ser incluidos en el *MAC List* son aquellos que son prescritos comúnmente y han sido aprobados por la Administración de Drogas y Alimentos (FDA, por sus siglas en inglés) para ser mercadeados.

GUÍAS DE REFERENCIA

Los medicamentos que aparecen en el "PDL" de Salud Mental son aquellos medicamentos preferidos en la cubierta del Plan de Salud del Estado Libre Asociado de Puerto Rico. Estos medicamentos se seleccionan a base de su seguridad, eficacia, alta calidad, existencia de bioequivalentes y costo. Se les sugiere a los médicos que receten y a los farmacéuticos que dispensen solamente los medicamentos que aparecen en el "PDL". Todos los medicamentos incluidos en este documento son medicamentos cubiertos a menos que se les designe como No-Formulario (**NF**).

I. **Introduction** – This document is the reference manual to guide Insurance Companies and Medicare Advantage Organizations contracted by ASES in enrolling their contracted beneficiaries.

a. **Background** – Previous to January 2006 Mi Salud beneficiaries were assigned to MCO's or TPA's by region. (MCO's, TPA's and MAO's will be referred to as "carriers" in this document). Enrollment, which is the process by which the carrier sends an electronic record to ASES notifying of the subscription of a member, was done at the family level. With one record the carrier would enroll all the members of a family. At the most there could be two carriers in a region, one MCO and one TPA so conflicts were minimal. The establishment of the Medicare Platino Plans by ASES starting on January 2006 increased the complexity of identifying in the ASES database which member is covered by which organization. Once Platino was implemented the enrollment had to be done at the member level since a family could have members subscribed by different carriers. The complexity was also affected by having MAO's providing services to all the ASES regions. Therefore Platino beneficiaries had a wide choice of options which included the capacity to change carriers on a monthly basis.

b. **Basic Eligibility Concepts**

i. Eligibility for Mi Salud beneficiaries is determined by THE MEDICAID OFFICE (Programa de Asistencia Medica). Typically the beneficiaries are given eligibility for a year after which they must recertify.

ii. Those beneficiaries which do not recertify are cancelled at the eligibility expiration date. This occurs at the end of each month.

iii. Data for eligible beneficiaries is sent by THE MEDICAID OFFICE to ASES and updated in the ASES database on a daily basis.

iv. ASES sends any updates, cancellations or additions to the carriers on a daily basis.
   1. Mi Salud carriers receive data for all the members in their contracted regions.
   2. Platino carriers receive data for all their members enrolled in each contracted region.

v. Mi Salud eligible members are those which appear as eligible in the ASES database.

vi. Platino eligible members are those Mi Salud eligible members which also have Medicare A&B coverage.
   1. Medicare A&B coverage is determined by the Platino carriers by querying CMS.
   2. Platino carriers also have to query ASES to determine Mi Salud eligibility.

c. **General Enrollment Concepts** - The enrollment record (see attached) used by the carriers to notify ASES of the subscription of a member contains a series of data elements for verification of correctness and to inform ASES the particulars of the enrollment. A member can be enrolled in one of three different **Plan Types**:

   i. **01 = Mi Salud**
   ii. **02 = Platino SNP (Special Needs Plan)**
   iii. **03 = Platino MA PD (Medicare Advantage Prescription Drugs)**

   A particular carrier can offer different products under a Plan Type. These products are identified by their **Plan Version** number. ASES assigns a **Plan Version** number for each Platino product contracted. For Mi Salud enrollments the Plan Version field must equal the **coverage code** assigned to the particular beneficiaries.
   Some of the Plans contracted with ASES may require the assignment of **Primary Centers** (IPAs) and /or **PCPs** to the beneficiaries. The enrollment record includes those fields as well as the Plan Type and Version. The record also informs of the date the member was processed by the carrier and the effective date of the enrollment. (For more detail se section II.b below.)

II. Enrollment Process

a. Data Flow – The data flow for Mi Salud and Platino enrollments is similar with the principal exception of the queries that are needed in the Platino process. (see flow diagram attached)

   i. **Mi Salud** – The process starts with the receipt of the eligibility data by the carriers. Under the Auto Assign process the carriers update their database, Assign a Primary Group and PCP and issues ID Cards. These Cards are sent to the Beneficiaries by Mail. (The beneficiaries have 90 days to request a change in Primary Center or PCP.) The carrier then produces the electronic enrollment record and sends it to ASES. (The effective date of the Enrollment is the certification date of the family as received by the Carrier in the eligibility data.) These transmissions occur on a daily basis. In ASES the records are passed through an edit program. The records that pass the edits are updated to the ASES database and the beneficiaries are deemed enrolled. Those record found with error are returned to the carriers for correction. Until the records are submitted correctly the member is not enrolled in ASES and no premium payments are produced.

   ii. **Platino** – Before a Platino Plan can enroll a member it must verify Medicare coverage by querying CMS. They must also query ASES to verify if the member is eligible for Mi Salud. Once those requirements are met then the enrollment is

submitted to ASES. In ASES the record follows the same process as described above for Mi Salud.

b. **Enrollment Record**

i. **Data Definition** – The enrollment record contains the following data elements to be complimented by the carrier:

1. RECORD_TYPE – This is always an "E" it identifies the record as an enrollment file record.

2. TRAN_ID – This is the field which identifies to the ASES system which action to take based on the data contained in the record. It can have one of several values:
   a. **E** = means that the record is a new enrollment for a member which has not been previously enrolled.
   b. **C** = Change Carrier. Used when the member has selected a different carrier than the one in which he/she is presently enrolled. It is also used for initial enrollment in Platino Plans.
   c. **P** = Changes the Plan Type. It is used when a member enrolled under a particular carrier chooses to change the product the carrier offers to one which is identified under a different Plan Type under the same carrier. Example: changing from an MA-PD Plan (Type 03) to a SNP Plan (Type 02) under the same carrier.
   d. **V** = Type Version change. It is used when a member enrolled under a particular carrier and Plan Type chooses to change the product the carrier offers to one which is identified under the same Plan Type but with a different version number under the same carrier. Example: changing from a SNP Plan (Type 02 Version 001) to a SNP Plan (Type 02 Version 002) under the same carrier. The version change value in the Tran_id is also used when a Mi Salud member changes coverage code. In this case the carrier must reissue an ID Card with the new benefits and submit a version change enrollment record to ASES where the Version number is equal to the coverage code.
   e. **I** = Ipa (Primary Center) Change. Used to record in ASES a change in the beneficiaries' selected IPA under the same carrier, Plan Type and Version.
   f. **1 = PCP1 change.** Used to record in ASES a change in the beneficiaries' selected PCP1 under the same carrier, Plan Type, Version and IPA.

Contrato Número

g. **2 = PCP2 change.** Used to record in ASES a change in the beneficiaries' selected PCP2 under the same carrier, Plan Type, Version and IPA.
h. **3 = PCP1 and PCP2 change.** Used to record in ASES a change in the beneficiaries' selected PCP1 and PCP2 under the same carrier, Plan Type, Version and IPA.
i. **X** = delete incorrect enrollment
j. **O** = Contract number change only
k. **D** = Disenroll. For future use.

3. PROCESS_DATE – Sign up date. Date the member contracted with the carrier. Relationship with effective date:
   a. Platino – Process date must be less than effective date.
   b. Mi Salud – process date must be equal or less than effective date.

4. REGION – Contains ASES region code. Must be the region in which the member is located in the ASES database. Platino carriers obtain this code from the ASES query response.

5. CARRIER - Two digit carrier code assigned by ASES.

6. MEMBER_PRIMARY_CENTER – Up to four digits assigned by carrier to identify their Primary centers (IPAs). Not required for some Plan Types/Versions.

7. ODSI_FAMILY_ID – Eleven digit family ID assigned by THE MEDICAID OFFICE (ODSI). This is the first part of the key for the beneficiaries in the ASES database. Platino carriers obtain this code from the ASES query response.

8. MEMBER_SSN – Social Security number of the member. It is required that this number matches with the one for the member in the ASES database.

9. MEMBER_SUFFIX – Two digit number which identifies a member within a family. Second part of the key in the ASES database.

10. EFFECTIVE_DATE – Date in which the carriers starts coverage for the member under the enrolled Plan or effective date of the change for which the enrollment

Contrato Número 15-084

record was submitted. (For Mi Salud Enrollment the effective date id the date of certification in the MEDICAID OFFICE) . For Tran_ID's other than "E" for Mi Salud the effective date must be 1st of the month.

11. PLAN_TYPE – Plan Type code under which the member is enrolled.

12. PLAN_VERSION – Plan version under which the member is enrolled.
13. MPI – Master Patient Index. Unique number which identifies a Member in ASES and THE MEDICAID OFFICEs databases.

14. PCP1 – Fifteen digit number assigned by carriers. Use to identify the PCP1 selected by the beneficiaries.

15. PCP1_EFFECTIVE_DATE – Date in which the PCP1 assignment was effective.

16. PCP2 – Fifteen digit number assigned by carriers. Use to identify the PCP2 selected by the beneficiaries.

17. PCP2_EFFECTIVE_DATE – Date in which the PCP2 assignment was effective.

18. FAMILY_PRIMARY_CENTER – IPA assigned to all Mi Salud family members.

19. FAM_PRIMARY_CENTER_EFF_DATE – Date in which the assignment of the family IPA was effective.

20. IPA_PCP_CHANGE_REASON – Not in use.

21. MEDICARE INDICATOR – Required for Platino enrollments. (1=A&B, 3=A, 9=B)

22. HIC NUMBER – Medicare Health Insurance Claim Number. Required for Platino enrollment.

23. IPA_ESPECIAL – A "1" indicates that the member is assigned to a special IPA which is not the family IPA. Used for Mi Salud.

24. Contract Number – Contract number assigned by the carrier. It should be the number by which the member is

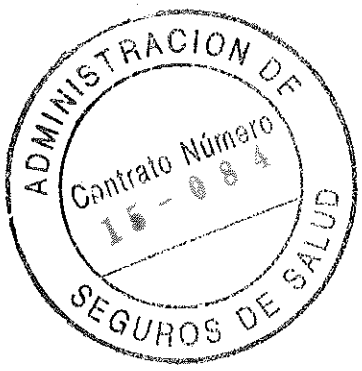
ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número 16-084

identified in the carriers ID card and internally in their database.

25. Special Enroll – Used to identify that the enrollment is for a newborn (N) or an emergency (E) case submitted by THE MEDICAID OFFICE or ASES. When this field is used then if the values is:
    a. N – The system allows enrollment as of the date of birth.
    b. E – The system allows enrollment as of the eligibility effective date for Federal and CHIP members (Medicaid Indicator 1 or 2).
    c. This mechanism can be utilized in cases where the **date of birth** or **certification** is on or after January 1, 2006.
26. Other data elements complimented by ASES – When the record is edited the ASES system enters the following data in the enrollment record:
    a. Reject Identifier - As a result of the edits the record could be accepted or rejected. This field contains the codes that specify that result. ("A" = Accepted; "M" = Accepted Retroactive; "R" = Rejected; "X" = Deleted)
    b. Record Key – Internal number assigned by the ASES system.
    c. Error Codes one to ten – record up to ten possible error codes.
    d. Update Date – Date to which the edit run belongs. Correspond to the date of the daily cycle the edit run was a part of.
    e. Update User – ASES internal user code.

ii. **Uses**

1. The enrollment record can be used to trigger several actions in the ASES database. The content of the TRAN_ID field determines which action. An "E" for a Mi Salud carrier will perform the original enrollment of a member. A "C" will transfer a member from one carrier to the one submitting the enrollment or perform the original enrollment for a Platino carrier. Codes P, V, I, 1, 2, and 3 will inform the ASES system that the carrier has changed a beneficiaries Plan, Version, IPA or PCP. An "X" will delete a previously submitted record and an "O" will change a beneficiaries Contract number. In the future a "D" will produce the disenrollment of a member from its existing carrier.



iii. **Edit and update process** – Carriers can transmit enrollment files to ASES on a daily basis. They must follow the naming convention for those files which is as follows:

1. **CCYYMMDD.SUS**
1. CC = Carrier Code
2. YY = Year
3. MM = Month
4. DD = Day
5. .SUS = Identifies file as an enrollment file.

The enrollment file can contain records pertaining to any of the regions contracted by the carrier. The files received by 9:00am are entered in the ASES daily cycle. If a file is received after 9:00am it will be entered in the following day's cycle. In the cycle there are several steps which handle the enrollment records:

2. Enrollment Merge – joins the enrollment files from all carriers into a single file.

3. Enrollment Region Split – Separates the merged file into different files (one per region) based on the region code in the enrollment records. If the record sent does not have a valid region code it will go into a special error file and will not continue processing.

4. Edits - ASES run a separate edit and update cycle for each region. The enrollments are passed though the edit programs and are identified as valid or rejected.

5. Update - Valid enrollments will be used to update the beneficiaries' record in the ASES database. In this process the data in the enrollment record is entered into the beneficiaries' record. There are to types of Valid enrollments:

   a. Reject identifier = A – Identifies an accepted enrollment which is to be applied at a future effective date. The update process moves the enrollment fields (carrier, Plan, Version, Ipa and PCP) to the fields destined for new enrollments in the member's record. Until the new effective date is reached the member stays under the present enrollment condition (same carrier, Plan, Version, Ipa and PCP). At the month end cycle previous to the effective date the new field are moved to the actual fields and the enrollment becomes effective.
   b. Reject identifier = M – Indicates a retroactive enrollment. In these cases the enrollment data (carrier, Plan, Version, Ipa and PCP) is updated

directly to the actual enrollment field in the member's record.

6. Carrier eligibility file extract – When the member's information is updated because of an enrollment being processed, a record is sent to the carrier affected in the Carrier eligibility file which is produced in every daily cycle.

c. **Carrier Responsibilities** – In order to process enrollment transactions correctly the carriers need to maintain in their particular systems the updated member eligibility data received from ASES. Such data is sent by ASES in the following files:

i. **Carrier Eligibility File (Daily & Month End)** – Produced by the ASES daily cycle. Contains all the data pertaining to the beneficiaries that have been added, updated or cancelled in the daily cycle. This includes updates caused by enrollment records being processed in that cycle. The carrier's system must identify the following situations based on the data received in these files:

1. When a member is added.
    a. Mi Salud carriers must start the enrollment process with the member.

2. When a member changes carrier:
    a. The carrier which lost the member must identify the loss of business.

3. When any of the enrollment data changes. This includes Plan Type, Version, IPA, PCPs.
    a. The carrier system must be updated accordingly, If not this could cause the rejection of future enrollment record submissions.

4. When a Member's demographics Changes:
    a. The carrier needs to update the new data in their database.

5. When a member is cancelled:
    a. All carriers must cancel effective at the end of the month
    b. Carriers should follow up with member in case the cancellation is caused by expiration of certification.

6. When a member has a change in coverage code:
    a. Carriers must evaluate if the new coverage code requires that the member be enrolled in a different

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15-084

Plan_Version and send a Version change enrollment record to ASES before the end of the month.

b. Members where the Plan_Version does not agree with the coverage code will be disenrolled in the month end cycle in ASES.
    1. Carriers must re enroll those members under the new Plan_Version that agrees with the new coverage code.

ii. **Enrollment Reject File** – Produced by the ASES daily cycle. It contains the enrollment records rejected by the validation program. The carrier must examine the rejected records and take action to correct the cause based on the error codes included. See details below about the specific error codes. The carriers system must have the capability of identifying the errors and provide the mechanisms for correction and submittal to ASES for reprocessing.

d. **Enrollment Record Rejections**

i. **Reject Process** - Rejected enrollments are sent daily on a file which includes the error codes for the edit that failed the validation process. The carriers must correct the errors found and submit the corrected records to ASES in the next enrollment file. The file name for the reject file is:

1. CCYYMMDD.rjc

a. CC = Carrier Code
b. YY = Year
c. MM = Month
d. DD = Day
e. .rjc = Identifies file as a reject file.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número

ii. **Error Codes** – The attached table (**Subscription Error table)** contains the error codes produced by the Validation Program. Additional descriptions and possible corrective actions have been included to assist in the correction process.

III. Premium Payment

a. Concepts – The new Premium Payment System works under the concept that premiums are calculated and paid for only those beneficiaries that are enrolled by the first day of the payment month. The carriers do not need to submit billing documents or files. There is one payment run per month per ASES region in which the payment for all carriers in the region is calculated.

b. **Relation to Enrollment** - Enrolled beneficiaries are those which are eligible and assigned to a particular carrier as the result of an enrollment transaction. For a particular month's run the system will consider enrolled beneficiaries in the ASES database with an enrollment date (update date in ASES) previous to the 1st day of that month. Beneficiaries enrolled after that date will be considered for payment in the next payment run after the enrollment date.

c. **Types of payment calculations** – The payment system computes several categories of payments:
   a. **Monthly payments** – For all beneficiaries enrolled at the beginning of the month for which the system is run (**Payment Month**).
   b. **Prorate Payments** – Prorate payments are calculated for Mi Salud beneficiaries that were enrolled during the previous month to the payment month. A prorated daily premium is calculated based on effective date of the enrollment.
   c. **Retroactive Payments** – Is calculated when the effective date of the enrollment is previous to the payment month. In Platino this calculation may include the previous month since no prorate is paid and because the enrollment always starts at the beginning of a month. In Mi Salud retroactive payments are always for periods two month or more before the payment month.
   d. **Retroactive prorate payments** - Retroactive prorate payments are calculated when the effective date of the enrollment falls within the first month considered for a retroactive payment
   e. **Adjustments** – Adjustments are calculated when a member changes Carrier retroactively after ASES had paid the first carrier in a previous payment run. The adjustment takes away the premium amount paid the first carrier.

IV. SYSPREM – Enrollment in History

a. Enrollment concepts:

i. Enrollments are applied to the current eligibility data.

ii. Enrollments are allowed only in a member's current eligibility period. The **current eligibility period** is the:

1. eligibility period after a cancellation period (for a member that has been cancelled and then re-certified)
2. the current period since the initial update in ASES (as eligible) and the present time when the member has not been cancelled and remains eligible

iii. When an enrollment is not sent in time by the carrier (or a rejected record is not corrected) the eligibility data for the member will remain un-enrolled.

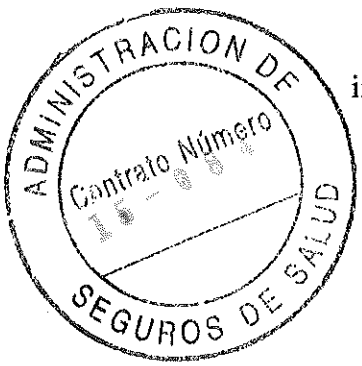
iv. Premiums will not be paid for un-enrolled beneficiaries when the premium payment system is run.

v. If the member is then cancelled or enrolled in a second carrier the first carrier is prevented (by the system edits) to enroll the member in a period previous to the cancellation or the enrollment.

b. **SYSPREM Functionality** - The SYSPREM sub-system will permit the enrollment of beneficiaries to be recorded in historic data. The main functions are:

i. Identification of enrollment records that are candidates for processing against the history database. Rejected with error codes:

1. **107**- Effective date before current eligibility period for family
2. **108**- Effective date before current eligibility period for member
3. **280**- Family must be eligible in current eligibility period
4. **281**- Member must be eligible in current eligibility period
5. **177**- Enrolled in another carrier at or after effective date



ii. Limitations:

1. Member must be active on effective date
2. Member must not have family members with errors not acceptable by SYSPREM in the same Mi Salud enrollment batch
3. Enroll record must not have Effective Date before 01/01/2006***

iii. New Error Codes (Reject File) for **accepted** history enrollments:

1. **996** – SYSPREM record inserted in history. No action by the carrier is required.

iv. New Error Codes (Reject File) for **rejected** history enrollments:
   1. **980** - Process date in enroll record must be greater than process date of the previously enrolled Member record
   2. **981** – Member must not have family members with errors not acceptable by SYSPREM in the same enrollment batch (for Mi Salud).
   3. **982** – Enroll record must not have Effective Date before 01/01/2006***

v. Carrier Eligibility File – The daily carrier eligibility file will include the data for the members updated in history by the SYSPREM sub-system. The TRAN_ID field will contain an "H" to identify history data. The carriers must modify their systems so that the SYSPREM data is not included as actual data when processing the eligibility file.

c. Premium Payment for SYSPREM enrollments

i. Monthly Premium Payment run will include all SYSPREM records processed during the previous month.

ii. Payment will be calculated for months from the effective date of the SYSPREM enrollment up to:
   1. The month in which the member is enrolled in a different carrier
   2. The month in which the Member is cancelled
   3. Actual Billing date

d. SYSPREM in summary:

i. SYSPREM will enroll beneficiaries in history for cases where the enrollment can not be applied to actual data.

ii. Some members will not be enrolled in history because they are:
   1. Not eligible at the effective date
   2. Enrolled in a different carrier

iii. Carriers need to evaluate cases rejected by SYSPREM in order to determine:
   1. Errors in the effective date assigned
   2. Correctness of the beneficiaries' data included in the enrollment record

Carrier to ASES Data Submissions
File Layouts

NOTES

ASES new file layouts for submission by Carriers for data generated from April, 2013 forward.

CLAIMS AND SERVICES FILES –

In the previous version of the layouts, a CLAIMS file and a detailed SERVICE file were used to represent claims. In version 2.0 of the layouts, only one file exists for both the header and detail portions of the claim, now referred to as the CLAIMSERVICES file. Records in the CLAIMSERVICES file have both the header and detail portions of the claim.

In addition to the merging of CLAIMS and SERVICES, a number of changes to the claims data layout have occurred, including the transaction processing methodology and the addition of several fields. Read carefully the section below on transaction handling for claims data.

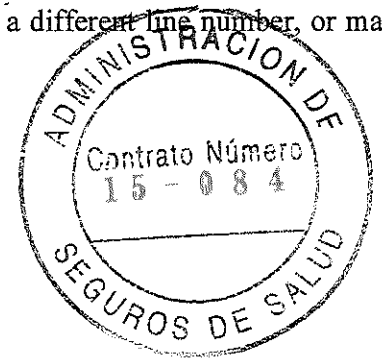
CLAIMS TRANSACTION HANDLING –

The previous method of handling claim adjustments and reversals used a transaction code to completely replace a claim with a new claim. This method has been changed in this version of the layouts to more closely match existing claims processing systems and allow for adjustments to occur on different dates. All adjustments of an adjudicated claim line are now accepted in the CLAIMSERVICES file. Do not send claims that are in an open status, such as pended claims, held, rejected, or pre-adjudicated claims. Claims reversals and adjustments happen as follows:

Paid or Denied FFS Claims

Individual service lines are adjusted at the line level with additional adjustment services marked with a claim line status code of 'A', while the original claim has a status code of 'P' for paid, 'D' for denied claims, or 'E' for encounter claims. The adjustment service may have the same claim ID and line number, may have the same claim ID and a different line number, or may be provided with a different claim ID and different line number.

Encounter Claims



Claims representing encounters have no allowed or paid amounts and are therefore not able to be adjusted monetarily. If an encounter needs to be updated to change any of the fields of the encounter, the adjusting claim must have a claim status code of 'E' and the claim ID and service line number must be the same as the encounter being adjusted. Our process will remove the original encounter so that duplicate encounters will not be counted in the data.

PROVIDER IDS –

ASES is requesting that provider NPIs are populated in the NPI field on provider records to assist in provider attribution and reporting across all Carriers. ASES will still accept the carrier's own provider id as the provider ID for medical claims, but the additional field NPI should be populated.

For pharmacy claims only

For pharmacy providers, only the NCPDP/NABP number is accepted. Carriers must include pharmacy providers in their provider files sent to ASES and the IDs must be consistent within the carriers claims. In other words, a pharmacy should have one NCPDP/NABP number and that number should as the billing provider be used for all claims from that pharmacy. When claims are validated, the Billing Provider on the claim record will be validated against the Provider file and will be matched even if the provider is unique for the carrier.

PROVIDER TELEPHONE NUMBERS –

Provider Telephone remains a required field on the Provider Input Layout. In the event, and as an exception, if the carrier does not have the actual provider's telephone number they should insert their own (Carrier's) telephone number. This also applies to the IPA Work Phone field in the same way.

Note that all telephone number fields must be filled using only numbers. No spaces or ()- characters should be included. For example, the telephone number (939) 123-4567 will be coded in the data field as 9391234567

CAPITATION AMOUNT –

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15-084

The amount to be reported on capitation records must be a net amount that represents any costs associated with providing services which are not reported in claims and encounters. This may come from formal contracts with providers such as HCO/PCPs, or any other financial arrangement or allocation of costs.

The number should represent a calculation which includes the earned capitation for the period less claims paid amounts, if any, chargeable against the provider risk. Other types of deductions which may be taken out of the provider's payment such as repayment of advances, retentions for reserves should not be included in the calculation.

CAPITATION ADJUSTMENTS –

There may be circumstances in which capitation payments which have already been reported, need in a later month to be adjusted or even reversed. To accomplish this, the Capitation records will behave differently than Claims and Services. The carrier will send a new record for the provider / member / experience date with an amount to be added or subtracted from the previously reported amount. If a capitation of $10.00 is to be reversed then the new record should contain the same information as the original but with a new Capitation Date and a Capitation Amount of -$10.00. Inside MedInsight the capitation for that Provider / Member for that particular date will be the aggregate of all the records and this example will result in $0.00.

Note that, as Capitation net amounts for any particular record may be negative, a reversal in such a case would be a positive amount.

DATA VALIDATION PROCESS –

All files will pass through a validation process. Validation will check the basic structure of the file and its records and may result in a file being rejected. Such rejections may be caused for example, by file names which fail to follow the naming convention, a file containing wrong length records or other basic tests.

All files which are rejected will be notified to the carrier with an explanation of why the file is rejected. No records from such a file will be retained in the system and the carrier will be required to re-submit the rejected file in its entirety before the next months files become due. Such re-submitted files must be carefully named using the sequence number part of the naming convention to ensure the name is distinct from the rejected file and is named in the correct order.

CLAIMS AND CAPITATION LAG REPORTS –

Carriers are required to submit claims and capitation payment reports, called lag reports, on a monthly basis. These reports will be used to reconcile the data submitted. Data that does not match the lag reports on paid amount within a reasonable percentage will be deemed invalid and must be corrected. The lag reports submitted by the carrier will be considered to be financially accurate and may be used for other purposes, including negotiations or other financial analyses. Therefore, it is in the carrier's best interests to produce lag reports that are either from another source that the actual files that are submitted, or to verify that the lag reports tie to financial reports.

The required claims lag reports need to be an excel file with the following characteristics:

1. Claims paid amounts by region, incurred month, paid month, and claim type (medical, pharmacy and dental) for claims.
2. The report must include at least all paid and incurred months going back 2 full years prior to the month the report is run.

An example of how the claims lag report data should look for claims is as follows:

Claim Type	Region	Incurred Month	Paid Month	Paid Amount
Medical	East	201101	201101	50,823.43
Medical	South	201101	201102	45,534.00

Dental	North	201101	201103	780,989.16
…	…	…	…	…

The required capitation lag reports need to be an excel file with the following characteristics:

1. Capitation paid amounts by region, capitation experience month, paid month
2. The report must include at least all paid and experience months going back 2 full years prior to the month the report is run.

An example of how the capitation lag report data should look for claims is as follows:

Region	Incurred Month	Paid Month	Capitation Paid Amount

PRIMARY CARRIER ID –

A field for the Primary Carrier ID has been added to the Claims Input Layout to recognize the MCO or TPA which enrolls the member and assigns IPA and PCP Provider IDs. The Carrier ID filed will carry the ID of the carrier generating the Claims Input File. These files will contain the same value when the reporting carrier is an MCO or TPA. When the reporting carrier is an MBHO or PBM the Carrier ID will contain the code of the MBHO or PBM and the Primary Carrier ID will contain the code of the MCO or TPA of the member.

IPA CODES AND PROVIDER CODES –

The Primary Carrier ID field has been added to be able to distinguish the validation of IPA and Provider codes by carrier. The Primary Carrier ID will carry the code of the MCO or TPA which contracts the members IPA and PCP Provider. In Claims records the codes for IPA and PCP Provider will be those created by the MCO/TPA and delivered to the MBHOs and PBMs in eligibility/enrollment data exchanges.

ATTENDING PROVIDER –

The validation rules for Attending Provider have been changes to remove the requirement that the value match a valid provider (i.e. a provider code reported by the carrier in its Provider file. The field is still required.

MUNICIPALITY SERVICE –

Recognizing that claims may be processed for services outside of Puerto Rico, code 0666 is included in the list of Municipality Codes. This value is valid only for use in the field Municipality Service on the Claims Input File. This value should be used only when services are paid for outside of Puerto Rico.

General Notes on data layout requirements

Date Fields - All date fields in the following data layout are defined to the same size and format as YYYYMMDD. An 8 byte field where YYYY = 4 digit year, MM = 2 digit month and DD = 2 digit day. 1 digit month and day values must always have the leading zero (0). Date fields must contain a valid date with months between 01 and 12 and days between 01 and maximum day in month. July 1, 2006 will be coded as 20060701.

Amount Fields – All amount fields representing money must be numeric and are defined as 9 bytes in the format 9(7)v99 where v represents and implied decimal point. This allows a maximum of 7 digits for dollars plus the last two digits for cents. These numbers are always right justified and zero filled to the left. As examples:

$1.23 will be coded as	000000123
$100.00 will be coded as	000010000

All amount fields are positive and follow the above definition unless clearly specified otherwise.
End of Record Filler – All file layouts have been designed to end with a filler field of 1 byte which must always be coded as an "*" character. This is done to avoid issues between different systems when generating and transferring ASCII files in which ending field may be empty. The fixed End of Record Filler guarantees that all records in a file can be constructed to the fixed length format as defined in the layouts.

Justification and filling of Fields – The layouts have all been specified to provide fixed length fields and fixed length records. While other methods can be used, it is felt that this provides the best common ground for working with multiple entities each of which uses varying systems. To be sure everyone understands the same about the comments on justification and filling the following examples are given to help keep this concept clear.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15-084

All numeric fields must be filled completely with numeric digits. If there are exceptions these are clearly spelled out in the documentation of the layouts. Typically numeric field are right justified and to keep them numeric must be zero filled. In a field specified as numeric such a 9(7)v99 where v represents an implied decimal the following examples illustrate how data will look in the field:

Value	Field
12.50	000001250
101	000010100
1,234.56	000123456
1,000,000	100000000

All alphanumeric fields must be filled completely. If the value of data in the field is less than the width of the field then care must be taken to ensure that the field is filled with blanks. Allowing "NULLS" or other special characters through may cause unexpected results and make reading, loading and validation of the data difficult. Typically alphanumeric field are left justified and filled to the right with blanks to complete the field. In a field specified as alphanumeric such a X(20) the following examples illustrate how data will look in the field where the [ ] characters represent the start and end of the field –

Value	Field
P.R.	[P.R.]
José Rivera	[José Rivera]
blanks	[ ]
(Metro-North Region)	[(Metro-North Region)]

References to CMS 1500 and UB-92 – All references to CMS 1500 or UB-92 in this document are for convenience and correspond equally to equivalent electronic formats and will apply equally to the next version of CMS 1500 or the UB-04 when implemented.

MPI Number fields – In all files in which MPI Number is required, carriers should code all 9s if the MPI is unknown. This should not be true for any current beneficiary. This exception will continue until such time as ASES determines that the issue of MPI being unavailable has disappeared from historical data. For Government Employee MPI should be filled with Contract Number.

File Naming Convention

All files to be delivered to ASES by the carriers must follow the naming conventions below. Files which do not fit the naming convention will be ignored and the carrier deemed to have failed in delivery of such a file.

File names must adhere strictly to this naming convention as the structure includes information for identification of the carrier, dates and file type. If not named correctly the file cannot be processed properly.

The general format of file names will be –

ASES GUIDELINES FOR CO-LOCATION OF BEHAVIORAL HEALTH PROVIDER IN PMG SETTINGS*

In accordance with the provisions of the Puerto Rico Mental Health Code, Law No. 408 of October 2, 2000, as amended, and the Puerto Rico Patient's Bill of Rights and Responsibilities, the Government Health Plan (GHP) is committed to promoting mental and physical health integration, in order to improve program effectiveness and quality of life for enrollees.

Historically, physical and behavioral health services have had limited information and communication interchange, which suggests that patients were not being treated in a holistic approach. Our goal is to achieve better access to care and cost containment, while considering people's health as a whole. The GHP health care coordination integration strategy for physical and behavioral health services, specifically through its Co-Location Integration Model, provides a mean to open communication channels so that better access, more targeted services and cost containment is achieved.

A Primary Medical Group (PMG) can actually operate out of one or multiple service locations such, for example, as medical offices or clinics. These locations can offer different kinds or levels of services and attend different volumes of beneficiaries. Some PMGs actually operate one or more full service clinics, with a complete array of multidisciplinary services such as primary care services, physician specialists' services, laboratory, pharmacy and others. Other PMGs have a central clinic or office and then several smaller offices or clinics that offer different specific services. And there are still other PMGs, often referred to as "virtual PMGs," that do not have a central office and have multiple providers in separate, stand-alone offices, operating as the pure concept of an independent practice association or IPA.

Accordingly, it is necessary to clarify which PMG service locations will be considered as PMG Settings for purposes of the Co-Location requirements. Specifically, it is necessary to provide guidance as to which PMG service locations must include the placement of a behavioral health provider and the amount of time per week that the provider must be available at each covered PMG service location.

The following guidelines are presented in order to clarify and adequately monitor compliance with the Co-Location requirements. These guidelines seek to ensure access to services and adequate communication between professionals without affecting the financial stability of the Co-Location Integrated Model.

Definition of PMG Setting: The following key elements are considered when defining "PMG Setting":

1. *Volume*: A PMG setting is the physical service location (clinic or office) where the population accesses most of the services within the PMG. These service locations can vary in size, kinds of services offered and number of beneficiaries attended. ASES has determined to define the term "PMG Setting" on the basis of the volume of beneficiaries served. ASES will consider as a "PMG Setting" any PMG service location that serves at least 5,000 beneficiaries. This setting must have available a behavioral health provider in the weekly timeframes detailed in these guidelines. Any PMG service location that services less than 5,000 beneficiaries must follow the "Virtual Co-Location Model" also set forth in these guidelines.
2. *Comprehensiveness*: The PMG setting where multidisciplinary services are rendered, among these, primary care services, physician specialists services, laboratory, pharmacy, behavioral provider, etc.
3. *Substitution*: Location with the capability of keeping services in case that the PCP is not available.

Required Co-Location of Staff per PMG Setting. In view of the different kinds of PMG Settings and particularly, the different number of beneficiaries served, ASES has decided that the most reasonable course is to establish a table with the required weekly access to behavioral health providers according to the number of beneficiaries assigned to each PMG Setting. The standard minimum criteria for weekly access will be 4 hours per week for every 5,000 beneficiaries assigned to a PMG Setting. The following table details the minimum required weekly hours of mental health professional availability according to the number of beneficiaries served in each PMG Setting.

Covered Beneficiaries per PMG Setting	Minimum Behavioral Health Colocation Hours Required

Virtual Co-Location. In the case of those PMG service locations that have less than 5,000 beneficiaries assigned, such PMG service locations shall not be required to have a behavioral health provider available on site. In these instances, the PMG service location may refer the beneficiary to another service location within the same PMG that actually has a behavioral health provider available or consult with this behavioral health provider. This model aims to provide mental health treatment and coordinate the levels of services needed by patients referred by the PMG service location in question. Behavioral health providers will be available to address consults and discussions of cases.

A corrective action plan ("CAP") will be required of every PMG Setting that does not comply with the required co-location level. The PMG must present the CAP to the corresponding Entity within seven (7) calendar days from the receipt of the notice of the need for corrective action. The Entity will evaluate and approve or deny the CAP within seven (7) calendar days from the day such CAP is received. All PMGs with an approved CAP must comply with the terms of the CAP and achieve the required co-location within the timeframes established in the CAP.

Penalty Matrix. In the event that a PMG does not comply with the required co-location levels in any of its PMG settings, the PMG may be subjected to penalties according to the following matrix:

Sanction Level	Sanction Type	Timeframe to cure	Comments
0	Notice of Non Compliance with Colocation Level	30 days (Day 1-30)	A Corrective Action Plan is required
1	New members subscription Hold	30 days (Day 31-60)	If within the first 30 day period, the PMG continues non-compliant.
2	PM/PM payment withhold and new member subscription	30 days (Day 61-90)	A Standard $1.50 PM/PM payment withhold (in addition to sanction 1) if after the previous two 30day periods, the GMP is still non-compliant.
3	Fine	15 days (Day 91-105)	Fines to be defined in accordance to contract
4	PMG Contract Cancelation	Day 106

LISTADO DE DIAGNÓSTICO DE NIÑOS CON NECESIDADES ESPECIALES DE SALUD (NINES)

El listado de Diagnósticos de Niños con Necesidades Especiales de Salud fue revisado respondiendo a su petición.

Es necesario señalar que en principio este listado fue provisto a ASES como una guía; por tanto, es importante que no se excluya de los beneficios de la cubierta de la Tarjeta de Salud del Gobierno de Puerto Rico a un niño que presente alguna condición que no esté en el listado. Si el niño cumple con la definición de Niños con Necesidades Especiales de Salud del Negociado para la Salud Materno Infantil, deberá recibir los servicios aún antes de que se establezca un diagnóstico.

Sometemos además nuestras recomendaciones para la identificación, diagnóstico y tratamiento de los niños y jóvenes con necesidades especiales de salud a manera de asegurar el acceso a los servicios que esta población necesita. Éstas tienen el propósito de asegurar unos servicios uniformes para todos los niños con necesidades especiales de salud sin importar la aseguradora.

Gracias por su atención a este asunto.

NIÑOS CON NECESIDADES ESPECIALES DE SALUD

DEFINICIÓN:

Niños que tienen o se encuentran en mayor riesgo de desarrollar una condición crónica física, de conducta, emocional o del desarrollo, que también necesitan servicios de salud y otros servicios relacionados de un tipo o en una cantidad que va más allá de lo que los niños necesitan por lo general.

ESTANDAR DE NECESIDAD MÉDICA ESPECÍFICO PARA NIÑOS

- Servicios médicamente necesarios son aquellos necesarios para la prevención y el mantenimiento de la salud o para el diagnóstico y tratamiento de una condición física o mental, o si fueran necesarios para prevenir el deterioro de esa condición o para promover el desarrollo o el mantenimiento del funcionamiento apropiado para la edad.

CUBIERTA ESPECIAL NNES

En la "Cubierta Especial" las Aseguradoras, con quien ASES contrata los servicios, asumen el riesgo de los servicios para las condiciones clasificadas con Diagnósticos de Condiciones de Niños con Necesidades Especiales. (Ver lista diagnósticos ASES)

En esta lista de condiciones se incluyen los diagnósticos más frecuentes, pero no limita o excluye otras condiciones que cumplan con la definición. Con este propósito se debe utilizar un instrumento de cerniminento (ver "Screener") para determinar su aplicabilidad.

Es responsabilidad del médico primario solicitar la cubierta, y registrar al asegurado utilizando el formulario correspondiente para Niños con Necesidades Especiales de Salud que se encuentra en el Manual del Proveedor. También el proceso de certificación puede ser iniciado por uno de los Centros Pediátricos del Departamento de Salud.

Para poder evaluar y certificar estos casos es necesario que se incluya junto al formulario la información necesaria: Ej

- Resumen de caso: Historial y físico actualizado
- Evaluaciones y consultas de especialistas.
- Resultados de procedimientos y pruebas diagnósticas
- Resultados de pruebas de laboratorio diagnósticas.
- Plan de seguimiento necesario.
- Plan de tratamiento

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número 16-0884

Esta información y el formulario de registro deben ser enviadas al Programa de Manejo de Casos (PMC) de la Aseguradora. El PMC evaluará la solicitud de certificación y la información documental incluida. Cada caso se evalúa individualmente por el Manejador de casos y consultando al equipo asesor del Programa. Esto dependerá de la cubierta negociada. El acuerdo con las aseguradoras debe ser uniforme y que obligue igual a todas las compañías.

Se le notifica directamente por carta a la familia y al médico primario si la solicitud para la inclusión de su paciente en el registro NNE ha sido aceptada o denegada; o si falta información para la consideración del caso. El médico y/o la familia podrá apelar por escrito cualquier decisión de denegación, con la información adicional necesaria.

CARTA NORMATIVA #14-10-22

A TODOS LAS ENTIDADES CONTRATADAS Y PROVEEDORES QUE OFRECEN SERVICIOS DE SALUD BAJO EL PLAN MI SALUD

Re: Para derogar la Carta Normativa #11-06-29 sobre Suscripción Automática (*Auto-Enrollment*)

Mediante la presente Normativa se sustituye la Normativa 11-06-29 de 29 de junio de 2011. Esta nueva Normativa establece que toda persona que resulte ser elegible al Plan MI Salud del Gobierno de Puerto Rico quedará automáticamente asegurada y suscrita al Plan según la Región de residencia. Su tarjeta del Plan de Salud del Gobierno será enviada través de correo en un término no mayor de cinco (5) días laborables luego de haber resultado elegible.

El asegurado podrá comenzar a recibir servicios de salud desde el mismo día en que la Oficina de Medicaid, del Departamento de Salud de Puerto Rico, le haga entrega de la Notificación de Acción Tomada mediante la forma MA-I0. La fecha para determinar desde cuando la persona está asegurada es la que se indica en la sección titulada "Fecha de Certificación" de la forma MA-I0 (parte superior derecha). A partir de dicha fecha usted puede accesar servicios médicos a través de su Grupo Médico y Médico Primario, aun cuando no hubiera recibido su tarjeta de identificación del Plan. De no haber recibido su tarjeta podrá presentar la forma MA-10 para recibir los servicios medicamente necesarios.

Debido a que las tarjetas no son emitidas por el Programa Medicaid al momento de ser elegibles, se requiere toda la colaboración de parte de la Aseguradora para la emisión de las mismas en un término no mayor de dos (2) días laborables. No se podrán denegar servicios por parte de los proveedores porque el paciente no tenga su tarjeta, siempre que presente la MA-10 y una identificación con foto.

Es responsabilidad del proveedor comunicarse con la Aseguradora para asegurarse de que el beneficiario esté debidamente suscrito en el Plan y tenga un Grupo Médico y Médico Primario asignado. De no contar con un médico primario aun así, el proveedor podrá prestar los servicios de salud física, mental o dental, según aplique. Las entidades de salud contratadas por ASES tendrán la responsabilidad de pagar por los servicios brindados según los términos y las condiciones del contrato.

Para facilitar la facturación y pago por los servicios que el proveedor prestó, la forma MA-l0 incluye una sección que indica "MPI/SS" que provee el número de identificación del asegurado. El proveedor deberá acompañar con su factura una copia de la forma MA-10, para el envío a la Aseguradora. La forma MA-10 indica el período de vigencia de elegibilidad del beneficiario.

Lo dispuesto en esta Carta Normativa no aplica a los beneficiarios suscritos en un Plan Medicare Platino.

ASES requiere a las entidades contratadas que en un término improrrogable de cinco (5) días calendario se envíe a cada uno de sus proveedores participantes del Plan Mi Salud copia fiel y exacta de esta Carta Normativa. Las entidades deberán enviar a la atención del Director Ejecutivo de ASES una Declaración Jurada suscrita por su Presidente Corporativo haciendo constar que han dado fiel cumplimiento a lo aquí requerido.

Solicitamos el fiel cumplimiento con esta normativa para que se mantengan brindando los servicios de excelencia y calidad conforme al Plan MI Salud del Gobierno de Puerto Rico.

Como siempre, estamos seguros que contaremos con el apoyo de todos nuestros proveedores.

Cordialmente,

Ricardo A. Rivera Cardona

CARTA NORMATIVA # 14-10-22-A

A TODAS LAS ENTIDADES CONTRATADAS POR LA ADMINISTRACIÓN DE SEGUROS DE SALUD (ASES) Y PROVEEDORES DE SERVICIOS DE SALUD DEL PLAN DE SALUD DEL GOBIERNO

Re: REFERIDOS

Esta Carta Normativa se publica con el propósito de dejar sin efecto las Cartas Normativas #11-0501 de 1ro de mayo de 2011 y la 2013-11-14 del 14 de noviembre de 2013, a la luz de la legislación y de la normativa aplicable.

El Programa de Salud del Gobierno del Estado Libre Asociado de Puerto Rico ("el plan") es un modelo integrado de salud adoptado para ofrecer servicios a las personas beneficiarias cubiertas bajo lo dispuesto en la Ley Núm. 72 de 1993, conocida como la Ley de la Administración de Seguros de Salud, y a las personas médico indigentes cubiertas bajo el programa federal de Medicaid. La Ley Núm. 72 define a los proveedores de servicios de salud como los "médicos primarios, médicos de apoyo, servicios primarios, proveedores primarios y organizaciones de servicios de salud". Por su parte, la Ley Núm. 72 define al "médico primario" como el "profesional proveedor participante que evalúa y da tratamiento inicialmente a los beneficiarios" y quien "[e]s responsable de determinar los servicios que precisa el beneficiario, [de] proveer continuidad [y] de referir a los beneficiarios a servicios especializados". "Se consideran médicos primarios [los] médicos generalistas, médicos internistas, médicos de familia, pediatras, ginecólogos y obstetras". Para garantizar la calidad y libre selección de los beneficiarios a los servicios de salud cubiertos por el plan, la Ley Núm. 72 también dispone que los beneficiarios del plan tendrán derecho a escoger, e incluso a cambiar, su médico primario, derecho al libre acceso a los servicios médicos y a que no se les niegue los servicios bajo la cubierta.

Bajo lo dispuesto en la Ley Núm. 72, los beneficiarios del plan se suscriben a un Grupo Médico Primario (GMP), que es el custodio del manejo integrado de salud de los beneficiarios suscritos al plan y asignados a dicho GMP. Dentro de cada GMP se integran el número de médicos primarios y especialistas necesarios para el cuidado de la salud de la población bajo su atención, según exige el contrato entre la ASES y el asegurador seleccionado, las condiciones médicas prevalecientes y la demografía de esa población. Dichos GMP, como norma general, deben incluir médicos generalistas, médicos de familia, internistas, pediatras, ginecólogos y ginecólogos-obstetras.

El GMP es el responsable de velar y garantizar que los beneficiarios bajo su atención tengan acceso a los servicios especializados cubiertos y necesarios para sus condiciones de salud. Para viabilizar y facilitar el libre acceso a servicios especializados, el modelo del plan provee para que cada GMP cree su propia red preferida de proveedores de salud. Estas redes preferidas garantizan a los beneficiarios acceso directo a la cubierta de servicios especializados sin referido o autorización del médico primario.

El modelo integrado del plan también les brinda a los beneficiarios acceso a los especialistas que no forman parte del GMP y su red preferida a través de la red general del asegurador contratado por la ASES. Esta red general complementa la red preferida del GMP y ofrece otras opciones al beneficiario en caso de que las alternativas disponibles dentro de la red preferida no sean viables o se necesite de otros proveedores. Sin embargo, para que el GMP pueda ofrecer a los pacientes un cuidado de salud administrado de forma ordenada, coordinada y responsable en cumplimiento con la Ley Núm. 72, es preciso que antes de utilizar un especialista fuera del GMP y su red preferida, el beneficiario obtenga un referido de su médico primario y pague, de ser aplicable, el correspondiente co-pago cuando visite al especialista de la red general.

La emisión de referidos es responsabilidad exclusiva del médico primario seleccionado por el asegurado. El asegurado bajo ninguna circunstancia podrá ser dirigido a otra facilidad o grupo médico para la obtención de referido o autorizaciones de servicios. Ninguna Junta, Comité, Administrador de Grupo Médico, etc. podrá emitir referidos. Tampoco podrá pasar juicio sobre la determinación del médico primario el emitir el referido.

En el caso particular del acceso a los ginecólogos y ginecólogos-obstetras, es preciso reconocer que la Ley Núm. 194 de 25 de agosto de 2000, según enmendada, mejor conocida como la "Carta de Derechos y Responsabilidades del Paciente", también de aplicación al Plan de Salud del Gobierno del Estado Libre Asociado, dispone en lo concerniente a la selección de planes de cuidado de salud y proveedores de servicios de salud médico-hospitalarios, que todo paciente, usuario o consumidor de tales planes y servicios en Puerto Rico tiene derecho a "que los planes de cuidado de salud individuales o grupales cubran los servicios de ginecología y obstetricia con acceso directo, sin requerir referido o autorización previa del plan, siempre que ese médico sea parte de la red de proveedores del plan de cuidado de salud ".

En consideración a todo lo antes expuesto y de conformidad con la Ley Núm. 72 de la ASES y lo dispuesto en la Carta de Derechos y Responsabilidades del Paciente, el modelo del Plan de Salud del Gobierno reconoce el derecho de sus beneficiarias a seleccionar y acceder de forma directa al ginecólogo o ginecólogo-obstetra de su preferencia a través del GMP y su red preferida sin necesidad de un referido de su

médico primario. En caso de que las beneficiarias necesiten los servicios de un ginecólogo o ginecólogo-obstetra en la red general y fuera de la red preferida, deberá obtener el correspondiente referido del médico primario y pagar, de ser aplicable, el co-pago que corresponda en la visita a dicho especialista.

Le recordamos que los referidos deben proveerse en la misma visita al Médico Primario (PCP, por sus siglas en inglés) o en un término no mayor de veinticuatro (24) horas luego de dicha visita. En aquellos casos en que el especialista a ser referido no forme parte de la red preferida del GMP, el médico primario tendrá la responsabilidad de coordinar la cita y asegurarse de que el servicio sea provisto en un término no mayor de treinta (30) días, siempre tomado en consideración el estado de salud del paciente. En este caso, no se cobrarán los copagos aplicables a especialistas fuera de la red.

En cuanto a la región virtual existe el modelo de libre selección para los asegurados que pertenezcan a la misma. Como ha de ser de su conocimiento, dicha región está compuesta por niños bajo la custodia del Departamento de la Familia (ADFAN) y mujeres sobrevivientes de violencia doméstica (Oficina de la Procuradora de las Mujeres). Para esta región no aplica la selección de grupo ni médico primario por ser esta una población flotante, por lo que no es necesario la expedición de referidos para que dicha población accese sus servicios de salud.

Finalmente, reiteramos, que bajo las redes preferidas del plan no se requieren referidos para visitar a especialistas, ni contrafirmas del médico primario para servicios de cubierta física. Tampoco el asegurado tendrá que pagar copagos al utilizar las redes preferidas dentro del Grupo Médico Primario de su selección y la aseguradora no podrá denegar facturas por estos servicios por no contar con el referido del médico primario. Además, no se requiere referido para acceder los servicios dentales, con excepción de las cirugías maxilofaciales donde se requiere referido del médico primario para el cirujano maxilofacial.

Solicitamos el fiel cumplimiento con esta normativa para que se mantengan brindando los servicios de excelencia y calidad conforme al Programa de Salud del Gobierno del Estado Libre Asociado de Puerto Rico.

PAGO DE RECLAMACIONES EN SALAS DE EMERGENCIAS POR SERVICIOS DE SALUD FÍSICA Y MENTAL EN HOSPITALES MÉDICO- QUIRÚRGICOS

Re: Para derogar la Carta Normativa 04-01-30 sobre la separación de prestación y facturación de servicios de salud física y mental.

A partir del 1ro de abril del 2015*, el modelo de servicios del Plan de Salud del Gobierno establece que cada aseguradora responsable de administrar los servicios de salud para una determinada región, será a su vez responsable de pagar los servicios médicos de salud física y mental bajo el mismo sistema de facturación. El modelo de integración procura la integración de datos y de responsabilidad de pago bajo una sola entidad. De acuerdo con esta política, cada aseguradora establecerá los contratos con todo servicio de sala de emergencia y será el pagador único independientemente de si el servicio es un diagnóstico de salud física o de salud mental. Siendo el modelo de servicio y riesgo financiero uno integrado, queda sin efecto la carta normativa Núm. 04-01-30 enviada el 13 de Febrero del 2004 que disponía la separación de prestación y facturación de servicios de salud física y mental.

De existir un modelo de servicios donde entidades de salud mental funjan como entidades subcontratadas para dar servicios de salud mental, el arreglo tiene que ajustarse a que sea solo la entidad responsable del riesgo financiero quien procese el pago de las reclamaciones de dichos servicios. Será responsabilidad de la entidad contratada por ASES, realizar la contratación de las facilidades y proveedores de salud mental y de salud física. También será responsable de la configuración y credencialización de ambos tipos de proveedores en su sistema de adjudicación de reclamaciones, con las tarifas acordadas para los servicios según la cubierta de beneficios.

State Medicaid Directors Letter (SMDL) #09-001

Introduction

Under the authority of Sec. 1102 of the Social Security Act (42 U.S.C. 1302); as detailed in the 43 FR 45262, Sept. 29, 1978, the Medicaid Program must have a program to detect and investigate fraud, waste and abuse.

The Commonwealth of Puerto Rico Department of Health and its Office for the Medically Indigent, acting as the single state agency are responsible for the management of the Medicaid and SCHIP grant funds. These funds are transferred to the Puerto Rico Health Insurance Administration (ASES), to be combined with state funds to provide health benefit coverage to the medically indigent population through contracts with health plans. Acting as a sub-grantee to the Office for the Medically Indigent Medicaid program, ASES establishes contracts with insurance companies and other organizations to facilitate the beneficiaries' access to the benefit coverage throughout their provider's networks.

Integrity Program Basis and Scope

This document sets forth guidelines with minimum criteria for the compliance with Program Integrity Policies and Procedures that each organization (grantee, sub-grantee, insurance companies) must have for the administration of the Commonwealth of Puerto Rico's Medicaid and State Health Plans. This document includes guidelines for the elaboration of the 3 main sections in the organizations Program Integrity Plan (PIP):

1. Fraud Detection and Investigation
2. Providers and Fiscal Agents Disclosure of Information on Ownership and Control
3. Integrity Program

In that situation, the provisions of paragraph (d)(3) of this section apply equally to that referral as well.

(5) A decision to exercise the good cause exceptions in paragraphs (e) or (f) of this section not to suspend payments or to suspend payments only in part does not relieve the Organization of the obligation to refer any credible allegation of fraud as provided in paragraph (d)(1) of this section.

(e) *Good cause not to suspend payments.* The Organization may find that good cause exists not to suspend payments, or not to continue a payment suspension previously imposed, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

(1) Law enforcement officials have specifically requested that a payment suspension not be imposed because such a

payment suspension may compromise or jeopardize an investigation.

(2) Other available remedies implemented by the Organization more effectively or quickly protect Medicaid funds.

(3) The Organization determines, based upon the submission of written evidence by the individual or entity that is the subject of the payment suspension, that the suspension should be removed.

(4) Beneficiary access to items or services would be jeopardized by a payment suspension because of either of the following:

(i) An individual or entity is the sole community physician or the sole source of essential specialized services in a community.

(ii) The individual or entity serves a large number of recipients within a HRSA-designated medically underserved area.

(5) Law enforcement declines to certify that a matter continues to be under investigation per the requirements of paragraph (d)(3) of this section.

(6) The State determines that payment suspension is not in the best interests of the Medicaid program.

(f) *Good cause to suspend payment only in part.* The Organization may find that good cause exists to suspend payments in part, or to convert a payment suspension previously imposed in whole to one only in part, to an individual or entity against which there is an investigation of a credible allegation of fraud if any of the following are applicable:

(1) Recipient access to items or services would be jeopardized by a payment suspension in whole or part because of either of the following:

(i) An individual or entity is the sole community physician or the sole source of essential specialized services in a community.

(ii) The individual or entity serves a large number of recipients within a HRSA-designated medically underserved area.

(2) The Organization determines, based upon the submission of written evidence by the individual or entity, that is the subject of a whole payment suspension, that such suspension should be imposed only in part.

(3)(i) The credible allegation focuses solely and definitively on only a specific type of claim or arises from only a specific business unit of a provider; and

(ii) The Organization determines and documents in writing that a payment suspension in part would effectively ensure that potentially fraudulent claims were not continuing to be paid.

(4) Law enforcement declines to certify that a matter continues to be under investigation per the requirements of paragraph (d)(3) of this section.

(5) The State determines that payment suspension only in part is in the best interests of the Medicaid program.

	(g) *Documentation and record retention.* The Organization must meet the following requirements: (1) Maintain for a minimum of 5 years from the date of issuance all materials documenting the life cycle of a payment suspension that was imposed in whole or part, including the following: (i) All notices of suspension of payment in whole or part. (ii) All fraud referrals to the Medicaid fraud control unit or other law enforcement agency. (iii) All quarterly certifications of continuing investigation status by law enforcement. (iv) All notices documenting the termination of a suspension. (2)(i) Maintain for a minimum of 5 years from the date of issuance all materials documenting each instance where a payment suspension was not imposed, imposed only in part, or discontinued for good cause. (ii) This type of documentation must include, at a minimum, detailed information on the basis for the existence of the good cause not to suspend payments, to suspend payments only in part, or to discontinue a payment suspension and, where applicable, must specify how long the Organization anticipates such good cause will exist. (3) Annually report to the Secretary and ASES summary information on each of following: (i) Suspension of payment, including the nature of the suspected fraud, the basis for suspension, and the outcome of the suspension. (ii) Situation in which the Organization determined good cause existed to not suspend payments, to suspend payments only in part, or to discontinue a payment suspension as described in this section, including describing the nature of the suspected fraud and the nature of the good cause.

Title SA12	Disclosure of Information and Screen for Identity and Exclusions by Providers and Fiscal Agents
Scope	Grantee, Sub-Grantee and Contracted Organizations
Purpose	To provide definition of concepts in order to fully adhere to the regulation on providers control and ownership of facilities and verification of employees for exclusions
General	The organization must adhere to standard definitions when dealing with disclosure of information by providers and fiscal agents when establishing mechanism to regulate providers control and ownership of facilities and verification of employees for identity and exclusions
Guidelines	The PIP will adhere to the following definitions of concepts to keep consistency with federal regulation and application of law: *Agent* means any person who has been delegated the authority to obligate or act on behalf of a provider. *Disclosing entity* means a Medicaid provider (other than an individual practitioner or group of practitioners), or a fiscal agent. *Other disclosing entity* means any other Medicaid disclosing entity and any entity that does not participate in Medicaid, but is required to disclose certain ownership and control information because of participation in any of the federal programs (Medicaid, SCHIP, FQHC's). This includes: (a) Any hospital, skilled nursing facility, home health agency, independent clinical laboratory, renal disease facility, rural health clinic, or health maintenance organization that participates in Medicare (title XVIII); (b) Any Medicare intermediary or carrier; and (c) Any entity (other than an individual practitioner or group of practitioners) that furnishes, or arranges for the furnishing of, health-related services for which it claims payment under any plan or program established under title V or title XX of the Act. *Fiscal agent* means a contractor that processes or pays vendor claims on behalf of the Medicaid agency. *Group of practitioners* means two or more health care practitioners who practice their profession at a common location (whether or not they share common facilities, common supporting staff, or common equipment). *Indirect ownership interest* means an ownership interest in an entity that has an ownership interest in the disclosing entity. This term includes an ownership interest in any entity that has an indirect ownership interest in the disclosing entity.
Guideline	*Managing employee* means a general manager, business manager, administrator, director, or other individual who exercises operational or

managerial control over, or who directly or indirectly conducts the day-to-day operation of an institution, organization, or agency.

Ownership interest means the possession of equity in the capital, the stock, or the profits of the disclosing entity.

Person with an ownership or control interest means a person or corporation that –

(a) Has an ownership interest totaling 5 percent or more in a disclosing entity;
(b) Has an indirect ownership interest equal to 5 percent or more in a disclosing entity;
(c) Has a combination of direct and indirect ownership interests equal to 5 percent or more in a disclosing entity;
(d) Owns an interest of 5 percent or more in any mortgage, deed of trust, note, or other obligation secured bye the disclosing entity if that interest equals at least 5 percent of the value of the property or assets of the disclosing entity;

(f) Is a partner in a disclosing entity that is organized as a partnership.

Significant business transaction means any business transaction or series of transactions that, during any one fiscal year, exceed the lesser of $25,000 and 5 percent of a provider's total operating expenses.

Subcontractor means –

(a) An individual, agency or organization to which a disclosing entity has contracted or delegated some of its management functions or responsibilities of providing medical care to its patients; or
(b) An individual, agency, or organization with which a fiscal agent has entered into a contract, agreement, purchase order, or lease (or leases of real property) to obtain space, supplies, equipment, or services provided under the Medicaid agreement.

Supplier means an individual, agency or organization from which a provider purchases goods and services used in carrying out its responsibilities under Medicaid (e.g., a commercial laundry, a manufacturer of hospital beds, or a pharmaceutical firm).

Guideline	*Wholly owned supplier* means a supplier whose total ownership interest is held by a provider or by a person, persons, or other entity with an ownership or control interest in a provider. The PIP must also ensure providers compliance with screening employees for identity and exclusions. To further protect against payments for items and services furnished or ordered by excluded parties, all current providers and providers applying to participate in the plan must be advised to take the following steps to confirm identities and to determine whether their employees and contractors are excluded individuals or entities: ✓ Providers have the obligation to screen all employees and contractors to confirm the identity and determine the exclusion status through routine checks of Federal databases. The Organization should communicate this obligation to providers upon enrollment and reenrollment. ✓ Providers should explicitly be required to agree to comply with this obligation as a condition of enrollment. ✓ Providers should be informed that they can search the Social Security Administration's Death Master File, the National Plan and Provider Enumeration System (NPPES), the List of Excluded Individuals/Entities (LEIE), the Excluded Parties List System (EPLS), and any such other databases as the Secretary may prescribe. ✓ Providers should be required to search the LEIE and EPLS no less frequently than monthly to capture exclusions and reinstatements that have occurred since the last search. ✓ Providers should be required to immediately report to them any exclusion information discovered. This line of defense in combating fraud and abuse must be conducted accurately, thoroughly, and routinely. The Organization must notify ASES and the HHS-OIG promptly of any administrative action taken against a provider for failure to comply with these screening and reporting obligations. *See* 42 CFR section 1002.3(b)(3). The Organization can satisfy this obligation by communicating the relevant information to ASES and the appropriate Regional Office of the OIG Office of Investigations. The Organizations also should inform providers that civil monetary penalties may be imposed against Medicaid providers and entities contracted by ASES who employ or enter into contracts with excluded individuals or entities to provide items or services to Medicaid recipients. (Section 1128A(a)(6) of the Act; and 42 CFR section 1003.102(a)(2))

ADMINISTRACION DE SEGUROS DE SALUD

ASES
Administración de Seguros de Salud de Puerto Rico

ASES
Administración de Seguros de Salud de Puerto Rico

PLAN FOR THE ADOPTION OF ELECTRONIC HEALTH RECORDS

BY THE GOVERNMENT HEALTH PLAN PROVIDER NETWORK

According to the public policy established by the Health Information Technology for Economic and Clinical Health (HITECH) Act, enacted as part of the American Recovery and Reinvestment Act of 2009, that promotes the adoption and meaningful use of health information technology and the Act 40 of 2012, enacted by the Commonwealth of Puerto Rico, the *Administración de Seguros de Salud de Puerto Rico [ASES]* as the agency responsible for the implementing the government health plan (GHP) established a Plan for the adoption of electronic health records (EHRs) by the *GHP* health care provider network.

ASES recognizes that physicians are the gateway to organized and integrated healthcare delivery systems. The implementation of this Strategic Plan will accomplish the integration of all the health care providers' network, as an organized health care system, allowing ASES to plan for, provide/purchase, and coordinate all core services along the continuum of health care services for the population served by the *GHP*. The progressive adoption of electronic health records and the necessary secure and effective exchange of the patient health information constitute the backbone of an organized integrated health system.

The proper implementation of the Plan in a structured and progressive way will allow the achievement of the following objectives:

- Focus on meeting the *GHP* population health needs;
- Efficient information systems that enhance communication and information flow across the continuum of care;
- Coordinate and integrate health care across the continuum;
- Able to obtain and manage information on quality outcomes and costs;
- Patient access to care continuum with multiple points of access; ensuring the patient receives the "right care at the right place at the right time";
- Population-based needs assessment; focused on defined population as needed;
- Maximize patient accessibility and minimize duplication of services ;
- Encourage and facilitate prudent use of resources and eliminate wasteful practices;
- Align service funding to ensure equitable funding distribution for different services or levels of services;
- Provider-developed, evidence-based care guidelines and protocols to enforce one standard of care regardless of where patients are treated;
- Cooperation between health care providers and organizations - medicine management partnerships; and
- Facilitate prevention and health promotion

ASES, according to the authority conferred by the law, has required the MCO to promote and request the adoption and implementation of the EHR by their health care provider network and an active participation in the PRHIN (State HIE) to enable the health information exchange between the health care providers.

The adoption of electronic health records and the meaningful use by the GHP health care provider network will allow ASES to establish mechanisms that guarantee, directly and indirectly, the accessibility, quality improvement, and cost and utilization controls of health care services provided and funded by federal and state governments, as well as the protection of patients' rights.

Strategies to Achieve ASES Goals and Objectives

ASES understands that achieving its goals and objectives will require it to work together with the contractors, to ensure that all health care providers move forward in a concerted and consistent manner in support and compliance with this Plan. The following are critical to achieving ASES' goals and objectives.

1. **Promote and require the GHP health care provider networks to adopt the meaningful use of a certified health records and an active exchange of patient health information through the State health information organization, Puerto Rico Health Information Network (PRHIN).**

ASES will request the MCOs to perform a region-specific survey within their GHP health care provider networks to obtain the following information:

- Number of health care service providers/ organizations using a certified electronic health record;
- Number of health care service providers/ organizations that are active participants of a Health Information Exchange;
- Number of health care service providers/ organizations in the process of adopting and implementing a certified electronic health record system;
- Number of health care service providers/ organizations that do not have a certified electronic health record system and the reasons for that (ex. technical issues, financial issues, lack of knowledge, etc.);

Using the results of the survey, ASES and the contractors will develop and present a series of educational initiatives to advance and support, the adoption and implementation of meaningful use of the certified electronic health record by the provider networks.

Other related educational initiatives/programs will be developed and offered to assure the adequate use of the electronic health records to include the following;

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
15-0084

- the health information exchange between providers and between providers and the contractors for the benefit of the patient care;

- the privacy and security (Privacy Framework) of the electronic management of patient health information in compliance with the federal and state regulations; and

- the patients insured by *GHP* are informed about the benefits of the electronic health record and the health information exchange between their health care providers.

2. Ensure the Health Care Provider Networks Comply with Meaningful Use Care Goals

-In order to comply with the Federal Government's guidelines of what constitutes a "Meaningful Use" performance, ASES envisions that their provider networks will achieve meaningful use within the CMS program requirements. ASES and the contractors will work together to monitor the provider's engagement in a Health Information Organization and participate in the health information exchange platform.

3. Monitoring EHR Adoption and PRHIN (STATE HIE) Engagement

The MCO will develop a milestone and auditing program to be shared with the provider networks to measure EHR adoption and implementation. By measuring the progress, the MCO will be able to identify areas where EHR adoption and/ or PRHIN (STATE HIE) engagement are successful and where more effort is needed to help certain providers so that ongoing progress towards meeting the CMS deadlines is maintained. As a result, the MCO must report ASES the milestones achieved and the findings results from the audits performed.

ASES, as the agency responsible for the implementing the GHP, will start the monitoring program using CMS requirements, as included in the contract ASES will work on a systematic measurement program that will produce reporting to demonstrate and/or validate the GHP provider networks performance. The monitoring program will include:

- Monthly periodic reporting of EHR adoption and PRHIN (STATE HIE) engagement;

GUIDELINES FOR REVERSE COLLOCATION OF THE
PRIMARY CARE PHYSICIANS IN MENTAL HEALTH FACILITIES

In accordance with the provisions of the Puerto Rico Mental Health Code, Law No. 408 of October 2, 2000, as amended, and the Puerto Rico Patient's Bill of Rights and Responsibilities, the Government Health Plan (GHP) is committed to promoting mental and physical health integration, in order to improve program effectiveness and quality of life for enrollees.

Reverse collocation is an integrated care model in which medical services are available to members being treated in behavioral health facilities. It has been known that patients with co-morbid conditions that include chronic or acute medical conditions and behavioral health diagnoses are at higher risk for increased utilization and costs in health care. Persons with serious mental illness have high levels of medical co-morbidity compared to the general population, as well as increased risk for diabetes, obesity, and high cholesterol due to the use of some second-generation antipsychotic medications (Milbank Memorial Fund, 2010)

In the reverse collocation model, a primary care physician is located part or full time in a behavioral health facility to monitor the physical health of patients.

Collocated Primary Care Physicians (PCPs) are independently sub-contracted and supervised by the contractor. They use the Behavioral Health Facility (BHF) records, and coordinate follow up with the member's PMG as necessary. The Collocated PCP can make the same primary interventions and referrals as any PCP in the PMG.

Behavioral Health Facilities (BHF)

The following BHF will be considered for purposes of the Reverse Collocation requirements:

1. Psychiatric Hospitals (or a unit within a general hospital)
2. Emergency or Stabilization Units
3. Partial Hospitalization Units
4. Intensive Ambulatory Services Units
5. Ambulatory Services Units
6. Addiction Services Unit (detoxification, ambulatory, inpatient)

ADMINISTRACION DE SEGUROS DE SALUD

Required Reverse Collocation Staff per BHF.

1. Ambulatory Services Units must have at least one collocated PCP 4 days per week for 4 hours.

2. Addiction Services Units must have at least one collocated PCP 3 days per week for 4 hours.

3. Psychiatric Hospitals are required to have at least a PCP on call on a daily basis.

4. Partial Hospitalization Units must have at least one collocated PCP 2 days per week for 4 hours.

5. Stabilization units must have one PCP for consultation (on call) on a daily basis.

In the event that a BHF does not comply with the required collocation level, may be subjected to penalties according to the following matrix:

Sanction Level	Sanction Type	Timeframe to cure	Comments
0	Notice of Non Compliance with Reverse Collocation Level and CAP	60 days (Day 1-60)	A corrective action plan ("CAP") will be required of every BHF that does not comply with the required Reverse Collocation level. All BHF with an approved CAP must comply with the terms of the CAP and achieve the required collocation within the timeframes established in the CAP.
1	Fine	30 days (Day 61-90)	Fines to be defined in accordance to contract.

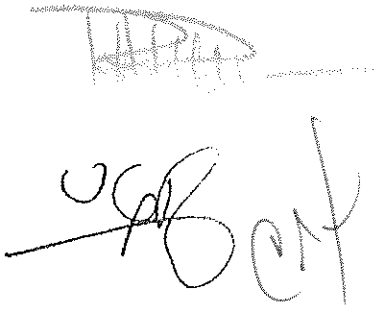
POLICIES AND PROCEDURES FOR REFUNDING OF FEDERAL SHARE OF MEDICAID OVERPAYMENTS TO PROVIDERS



ASES
Administración de Seguros de Salud de Puerto Rico

PUERTO RICO HEALTH INSURANCE ADMINISTRATION

POLICIES AND PROCEDURES FOR REFUNDING OF FEDERAL SHARE OF MEDICAID OVERPAYMENTS TO PROVIDERS

A. OBJECTIVES (42 CFR 433.300)

To establish the policies and procedures of the Puerto Rico Health Insurance Administration (ASES for its anachronism in Spanish) to recoup overpayments made to its providers in accordance with 42 CFR 433, Subpart F—*Refunding of Federal Share of Medicaid Overpayments to Providers* and to implement:

1) Section 1903(d)(2)(A) of the Social Security Act (the "Act"), which directs that quarterly Federal payments to the States under title XIX (Medicaid) of the Act are to be reduced or increased to make adjustment for prior overpayments or underpayments that the Secretary determines have been made.

2) Section 1903(d)(2) (C) and (D) of the Act, which provides that a State has 1-year from discovery of an overpayment for Medicaid services to recover or attempt to recover the overpayment from the provider before adjustment in the Federal Medicaid payment to the State is made; and that adjustment will be made at the end of the 1-year period, whether or not recovery is made, unless the State is unable to recover from a provider because the overpayment is a debt that has been discharged in bankruptcy or is otherwise uncollectable.

3) Section 1903(d)(3) of the Act, which provides that the Secretary will consider the pro rata Federal share of the net amount recovered by a State during any quarter to be an overpayment.

B. DEFINITIONS (42 CFR 433.304)

1) **Abuse** (in accordance with 42 CFR 455.2) - provider practices that are inconsistent with sound fiscal, business, or medical practices, and result in an unnecessary cost to the Medicaid program, or in reimbursement for services that are not medically necessary or that fail to meet professionally recognized standards for health care. It also includes beneficiary practices that result in unnecessary cost to the Medicaid program.

2) **Discovery** (or discovered) - identification by any ASES, the Federal Government, or the provider of an overpayment, and the communication of that overpayment finding or the initiation of a formal recoupment action without notice as described in 42 CFR 433.316.

3) **Fraud** (in accordance with 42 CFR 455.2) - an intentional deception or misrepresentation made by a person with the knowledge that the deception could result in some unauthorized benefit to himself or some other person. It includes any act that constitutes fraud under applicable Federal or State law.

4) **Overpayment** - the amount paid by a Medicaid agency to a provider which is in excess of the amount that is allowable for services furnished under section 1902 of the Act and which is required to be refunded under section 1903 of the Act.

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
15-084

5) **Provider** (in accordance with 42 CFR 400.203) - any individual or entity furnishing Medicaid services under a provider agreement with the Medicaid agency.

6) **Recoupment** - any formal action by ASES to initiate recovery of an overpayment without advance official notice by reducing future payments to a provider.

7) **Third party** (in accordance with 42 CFR 433.136) - an individual, entity, or program that is or may be liable to pay for all or part of the expenditures for medical assistance furnished under a State plan.

C. APPLICABILITY (42 CFR 433.310)

The provisions of these policies and procedures apply to:

1) Overpayments made to providers that are discovered by ASES;

2) Overpayments made to providers that are initially discovered by the provider and made known to ASES; and

3) Overpayments that are discovered through Federal reviews.

D. BASIC REQUIREMENTS FOR REFUNDS (42 CFR 433.312)

1) ASES has 1-year from the date of discovery of an overpayment to a provider to recover or seek to recover the overpayment before the Federal share must be refunded to CMS.

2) ASES must refund the Federal share of overpayments at the end of 1-year period following discovery, whether or not ASES has recovered the overpayment from the provider. Notwithstanding, ASES is not required to refund the Federal share of an overpayment made to a provider when ASES is unable to recover the overpayment amount because the provider has been determined bankrupt or out of business in accordance with 42 CFR 433.318.

3) The date upon which an overpayment occurs is the date upon which ASES, using its normal method of reimbursement for a particular class of provider (e.g., check, interfund transfer), makes the payment involving unallowable costs to a provider.

E. WHEN DISCOVERY OF OVERPAYMENT OCCURS AND ITS SIGNIFICANCE. (42 CFR 433.316)

1) The date on which an overpayment is discovered is the beginning date of the 1-year period allowed for a State to recover or seek to recover an overpayment before a refund of the Federal share of an overpayment must be made to CMS.

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número 15-0004

2) Unless ASES chooses to initiate a formal recoupment action against a provider without first giving written notification of its intent, ASES must notify the provider in writing of any overpayment it discovers in accordance with ASES' policies and procedures and must take reasonable actions to attempt to recover the overpayment in accordance with State law and procedures.

3) An overpayment resulting from a situation other than fraud is discovered on the earliest of:

   a) The date on which ASES first notifies a provider in writing of an overpayment and specifies a dollar amount that is subject to recovery;

   b) The date on which a provider initially acknowledges a specific overpaid amount in writing to ASES; or

   c) The date on which ASES initiates a formal action to recoup a specific overpaid amount from a provider without having first notified the provider in writing.

4) Overpayments resulting from fraud. An overpayment resulting from fraud is discovered on the date of the final written notice (as defined in 42 CFR 433.304) of the overpayment determination that ASES sends to the provider.

5) If a Federal review at any time indicates that ASES has failed to identify an overpayment or that ASES has identified an overpayment but has failed to either send written notice of the overpayment to the provider that specified a dollar amount subject to recovery or initiate a formal recoupment from the provider without having first notified the provider in writing, CMS will consider the overpayment as discovered on the date that the Federal official first notifies ASES in writing of the overpayment and specifies a dollar amount subject to recovery.

6) Any adjustment in the amount of an overpayment during the 1-year period following discovery (made in accordance with the approved State plan, Federal law and regulations governing Medicaid, and the appeals resolution process specified in ASES' administrative policies and procedures) has the following effect on the 1-year recovery period:

   a) A downward adjustment in the amount of an overpayment subject to recovery that occurs after discovery does not change the original 1-year recovery period for the outstanding balance.

   b) An upward adjustment in the amount of an overpayment subject to recovery that occurs during the 1-year period following discovery does not change the 1-year recovery period for the original overpayment amount. A new 1-year period begins for the incremental amount only, beginning with the date of ASES' written notification to the provider regarding the upward adjustment.

ADMINISTRACION DE SEGUROS DE SALUD
Contrato Número
15-0884

7) A partial collection of an overpayment amount by ASES from a provider during the 1-year period following discovery does not change the 1-year recovery period for the original overpayment amount due to CMS.

8) Any appeal rights extended to a provider do not extend the date of discovery.

F. OVERPAYMENTS INVOLVING PROVIDERS WHO ARE BANKRUPT OR OUT OF BUSINESS (42 CFR 433.318)

1) ASES is not required to refund the Federal share of an overpayment made to a provider as required by 42 CFR 433.312(a) to the extent that ASES is unable to recover the overpayment because the provider has been determined bankrupt or out of business in accordance with the provisions of this section. ASES must notify the provider that an overpayment exists in any case involving a bankrupt or out-of-business provider and, if the debt has not been determined uncollectable, take reasonable actions to recover the overpayment during the 1-year recovery period in accordance with policies prescribed by applicable State law and administrative procedures.

2) Overpayments are considered debts that ASES is unable to recover within the 1-year period following discovery if the following criteria are met:

   a) The provider has filed for bankruptcy, as specified in paragraph (c) of this section; or

   b) The provider has gone out of business and the State is unable to locate the provider and its assets, as specified in paragraph (4) of this section.

3) ASES is not required to refund to CMS the Federal share of an overpayment at the end of the 1-year period following discovery, if:

   a) The provider has filed for bankruptcy in Federal court at the time of discovery of the overpayment or the provider files a bankruptcy petition in Federal court before the end of the 1-year period following discovery; and

   b) ASES is on record with the court as a creditor of the petitioner in the amount of the Medicaid overpayment.

4) ASES is not required to refund to CMS the Federal share of an overpayment at the end of the 1-year period following discovery if the provider is out of business on the date of discovery of the overpayment or if the provider goes out of business before the end of the 1-year period following discovery. A provider is considered to be out of business on the effective date of a determination to that effect under State law. ASES must:

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
15 - 0884

a) Document its efforts to locate the party and its assets. These efforts must be consistent with applicable State policies and procedures; and

b) Make available an affidavit or certification from the appropriate State legal authority establishing that the provider is out of business and that the overpayment cannot be collected under State law and procedures and citing the effective date of that determination under State law.

A provider is not out of business when ownership is transferred within the State unless State law and procedures deem a provider that has transferred ownership to be out of business and preclude collection of the overpayment from the provider.

5) If the 1-year recovery period has expired before an overpayment is found to be uncollectable under the provisions of this section, if ASES recovers an overpayment amount under a court-approved discharge of bankruptcy, or if a bankruptcy petition is denied, ASES must refund the Federal share of the overpayment in accordance with the procedures specified in 42 CFR 433.320.

G. PROCEDURES FOR REFUNDS TO CMS (42 CFR 433.320)

1) In accordance with section 1903(d) of the Social Security Act, ASES shall reduce its claims of reimbursement to the extent of any overpayment in the expense reports submitted to CMS, and on the corresponding quarter with respect to the adjustment.

2) ASES must refund the Federal share of overpayments that are subject to recovery to CMS through credit on the Quarterly Statement of Expenditures (Form CMS–64). Accordingly, the Federal share of overpayments subject to recovery must be credited on the Form CMS–64 report submitted for the quarter in which the 1-year period following discovery, established in accordance with 42 CFR 433.316, ends.

3) A credit on the Form CMS–64 must be made whether or not the overpayment has been recovered by ASES from the provider.

4) *Effect of reporting collections and submitting reduced expenditure claims.* (1) The State is not required to refund the Federal share of an overpayment at the end of the 1-year period if the State has already reported a collection or submitted an expenditure claim reduced by a discrete amount to recover the overpayment prior to the end of the 1-year period following discovery.

5) If ASES does not refund the Federal share of such overpayment, the State will be liable for interest on the amount equal to the Federal share of the non-recovered, non-refunded overpayment amount. Interest during this period will be at the current Value of Funds Rate (CVFR), and will accrue beginning on the day after the end of the 1-year period following discovery until the last day of the quarter for which the State submits a CMS-64 report refunding the Federal share of overpayment.

ADMINISTRACION DE SEGUROS DE SALUD Contrato Número 15-884

6) ASES is not required to report on the Form CMS–64 any collections made on overpayment amounts for which the Federal share has been refunded previously. Furthermore, if ASES has refunded the Federal share of an overpayment and subsequently makes recovery by reducing future provider payments by a discrete amount, ASES need not reflect that reduction in its claim for Federal financial participation.

7) If the amount of an overpayment is adjusted downward after the agency has credited CMS with the Federal share, ASES may reclaim the amount of the downward adjustment on the Form CMS–64. Under this provision:

   a) Downward adjustment to an overpayment amount previously credited to CMS is allowed only if it is properly based on the approved State plan, Federal law and regulations governing Medicaid, and the appeals resolution processes specified in ASES' administrative policies and procedures.

   b) The 2-year filing limit for retroactive claims for Medicaid expenditures does not apply. A downward adjustment is not considered a retroactive claim but rather a reclaiming of costs previously claimed.

8) If an overpayment has not been determined uncollectable in accordance with the requirements of 42 CFR 433.318 at the end of the 1-year period following discovery of the overpayment, ASES must refund the Federal share of the overpayment to CMS in accordance with the procedures specified above.

9) If ASES recovers any portion of an overpayment under a court-approved discharge of bankruptcy, ASES must refund to CMS the Federal share of the overpayment amount collected on the next quarterly expenditure report that is due to CMS for the period that includes the date on which the collection occurs.

10) If a provider's petition for bankruptcy is denied in Federal court, ASES must credit CMS with the Federal share of the overpayment on the later of:

   a) The Form CMS–64 submission due to CMS immediately following the date of the decision of the court; or

   b) The Form CMS–64 submission for the quarter in which the 1-year period following discovery of the overpayment ends.

11) If a provider is determined bankrupt or out of business under this section after the 1-year period following discovery of the overpayment ends and ASES has not been able to make complete recovery, ASES may reclaim the amount of the Federal share of any unrecovered overpayment amount previously refunded to CMS. CMS allows the reclaim of a refund if ASES submits to CMS documentation that it has made reasonable efforts to obtain recovery. If ASES reclaims a refund of the Federal share of an overpayment:

ADMINISTRACIÓN DE SEGUROS DE SALUD
Contrato Número
15-0854

b) In bankruptcy cases, ASES must submit to CMS a statement of its efforts to recover the overpayment during the period before the petition for bankruptcy was filed; and

c) In out-of-business cases, ASES must submit to CMS a statement of its efforts to locate the provider and its assets and to recover the overpayment during any period before the provider is found to be out of business in accordance with 42 CFR 433.318.

12) ASES must report the following information to support each Quarterly Statement of Expenditures Form CMS–64:

a) Amounts of overpayments not collected during the quarter but refunded because of the expiration of the 1-year period following discovery;

b) Upward and downward adjustments to amounts credited in previous quarters;

c) Amounts of overpayments collected under court-approved discharges of bankruptcy;

d) Amounts of previously reported overpayments to providers certified as bankrupt or out of business during the quarter; and

e) Amounts of overpayments previously credited and reclaimed by ASES.

H. MAINTENANCE OF RECORDS (42 CFR 433.322)

ASES must maintain a separate record of all overpayment activities for each provider in a manner that satisfies the retention and access requirements of 45 CFR 92.42.
