Report of Independent Auditors

The Board of Directors
Puerto Rico Highways and Transportation Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the Puerto Rico Highways and Transportation Authority (the Authority), a component unit of the Commonwealth of Puerto Rico, as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2014 and 2013, and the changes in financial position and, its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

The Authority's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Authority will continue as a going concern. As discussed in Note 21 to the financial statements, the Authority has significant recurring losses from operations and does not have sufficient funds available to fully repay its various obligations as they come due, which raises substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 21. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Adoption of GASB Statement No. 65, Items Previously Reported as Assets and Liabilities

As discussed in Note 1 and 22 to the financial statements, the Authority changed its method for accounting for bond issue costs and deferred losses related to bond refundings as a result of the adoption of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, effective for periods beginning after July 1, 2012. Our opinion is not modified with respect to this matter.

Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages 4 through 24 and the schedule of funding progress for retiree health plan on page 90 be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that comprise the Authority's basic financial statements. The schedule of revenues and expenses by segment is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2015, on our consideration of the Puerto Rico Highways and Transportation Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis

Years Ended June 30, 2014 and 2013

The following discussion and analysis of the financial performance and activity of the Puerto Rico Highways and Transportation Authority (the Authority) provides an introduction and understanding of the basic financial statements of the Authority for the fiscal years ended June 30, 2014 and 2013. This discussion was prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follows this section.

June 30, 2014 and 2013

The Authority's net position totaled \$2,977.4 million and \$3,167.7 million at June 30, 2014 and 2013, respectively. Net position decreased by \$190.2 million in 2014, as compared to a decrease of approximately \$134.2 million in 2013.

The Authority's net capital assets, including assets under service concession agreements, totaled \$10,909.8 million and \$11,159.7 million at June 30, 2014 and 2013, respectively. Net capital assets decreased by 2.2% at June 30, 2014, when compared with the balance at June 30, 2013, and decreased by 0.37% at June 30, 2013, when compared with the balance at June 30, 2012 of \$11,201.0 million.

Financial Statements

The basic financial statements provide information about the Authority's business-type activities. The financial statements are prepared in accordance with U.S. generally accepted accounting principles as promulgated by the Governmental Accounting Standards Board (GASB).

Overview of the Financial Statements for Business-Type Activities

The financial statements consist of the: (1) statements of net position, (2) statements of revenues, expenses, and changes in net position, (3) statements of cash flows, and (4) notes to the financial statements. The financial statements are prepared on the accrual basis of accounting, meaning that all expenses are recorded when incurred and all revenues are recognized when earned, in accordance with U.S. generally accepted accounting principles.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Statements of Net Position

The statement of net position reports all financial and capital resources of the Authority. The statement is presented in the format where assets plus deferred outflow of resources equal liabilities plus deferred inflow of resources plus net position. Assets and liabilities are presented in order of liquidity and are classified as current (convertible into cash within one year) and noncurrent. The focus of the statement of net position is to show a picture of the liquidity and financial health of the Authority as of the end of the year.

The Authority's net position is reported in the following categories:

- *Net Investment in Capital Assets* – This component of net position consists of all capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Although the Authority's investment in its capital assets is reported net of related debt, it is noted that the resources required to repay this debt must be provided annually from toll operations, vehicle license fees, certain investment income, gasoline and petroleum taxes allocated annually by the Commonwealth of Puerto Rico, since the capital assets themselves cannot be used to liquidate liabilities.
- *Restricted for Debt Service* – This component of net position consists of restricted assets for the principal and interest payments of the bonds payable. This restriction is imposed by the bondholders through debt covenants.
- *Restricted for Construction* – This component of net position consists of restricted assets for the specific purpose of paying for construction projects. This restriction is imposed by the grantors and contributors, as well as the bondholders through debt covenants.
- *Unrestricted* – This component consists of net position that does not meet the definition of net investment in capital assets or restricted for debt service or for construction.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Statements of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses and changes in net position includes operating revenues, which consist of toll, train fares, concession service, and other, and operating expenses, such as costs of operating toll roads, the mass transportation system, administrative expenses, and depreciation on capital assets; and "non-operating" revenue and expenses, such as gasoline, diesel, oil and petroleum taxes, cigarette taxes, vehicle license fee, interest and investment income, and interest expense. The statement also includes capital contributions. The focus of the statement of revenues, expenses, and changes in net position is the change in net position. This is similar to net income or loss, and portrays the results of operations of the Authority for the entire operating period.

Statements of Cash Flows

The statement of cash flows discloses net cash provided by or used by operating activities, investing activities, noncapital financing activities, and from capital and related financing activities. This statement also portrays the financial health of the Authority in that current cash flows are sufficient to pay current liabilities.

Notes to Financial Statements

The notes to financial statements are an integral part of the basic financial statements and describe the significant accounting policies, related-party transactions, deposits and investments, capital assets, bonds payable, long-term liabilities, retirement plans, derivative financial instruments, and the commitments and contingencies. The reader is encouraged to review the notes in conjunction with the management discussion and analysis and the financial statements.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

June 30, 2014, 2013 and 2012

Current assets increased by approximately 9.2% to \$64.8 million in 2014, decreased by approximately 5.9% to \$59.3 million in 2013, and increased by 49.8% to \$63.1 million in 2012. For fiscal year 2014, the change in current assets of \$5.4 million is primarily due to an increase by \$9.2 million in cash and cash equivalents related with cash in excess received from investment reserve accounts and less disbursements realized due to less active construction projects, offset by a decrease of \$3.1 million in the accounts receivable. For fiscal year 2013, change in current assets is primarily due to an increase of \$11.5 million in cash and cash equivalents related with cash in excess received from investment reserve accounts and a decrease by \$12.1 million in accounts receivable related with the Department of Transportation and Public Works (DTPW) and a decrease in other assets of approximately \$8.0 million related with the cash in excess received in 2012 belonging to interest payments. In fiscal year 2012, the change in current assets is primarily due to an increase in accounts receivable of approximately \$13.0 million due to transfers of funds and operational expenses paid related to the Maritime Transportation Authority (MTA) and an increase of \$9.4 million for other assets.

The restricted assets increased by 8.06% to \$800.4 million in 2014, decreased by 7.29% to \$740.7 million in 2013, and decreased by 8.0% to \$774.6 million in 2012. During fiscal year 2014, the Authority's cash and cash equivalents and investments with trustee increased by approximately \$44.1 million related with the new of the Bond Anticipation Notes reserve of \$52.9 million and an increase in accounts receivable by approximately \$32.4 million from Puerto Rico Department of Treasury, offset by a decrease of SWAP reserve cancellation by \$41.5 million. For fiscal year 2013, the Authority's cash and cash equivalents and investments with trustee decreased by approximately \$18.9 million mainly due to the repayment of bonds payable related to current year maturities and the advance repayment of Grant Anticipation Revenue Bonds Series 2004. In fiscal year 2012, the Authority entered into a toll roads concession and lease agreement. As result of the transaction, cash and equivalents and investments with trustee decreased by approximately \$170.0 million mainly due to the repayment of debt service funds of the bonds payable related to the toll roads. In addition, the transaction resulted in an increase of approximately \$99.0 million in cash and cash equivalents in order to meet cash collateral requirements as a result of the toll roads concession and lease agreement. The net effect results in the decrease of restricted assets.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

For fiscal year 2014, capital assets decreased by 2.3% to \$10,736.7 million mainly due to the increase of \$336.3 million in roads, bridges and equipment, offset by a net decrease in construction in progress of \$158.8 million and an increase in accumulated depreciation of approximately of \$444.4 million; for fiscal year 2013, capital assets decreased by 0.46% to \$10,989.8 million mainly due to the increase of \$427.0 million in roads, bridges and equipment offset by a net decrease in construction in progress of \$40.0 million and an increase in accumulated depreciation of approximately of \$423.0 million; for fiscal year 2012, capital assets decreased by .01% to \$11,040.1 million mainly due to a transfer of highway and bridge under service concession agreement by \$84.9 million as a result of a toll roads service concession agreement offset by an increase in construction in progress of approximately \$473.1 million and an increase in accumulated depreciation of approximately \$429.9 million. Total capital contributions from FHWA during fiscal years 2014, 2013 and 2012 used to fund capital assets amounted to \$137.1 million, \$143.4 million and \$110.7 million, respectively.

For fiscal year 2014, highways and bridge under service concession agreement increased by 1.8% to \$173.1 million mainly due to the recognition of \$4.8 million in capital improvements made to the Toll Roads PR-5 and PR-22, offset by an increase in accumulated depreciation of the Teodoro Moscoso Bridge (the Bridge) by \$1.8 million. For fiscal year 2013, highways and bridge under service concession agreement increased by 5.7% to \$169.9 million mainly due to the recognition of \$11.3 million in capital improvements made to the Toll Roads PR-5 and PR-22, offset by an increase in accumulated depreciation of the Bridge by \$2.2 million. Also as of June 30, 2013, the Authority recognized the Bridge, a toll bridge at fair value of \$109.5 million, which was constructed under a service concession agreement with Autopistas de Puerto Rico y Compañía S.E. (Autopistas). Thus, the beginning net position balance for fiscal year 2013 was adjusted by \$39.4 million to recognize the first eighteen (18) years of operation.

For fiscal year 2014, other non-current assets decreased by 100% due to the adoption of the GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* resulting in a decrease in bonds issuance costs by \$77.7 million. As a result of the implementation of GASB No. 65, all debt issuance costs have to be presented as expense during the year they are incurred. For fiscal year 2013, other non-current assets decreased by 7.3% to \$77.7 million due to a decrease in bond issuance cost of \$6.1 million related to bonds repayment and the current year amortization. For fiscal year 2012, other non-current assets decreased by 25.4% to \$83.9 million due to a decrease in revenue bond issuance costs of \$28.4 million related to bonds repaid with cash received as a result of the toll roads concession and lease agreement transaction.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

For fiscal year 2014, the deferred outflows of resources decreased by 16.1% to \$132.1 million due to the net effect of the decrease by \$10.6 million related with cancellation of all its outstanding swap agreements and the reclassification of the deferred unamortized loss on advance refundings of \$132.1 million related with the implementation of the GASB No. 65, *Items Previously Reported as Assets and Liabilities*. *The deferred unamortized loss on advance refunding was presently as part of bond payable.* For fiscal year 2013, the deferred outflow of resources decreased by 19.0% to \$157.6 million due to a decrease in deferred unrealized losses on derivative instruments of \$14.8 million and a decrease of \$22.1 million of the deferred unamortized loss on advance refundings. For fiscal year 2012, the deferred unrealized loss decreased by 15.7 % to \$194.5 million due to a decrease in deferred unrealized losses on derivative instruments of \$37.8 million and an increase of \$64.3 million of the deferred loss on advance refundings.

For the years ended June 30, 2014, 2013 and 2012, the current liabilities increased by 23.8% to \$776.8 million; increased by 24.0% to \$631.0 million, and decreased by 15.5% to \$508.9 million, respectively. For fiscal year 2014, the increase was mainly due to the increase of \$150.0 million of current portion of bonds anticipation notes; increase of \$43.1 million of interest payable offset by a decrease of \$12.2 million in current portion of bonds payable, offset by a net decrease of \$20.6 million of accounts payable and accounts and subcontractors payable, a decrease of \$10.9 million in accrued legal claims, and a decrease of \$10.3 million in checks issued over bank balance. In 2013, the increase was mainly due to the increase of \$97.6 million of interest payable and an increase of \$14.9 million of bonds payable offset by a decrease of \$11.3 million of accounts payable and accounts and subcontractors payable. In 2012, the drivers of the decrease was mainly due to the net effect of a decrease in accrued interest payable of \$90.0 million and an increase in accounts and subcontractors payable of \$48.8 million.

For fiscal year 2014, net non-current liabilities decreased by 1.95% to \$7,015.9 million mainly due to the net effect of an increase of the bonds anticipation notes of \$250.0 million; increase of legal reserve of \$98.8 million related with property expropriations, offset by a decrease of line of credits outstanding balance of \$231.2 million; decrease of \$8.9 million of voluntary termination incentive plan liability; a decrease of fair value of derivative instruments of \$142.4 million, and a decrease in bonds payable of \$101.2 million. For fiscal year 2013, net non-current liabilities decreased by 1.14% to \$7,155.0 million mainly due to the net effect of an increase of the legal reserve of \$68.3 million related with property expropriations; increase of line of credits of \$163.1 million offset by a decrease of fair value of derivative instruments of \$82.3 million and a decrease in bonds payable of \$175.1 million. For fiscal year 2012, net long-term liabilities decreased by 8.6% to \$7,237.3 million mainly due to a decrease in bonds payable of \$1,450.9 million, as a result of toll roads concession and lease agreement transaction and a decrease in fair value of derivative instruments of \$127.2 million offset by an increase of line of credit of \$587.6 million.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

For fiscal year 2014, the deferred inflow of resources decreased by 2.3% to \$1,139.3 million due to the net effect of the recognition of \$4.8 million in capital improvements made to the Toll Roads PR-5 and PR-22, offset by the current year amortization of \$31.3 million of the unearned service concession agreement revenue of the toll roads concession. For fiscal year 2013, the deferred inflow of resources decreased by 1.6% to \$1,165.6 million due to the net effect of the recognition of \$11.3 million in capital improvements made to the Toll Roads PR-5 and PR-22, offset by the current year amortization of \$28.4 million of the unearned service concession agreement revenue of the toll roads concession. For fiscal year 2012, the deferred inflow of resources was recorded by \$1,136.1 as a result of the unearned revenue of toll roads concession and lease agreement transaction offset by the current year amortization of \$21.3 million.

For fiscal years 2014, 2013 and 2012 the net position decreased by 6.0% to \$2,977.4 million, decreased by 4.1% to \$3,167.7 million, and decreased by 9.1% to \$3,301.9 million, respectively, mainly due to a reduction in the amounts invested in capital assets and unrestricted net position.

Condensed Statements of Revenues, Expenses and Changes in Net Position

The following table reflects a condensed summary of the revenues, expenses, and changes in net position for the years ended on June 30, 2014, 2013 and 2012.

	June 30		
	2014	2013	2012
		<i>(as restated)</i>	<i>(as restated)</i>
Total operating revenues	\$ 213,726,887	\$ 184,877,795	\$ 201,578,228
Total operating expenses	391,483,897	314,377,046	275,136,952
Depreciation and amortization	448,020,609	431,975,550	449,615,062
Operating loss	(625,777,619)	(561,474,801)	(523,173,786)
Non-operating revenues	531,876,833	292,597,031	292,590,181
Non-operating expenses	(324,715,512)	(294,330,806)	(444,430,850)
Loss before capital contribution	(418,616,298)	(563,208,576)	(675,014,455)
Capital contributions	228,397,671	428,930,404	306,517,853
Change in net position	(190,218,627)	(134,278,172)	(368,496,602)
Net position at beginning of year	3,167,688,309	3,301,966,481	3,670,463,083
Net position at end of year	<u>\$ 2,977,469,682</u>	<u>\$ 3,167,688,309</u>	<u>\$ 3,301,966,481</u>

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Years Ended June 30, 2014, 2013 and 2012

Operating revenues, which consisted of toll fares, train fares, concession service and other revenues increased by 16% to \$213.7 million, decreased by 8.3% to \$184.8 million, and decreased by 11.0% to \$201.6 million in 2014, 2013 and 2012, respectively. During fiscal year 2014, the increase was mainly due to the net effect of an increase of \$1.7 million of toll fares revenues related with the express lane from Bayamón-Dorado in PR-22 and an increase of \$10.6 million in toll fines revenues offset by a decrease in bad debt recovery by \$14.4 million. During fiscal year 2013, the decrease was due to a decrease in toll revenues by \$10.5 million, offset by an increase of \$6.6 million of deferred revenues; and an increase of \$8.0 million in toll fines revenues and increase in debt bad recovery by \$20.1 million. During fiscal year 2012, the decrease was mainly due to the net effect of a decrease in toll revenues of \$63.0 million related with the initiation of the service concession arrangement of the Toll Roads PR-5 and PR-22 and an increase of revenues related with the toll roads concession and lease agreement of \$30.2 million.

Operating expenses increased by 24.5% to \$391.5 million in 2014, increased by 14.3% to \$314.4 million in 2013, and decreased by 16.9% to \$275.1 million in 2012. For 2014, the increase of \$77.1 million in operating expenses is the net effect of more expenses related with the recognition of the impairment in capital projects by \$77.8 million and an increase of toll highways administration and maintenance by \$4.5 million, offset by a decrease of the voluntary termination incentive plan expense by \$13.4 million, a decrease in salaries and related benefits of \$4.9 million and a decrease of utilities expense by \$3.4 million. For 2013, the increase of \$39.3 million in operating expenses is the net effect of more expenses related the impairment of capital projects of \$33.6 million; increase in toll highways administration and maintenance expense of \$5.5 million and increase in bad debt expense of \$16.4 million offset by a decrease of integrated transportation system expense of \$15.0 million. For 2012, the decrease of \$56.4 million in operating expenses is the net effect of less expenses related with the early retirement and economic incentives for voluntary employment termination offered to eligible employees of \$67.8 million, a decrease in legal claims of \$39.4 million, and an increase of \$39.6 million in project expenses.

(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Non-operating revenues, which consist principally of gasoline, oil, diesel and petroleum taxes, cigarettes tax and vehicle license fees allocated by the Commonwealth of Puerto Rico to the Authority, increased by 81.8% to \$531.8, remained unchanged in 2013 and reflected a decrease 4.0% in 2012.

During the fiscal year 2014, the increase was mainly due to an increase of \$162.3 million in gasoline, diesel, oil and petroleum tax; an increase of \$20.0 million in cigarettes taxes; and an increase of \$58.1 in vehicle license fee as a consequence of the tax rate increase from \$3.00 to \$9.25 per barrel and a new annual transfer of \$20 million from the excise tax on the consumption of cigarettes approved by the Act. No. 31, on June 25, 2013 and the transfer to the Authority of all motor vehicle license fees collected by the Department of the Treasury approved by Act No. 30 on June 25, 2013.

During fiscal years 2013 and 2012, the decrease was mainly due to less gasoline, oil, diesel and petroleum taxes collected due to the general economic conditions in Puerto Rico.

Non-operating expenses, which consist principally of interest expense on bonds and lines of credit and the change of fair value upon hedge termination increased by 10.3% to \$324.7 million, and decreased by 33.8% to \$294.3 million, and by 21.5% to \$444.4 million in 2013 and 2012, respectively. For 2014, the increase was due to a decrease in fair value upon hedge termination of \$48.1 million; a decrease on investment income by \$23.1 million and a decrease in interest expense on bond and line of credit of \$40.8 million. For 2013, the decrease was due to the net effect of an increase of interest income of \$24.0 million related with a GIC agreement termination income offset by an increase in fair value upon hedge termination of \$230.6 million, and an increase in interest expense on bond and line of credit of \$18 million. For 2012, the increase was due to the net effect of a decrease in fair value upon hedge termination of \$165.0 million offset by a gain on extinguishment of debt of \$83.0 million related to the partial repayment of Series N LIBOR bonds payable.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2014, 2013 and 2012, the Authority had invested approximately \$10,736.8 million, \$10,989.8 million, and \$11,040.2 million, respectively, in capital assets (net of related depreciation) including roads, bridges, transportation equipment, buildings, land and equipment and construction in progress.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

At the end of fiscal year 2005, the Authority started operating the mass rail transportation system for the San Juan metropolitan area known as "Tren Urbano". The Authority incurred approximately \$2.42 billion in costs, of which \$685.7 million was paid with federal funds. The Tren Urbano in San Juan consists of approximately 17km. of track running from Bayamón to Santurce. Maintenance services are partially funded with capital contributions from the Federal Transit Administration (FTA). Total capital contributions received from FTA used for maintenance services amounted to \$42.7 million during the fiscal year 2014 and \$12.0 million for fiscal years 2013 and 2012.

The Authority extended the original five-year contract for the operation and maintenance of the Tren Urbano with a private company, for five (5) additional years ending on June 5, 2015. Under this agreement, the private company is responsible for operating and maintaining Tren Urbano, and is entitled to receive for such services an annual base compensation, subject to inflation adjustment for changes in cost of labor and materials. The base compensation does not include the costs of insurance and electricity, which are paid by the Authority.

On September 22, 2011, the Authority entered into a toll road concession and lease agreement with a private company named "Autopistas Metropolitanas de Puerto Rico, LLC" (the Concessionaire), in which the Authority granted to the Concessionaire the right to finance, operate and maintain the PR-22 and PR-5 highways (the Concessioned Toll Roads) for a period of 40 years. During the 40-year term, the Concessionaire will have the right to charge and collect the tolls imposed on the Concessioned Toll Roads. The Authority received an upfront concession fee of \$1.136 billion, from which approximately \$873.1 million was used to redeem and defease bonds issued and outstanding associated with the Leased Toll Roads.

On December 20, 1992, the Authority and Autopistas entered into a service concession agreement (the Concession Agreement), amended in 1992, 2004 and 2009, for the design, construction, operation and maintenance of the Teodoro Moscoso Bridge (the Bridge), a toll bridge, which traverses the San José Lagoon between the municipalities of San Juan and Carolina. Autopistas designed and constructed the Bridge and commenced operating the Bridge on February 23, 1994.

The initial term of this agreement was 35 years, expiring on April 3, 2027. On September 9, 2009, the agreement was amended to extend its term to 50 years (2044). Under the agreement, the counterparty has the right to assign debt totaling \$155.1 million to the Authority if certain minimum toll revenues are not achieved. Although this right is currently executable, we have not received notice of an interest to exercise it. As of June 30 2013, the Authority recognized the Bridge at fair value, equivalent to what the Authority might have paid to have the Bridge constructed (replacement cost) at valuation date. The replacement cost was determined to be \$109.5 million depreciated over an estimated useful life of 50 years and a deferred inflow of

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

resources of \$109.5 million that will be amortized and recognized as revenue over the term of the agreement (50 years). The asset balance related to the Bridge was adjusted to recognize the first 17 years of operation and the remaining amortization will be amortized by 33 years. Refer to Note 8.

Debt Administration

As of June 30, 2014, 2013 and 2012, the principal amount of the Highways and Senior Transportation, and Grant Anticipation Revenues Bonds outstanding, net of unamortized discounts which approximated \$4,766.3 million, \$4,879.7 million, and \$5,062.0 million, respectively, were insured and rated Ba3 by Moody's Investors Service (Moody's), and BB+ by Standard & Poor's (S&P) for the Senior Bonds and BBB+ for the other bonds. The remaining uninsured bonds are rated Ba3 by Moody's and BB+ by S&P, except for the Subordinated Transportation Revenue Bonds, which are rated B1.

The ratings were reduced subsequent to year-end as follows:

	<u>S&P/Moody's</u>
Highway Revenue Bonds	CC/Ca
Transportation Revenue Bonds	CC/Ca
Subordinate Transportation Revenue Bonds	CC/Ca

The Authority's bond sales must be approved by the Board of Directors that is composed by seven members. The Authority must comply with certain rules and regulations of the United States Treasury Department and the United States Securities and Exchange Commission relating to such sales.

In connection with the issuance of the CPI and LIBOR Bonds, the Authority has entered into interest-rate swap agreements. In general, the swap agreements provide that, subject to the terms thereof, the Authority will pay to the swap provider a fixed rate and the swap provider will pay the Authority a floating rate based on the CPI or LIBOR Rate, based on a notional amount equal to the principal amount of the CPI and LIBOR Bonds outstanding. The purpose of the swap agreement is generally to convert the Authority's floating rate obligations with respect to the CPI and LIBOR Bonds to fixed rate obligations. Between February 19 and February 25, 2014, the Authority terminated all its outstanding swap agreements for a total termination payment of \$112.0 million.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

On June 24, 2013, the Authority paid \$86.0 million aggregate principal amount of the outstanding balance of the Grant Anticipation Revenue Bonds, Series 2004 under its Resolution 04-18, adopted by the Authority on April 7, 2004.

A portion amounting to \$590.0 million of the Authority's \$1.8 billion outstanding lines of credit with the Government Development Bank were in default, as a result of lack of payment on lines of credit which expired on August 1, 2015.

ECONOMIC FACTORS AND FISCAL YEAR 2015 BUDGET

Impact of the Great Recession and the Energy Crisis on the Puerto Rican Economy

The negative impact of the Great Recession, coupled with extremely high petroleum product prices, has been significantly more severe on the Puerto Rican economy as compared to the U.S. economy. First, the recession in Puerto Rico started earlier, with a meager growth rate of 0.49% in real GNP during FY2006. Then, real GNP dropped by -1.21% in FY2007, followed by steep declines of -3.83% and -3.57% in fiscal years 2009 and 2010. In fiscal years 2011 and 2012, the Puerto Rican economy experienced a relative improvement, when posting a decline of -1.68% in FY2011 and a positive but minor advance of 0.90% in FY2012. However, recessionary conditions in Puerto Rico remained in place during FY2013, when the U.S. economic growth faltered, mainly due to a contraction in federal and state government spending, and the energy crisis intensified. Then, the economic situation in Puerto Rico again worsened in FY2014. The Government Development Bank for Puerto Rico (GDB) Economic Activity Index contracted by -3.0% in FY2014, while payroll employment dropped by -1.3%, clear signs that the recession is still affecting the Puerto Rican economy.

The energy crisis was ignited again in fiscal year 2011, when the U.S. refiners' acquisition average cost increased by 23.0% and the average retail price of gasoline in Puerto Rico rose by 18.7%, advancing from \$2.55 to \$3.03 per gallon. The energy crisis continued in fiscal years 2012 to 2014. The average gasoline price in FY2014 rose to \$3.54 per gallon in FY2014, the highest level in the last ten years. Fortunately, since October 2014, the price of oil in international markets has dropped by more than 50%. According to HIS Global Insights (HIS), the average price of Brent crude oil will average \$103.68 per barrel in the first quarter of calendar year 2015, and the price of gasoline in Puerto Rico has already dropped to \$2.28 per gallon in February 2015, posting a decline of \$1.26 per gallon and -35.7% over the average price of \$3.54 per gallon recorded in FY2014. Thus, in fiscal year 2015, the Puerto Rican economy will benefit from the extreme drop in international petroleum products prices.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Fiscal Year 2014: Main Economic Indicators of the Puerto Rican Economy

Recessionary conditions continued to prevail in the Puerto Rican economy in FY2014. As previously noted, the Index of Economic Activity computed by the GDB declined by -3.0% in FY2014, signaling the probability of another contraction in real GNP growth. The persistent decline in the population of Puerto Rico since FY2006 has been a critical factor that has negatively affected the real levels of consumption and investment. In the period from FY2005 to FY2014, the population of Puerto Rico declined by about 236,000 inhabitants, contracting at a rate of more than 30,000 inhabitants per year in the last four fiscal years. Housing construction has plummeted as a consequence of the severe population decline. New permits for housing construction dropped to a meager level of 2,476 permits, which only represented 13.8% of the average annual number of housing permits approved in fiscal years 2005 and 2006 (17,887 housing permits). As a consequence of the crisis affecting the construction sector, cement consumption dropped from 17.5 million bags in FY2013 to 15.2 million bags in FY2014, the lowest level in more than 40 years and 35% of the annual average of cement consumption in fiscal years 2005 and 2006 (43.6 million bags).

The behavior of other economic indicators confirms the weak macroeconomic environment prevailing in FY2014. Payroll employment dropped by -1.3%, from 937.4 thousand in FY2013 to 924.9 thousand in FY2014, for a loss of 12,500 jobs, while the Household Survey recorded a loss of 22,900 jobs in FY2014, equivalent to -2.2%. Retail sales of automobiles and light trucks, after a process of recovery during fiscal years 2010 to 2013, declined by -5,048 vehicles or -5.0% in fiscal year 2014, dropping from 101,675 units in FY2013 to 96,627 units in FY2014.

Behavior of Authority's Recurrent Revenues in FY2014 Gasoline Tax Revenues

Gasoline tax revenues collected in FY2014 registered a decline of \$5.45 million, dropping from \$161.47 million in FY2013 to \$156.02 million in FY2014. However, part of this decline (\$2.29 million) was caused by the change of a major gasoline wholesaler to a bonded taxpayer in January 2014. This change resulted in a one-month delay in the payment of the gasoline tax, resulting in payments of the tax on gasoline sales during a period of only eleven months in FY2014. If we adjust for this one-time institutional factor, which reduced the taxable base of the gasoline tax of one major gasoline wholesaler, gasoline tax revenues should have reached \$158.31 million in FY2014, posting a decline of \$3.16 million or -1.96 percent.

This decline was a consequence of a weak economic environment, as explained above, and the persistence of high gasoline prices, which averaged \$3.540 per gallon in FY2014, a level 0.083 per gallon above the FY2013 average (\$3.457 per gallon).

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Petroleum Products Tax

Revenues of the petroleum products tax, also known as “la Crudita,” registered a significant increase in FY2014, as a consequence of the tax rate increase from \$3.00 to \$9.25 per barrel at 60 degrees Fahrenheit, equivalent to 14.88 cents per gallon or 3.83 cents per liter, approved by Act No. 31, on June 25, 2013. Although the increase in the tax rate became effective on July 1st 2013, in the month of July 2013, bonded taxpayers paid the taxes due for gasoline imports in June 2013 which were taxable at the previous rate of \$3.00 per barrel measured at 50 degrees Fahrenheit. Thus, in the first quarter of FY2014 (July-September), the average tax rate of “la Crudita” can be estimated at \$7.1159 per barrel, instead of \$9.25 per barrel, generating total revenues of \$52.47 million. In the other three quarters of FY2014, the \$9.25 per barrel was applied to a taxable base of 21,958,977 barrels, yielding revenues amounting to \$203.12 million. For the whole of FY2014, revenues from “la Crudita” amounted to \$255.59 million ($\$52.47 + \$203.12 = \255.59 million), based on an average tax rate of \$8.7141 per barrel applied to a taxable base of 29.33 million barrels. The actual taxable base of “la Crudita” on FY2014 was -1.6% lower than the taxable base of FY2013 (29.80 million barrels). This performance of “la Crudita” tax base demonstrates its resilience, even when faced with a combination of a weak macroeconomic environment and a significant increase in the tax rate. In summary, total revenues from “la Crudita” experienced a significant expansion in FY2014, by increasing from \$89.40 million in FY2013 to \$255.59 million in 2014. This represented an increase of \$166.19 million equivalent to 185.9%. However, the change of one major wholesaler to a bonded taxpayer in January 2014 also had a negative impact of around -\$3.2 million on revenues of “la Crudita,” that in the absence of this institutional factor should have risen to \$258.79 million.

Revenues from Toll Plazas

Revenues from toll plazas in fiscal years 2013 and 2014 exclude revenues from PR-22 and PR-5, which were transferred to Autopistas Metropolitanas de Puerto Rico, LLC (Metropistas) in September 2011 as part of an APP transaction. Toll receipts from the Plazas operated by the Authority include Toll Expressways PR-52, PR-53, PR-20 and PR-66, plus the income received from the Bayamón-Dorado express lane of PR-22, amounted to \$128.72 million in FY2014. This figure exceeded by \$7.7 million, or 6.4%, the amount of toll receipts in FY2013. Part of the increase, amounting to \$3.42 million was due to a full year of operation by Río Grande North and South plazas in PR-66 Expressway, and new income from the express lane from Bayamón-Dorado in the PR-22 operated by Metropistas.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

However, even discounting those two special increases in toll receipts, the toll plazas operated by the Authority, excluding the Río Grande Plazas, generated a total of \$121.04 million in FY2014, surpassing by \$4.97 million, or 4.3% the amount of total receipts of the same plazas in FY2013 (\$116.07 million). This represents a significant positive result considering the weak macroeconomic environment prevailing in Puerto Rico during FY2014.

Vehicle License Fees

Revenues from the \$15.00 fee per each motor vehicle license transferred to the Authority amounted to \$32.65 million in FY2014, compared to a similar amount of \$32.84 million in FY2013. Thus, revenues derived from vehicle license fees continued to remain at a stable level in FY2014, between \$32 and \$33 million.

Diesel Oil Tax

Revenues from the diesel oil tax are a minor source of Authority's revenues, which amounted to only \$9.12 million in FY2014, equivalent to 1.4% of total recurrent revenues of the Authority (\$661.02 million).

New Sources of Revenues

In addition to the increase in the tax rate of "la Crudita," legislation approved in June 2013 provided two new sources of income to the Authority. Act No. 31, approved on June 25, 2013, established an annual transfer of \$20 million to the Authority from the excise tax on the consumption of cigarettes, which are first channeled to the General Fund of the Commonwealth Government. However, funds of the cigarette tax actually transferred to the Authority in FY2014 amounted to \$17.96 million. Act No. 30, also approved on June 25th 2013, transferred to the Authority the amount of motor vehicle fees that were previously deposited in the General Fund of the Commonwealth Government. In fiscal year 2014, the transfer of those motor vehicle fees to the Authority amounted to \$58.25 million, an amount somewhat below the annual average of \$62.9 million of the license fees deposited in the General Fund of the Commonwealth Government during fiscal years 2009 to 2013. Thus, the amount of revenues from motor vehicle fees transferred to the Authority from the General Fund of the Commonwealth Government should moderately increase in coming years.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Total Recurrent Revenues

In summary, total recurrent revenues of the Authority amounted to \$661.02 million in fiscal year 2014, recording a substantial increase of \$248.73 million, equivalent to +60.3% over revenues collected in fiscal year 2013 (\$412.29 million).

This extraordinary increase was mostly caused by the rise in the tax rate of the petroleum products tax from \$3.00 to \$9.25 per barrel, measured at 60 degrees Fahrenheit, which yielded \$166.17 million of additional revenues, plus the new sources of revenues provided by Act No. 30 and Act No. 31, approved on June 25, 2013, amounting to \$78.25 million, as explained above. In addition, toll revenues increased by \$8.4 million, more than offsetting a decline of -\$5.45 in gasoline tax revenues. The following table summarizes the behavior of Authority's recurrent revenues in fiscal years 2013 and 2014:

Revenues	FY 2014 (Million \$)	FY 2013 (Million \$)	Absolute Change (Million \$)	Percent Change
Gasoline Tax	\$156.02	\$161.47	\$ (5.45)	-3.38%
Diesel Tax	9.12	7.57	1.55	20.48%
Petroleum Products Tax	255.59	89.40	166.19	185.89%
Vehicle License Fee	32.65	32.84	(.19)	-0.58%
Toll Revenues ^(a)	128.72	121.00	7.72	6.38%
Transfer of Cigarette Tax Revenues	17.96	-	17.96	-
Transfer of General Fund License Fee Revenues	58.25	-	58.25	-
	\$658.31	\$412.28	\$246.03	59.67%

(a) This total includes revenues by Authority received from the Bayamón-Dorado Express Lane of PR-22 (\$1.68 million).

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

Outlook for Fiscal Year 2015

Act No. 1, approved on January 15, 2015, as amended, decreed significant structural changes in the operation of the Authority. First, the tax rate of the petroleum products tax was increased from \$9.25 to \$15.50 per barrel, measured at 60 degrees Fahrenheit, starting on March 15, 2015. The new tax rate of the petroleum products tax was distributed as follows: \$6.00 per barrel to the Authority; and \$9.50 per barrel to the "Autoridad para el Financiamiento de la Infraestructura - AFI" (Puerto Rico Infrastructure Finance Authority or PRIFA).

The operation of the Metropolitan Area Urban Train will be transferred at the end of fiscal year 2016 from the Authority to a recently created public corporation (Act No. 123, August 3th 2014), named "Autoridad de Transporte Integrado - ATI" (Integrated Transportation Authority), which also will be in charge of the services now provided by the Metropolitan Bus Authority and the Authority of Maritime Transportation.

The plummeting of crude oil and petroleum product prices after September 2014 is an important and unexpected event that is benefitting the Puerto Rican economy in FY2015, and should also exert a positive impact on the Authority's revenues. OPEC Crude Oil Basket Price, after averaging \$100.78 per barrel in the first quarter of FY2015, plummeted to \$44.38 per barrel in January 2015, and then slightly recovered to \$55.98 per barrel in March 2015. WTI crude oil prices also dropped from \$97.07 per barrel in the first quarter of FY2015 to an estimated level of \$44.66 in the third quarter of FY2015. Brent crude oil prices showed a similar behavior, falling from \$103.68 per barrel in the first quarter of FY2015 to an estimated \$48.36 per barrel in the third quarter of FY2015.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

The extraordinary fall in the price of petroleum products in international markets, has been reflected in a substantial fall in the average price of gasoline after the first quarter of FY2015, as shown below:

Average Price of Gasoline: \$ per Gallon

	FY 2014	FY 2015	Absolute Change	Percent Change
July	\$ 3.490	\$ 3.633	\$ 0.143	4.10
August	3.647	3.451	-0.196	-5.37
September	3.756	3.448	-0.308	-8.20
October	3.439	3.282	-0.157	-4.57
November	3.358	3.050	-0.308	-9.17
December	3.493	2.832	-0.661	-18.92
January	3.490	2.276	-1.214	-34.79
February	3.488	2.277	-1.211	-34.72
July-Feb	3.520	3.031	-0.489	-13.89

The price of gasoline in FY2015 is expected to register an average of \$2.84 per gallon, even after considering the increase of 14.88 cents per gallon, or 3.93 cents per liter, in the tax rate of “la Crudita,” which was effective on March 15, 2015. This will represent a fall of -70 cents per gallon as compared to the average price recorded in FY2014 (\$3.54 per gallon). Considering that the consumption of gasoline will amount to approximately 1,000 million gallons in FY2015, a drop of -70 cents per gallon in gasoline prices represents an increase of \$700 million of additional resources for the Puerto Rican economy mostly from an increase in disposable income of gasoline purchased by individual customers. Taking into consideration total savings in the purchase of energy products in FY2015, at significant lower prices, the benefit for the Puerto Rican economy can be estimated at an amount of approximately \$2,500 million, equivalent to 3.3% of Gross National Product. Thus, the plunge of energy prices in FY2015 is a major favorable factor to combat the recessionary condition of the Puerto Rican economy.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Management's Discussion and Analysis (continued)

However, the Authority does not currently have sufficient funds available to fully repay its various obligations as they come due or that are currently in default, and is working on extending the due date of the obligations or obtaining new financing to provide relief and/or funds to repay the existing amounts of principal and interest or bring the outstanding balances current at the various due dates as well as to continue operate and to finance capital improvement projects. Additionally, significant support and funding for obligations of the Authority has previously been provided by sources from the Commonwealth and other entities that are part of the Commonwealth, such as the GDB or other. The Commonwealth and such entities are experiencing significant financial difficulties and may be unable to continue to extend, refinance or otherwise provide the necessary liquidity to the Authority as and when needed. As such, current defaults may not be cured and future defaults on the Authority's obligations may not be avoided. Management has plans to address its liquidity situation and continue its services and believes it will be able to repay or refinance its obligations and also continue to operate as a separate governmental entity. However, there can be no assurance that the Commonwealth will continue to provide adequate support, will continue to allow the Authority to operate as a separate entity or that the affiliated or unaffiliated lenders will be able and willing to refinance or modify the terms of the Authority's obligations. The Commonwealth could utilize taxes and other revenues assigned by law to the Authority to maintain sufficient liquidity to provide essential central government services. As such, there can be no assurance that management's current plans to repay or refinance the obligations or extend their terms will be achieved or that services will not have to be terminated, curtailed or modified.

On December 1, 2015, the Commonwealth announced its intention to utilize such taxes and revenues pledged to certain public corporations and agencies, including the Authority to meet its own obligations as needed.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our bondholders, patrons, and other interest parties with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have question or need additional financial information, contact the Puerto Rico Highways and Transportation Authority, Finance Area, P.O. Box 42007, San Juan, Puerto Rico 00940-2007.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements

June 30, 2014 and 2013

1. Organization

Puerto Rico Highways and Transportation Authority (the Authority) is a public corporation and instrumentality of the Commonwealth of Puerto Rico, created by Act No. 74 of June 23, 1965, as amended, to design, construct and administer toll roads and highways, and other facilities for the movement of persons, vehicles and vessels, and for the planning, promotion and feasibility of mass transportation systems. The Authority is a component unit of the Commonwealth of Puerto Rico and accordingly is included in the basic financial statements of the Commonwealth of Puerto Rico. The powers are exercised by a Board of Directors that is composed by seven members which have the Authority to approve, amend, and revoke any regulations to perform its duties and to control the capital and operational budget. The Authority is exempt from the payment of any taxes on its revenues and properties.

2. Summary of Significant Accounting Policies

Measurement Focus and Basis of Accounting

The accounting policies of the Authority conform to generally accepted accounting principles in the United States of America, as promulgated in pronouncements of the Governmental Accounting Standards Board (GASB). The Authority follows GASB Statement No. 62, *Codification of Accounting and Financial Reporting Contained in pre-November 30, 1989 FASB and AICPA Pronouncements*, effective July 1, 2012.

The Authority's operations are accounted for as a proprietary fund (enterprise fund) using the flow of economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and all liabilities associated with the Authority's operations are included on the statement of net position. Revenue is recognized in the period in which it is earned and expenses are recognized in the period in which incurred.

The Authority accounts for its operations and financings in a manner similar to private business enterprises; the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. Such accounts and these financial statements have been prepared on the basis that the Authority will continue as a going concern and as a legally separate governmental entity and component unit of the Commonwealth of Puerto Rico. Additional disclosures within the Notes to these financial statements, particularly in Note 9, 10, 11, 13, and 21, should be read in connection with consideration of the future ability of the Authority to continue as such.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

The Authority considers as cash and cash equivalents all highly liquid investments with original maturities at the date of purchase of three months or less.

Investments

The Authority follows the provisions of GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. This statement requires investments to be reported on the statement of net position at fair value and investment income, including changes in the fair value of investments, to be reported as non-operating expense in the statement of revenues, expenses and changes in net position. Fair values have been determined using quoted market values at June 30, 2014 and 2013.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is an amount that management believes will be adequate to absorb possible losses on existing accounts receivable that may become uncollectible based on evaluations of collectibility of accounts receivable and prior credit loss experience. Because of uncertainties inherent in the estimation process, management's estimate of credit losses inherent in the existing accounts receivable and related allowance may change in the future.

Capital Assets

Cost basis – Capital assets are recorded at historical cost or fair value when estimates are required. The cost of property and equipment includes costs for infrastructure assets (rights-of-way and bridge substructures and highways and bridges), toll facilities, equipment and other related costs (including software), buildings and furniture and equipment. Highways and bridge substructures include road sub-base, grading, land clearing, embankments, and other related costs. Costs for infrastructure assets include construction costs, design and engineering fees and administrative and general expenses paid from construction funds.

Capitalization policy – Infrastructure capital assets (road, bridges, highways, transportation equipment, etc.) are defined by the Authority as assets with an initial, individual cost of more than \$500,000 and an estimated useful life of more than one year. Other capital assets, such as equipment, vehicles, etc. are defined by the Authority as assets with an initial individual cost of more than \$100 and an estimated life of more than three years.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Capital Assets (continued)

Costs to acquire additional capital assets, which replace existing assets or otherwise extend their useful lives, are generally capitalized.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are expensed as incurred.

Interest cost is capitalized as part of the historical cost of acquiring certain assets. To qualify for interest capitalization, assets must require a period of time before they are ready for their intended purpose. Interest earned on proceeds of tax-exempt borrowings arrangements restricted for the acquisition of qualifying assets is offset against interest cost to determine the net amount to be capitalized. Interest cost is not capitalized on costs paid with the proceeds of grants or donations restricted solely for construction.

Depreciation of capital assets – Depreciation is provided using the straight-line method over an estimated useful life of 40 years for roads and highways, 50 years for bridges and transportation system (including transportation equipment and facilities) and 10 years for equipment, vehicles and other. Depreciation and amortization for the years ended June 30, 2014 and 2013, amounted to approximately \$448.0 million and \$431.9 million, respectively.

Impairment of capital assets – The Authority has implemented GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*. The objective of GASB 42 is to establish accounting and financial reporting standards for impairment of capital assets. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. This statement also clarifies and establishes accounting requirements for insurance recoveries.

Governments are required to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Such events or changes in circumstances that may be indicative of impairment include evidence of physical damage, enactment or approval of laws or regulations or other changes in environmental factors, technological changes or evidence of obsolescence, changes in the manner or duration of use of a capital asset, and construction stoppage among others.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Capital Assets (continued)

The Authority evaluated its capital assets as required by GASB No. 42 and an impairment of \$110.6 million and \$33.6 million was identified in the construction in progress account during the year ended June 30, 2014 and 2013, respectively, and it was recorded in the repairs and maintenance of roads and bridges line item of these financial statements.

Service Concession Arrangements

The Authority follows the provisions of GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* to account for and report service concession arrangements (SCAs), which are a type of public-private or public-public partnership. The term public-private partnership is used to refer to a variety of service arrangements, management arrangements, and SCAs.

This statement establishes that if the facility associated with an SCA is a new facility purchased or constructed by the operator, or an existing facility that has been improved by the operator, the transferor should report (a) the new facility or the improvement as a capital asset at fair value when it is placed in operation, (b) any contractual obligations as liabilities, and (c) a corresponding deferred inflow of resources equal to the difference between (a) and (b). Further, the corresponding deferred inflow of resources should be reduced and revenue should be recognized in a systematic and rational manner over the term of the arrangement, beginning when the facility is placed into operation.

Claims and Judgments

The estimated amount of the liability for claims and judgments is recorded on the accompanying statement of net position based on the Authority's evaluation of the probability of an unfavorable outcome in the litigation of such claims and judgments. The Authority consults with legal counsel upon determining whether an unfavorable outcome is expected. Because of uncertainties inherent in the estimation process, management's estimate of the liability for claims and judgments may change in the future.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Vacation and Sick Leave

Employees earn annual vacation leave at the rate of 30 days per year up to a maximum permissible accumulation of 30 days for union employees and 60 days for management personnel. Employees accumulate sick leave at the rate of 18 days per year. Sick leave is only payable if the regular employee resigns and has more than 10 years of employment, or retires and takes a pension. Maximum permissible accumulation for sick leave is 90 days for all employees, and the excess is paid within the next year. The Authority records as a liability and as an expense the vested accumulated vacation and sick leave as benefits accrue to employees.

The cost of vacation and sick leave expected to be paid in the next twelve months is classified as current and accrued liabilities while amounts expected to be paid after twelve months are classified as noncurrent liabilities.

Unamortized Gains/Losses on Advance Refunding

Gains/losses resulting from current or advance refunding of debt are deferred and amortized over the shorter of the life of the new debt and the remaining life of old debt. The amount amortized is reported as a component of interest expense.

Bond Premiums (Discounts) and Bond Issuance Costs

The bond premiums (discounts) are deferred and amortized to expense over the life of the bonds using the effective interest method.

For fiscal years 2014 and 2013, as a result of the adoption of GASB No. 65, the unamortized debt issuance costs are classified as non-operating expenses and the deferred loss from debt refunding as deferred outflows of resources on the accompanying statements of position.

Amortization related to bond premiums (discounts) were approximately \$18.0 million and \$(1.8) million for the years ended June 30, 2014 and 2013, respectively, and are included as a component of interest expense in the accompanying statements of revenues, expenses and changes in net position.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Net Position

Net position is classified in the following four components in the accompanying statements of net position:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds or deferred inflow of resources at year end, the portion of the debt or deferred inflow of resources attributable to the unspent amount should not be included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflows of resources is included in the same net position component (restricted or unrestricted) as the unspent amount.

Restricted for Debt Service – Net position restricted for debt service consists of restricted assets for payment of principal and interest related to bonds payable. This restriction is imposed by the bondholders through debt covenants.

Restricted for Construction – Net position restricted for construction consists of restricted assets for the specific purpose of financing the construction projects. This restriction is imposed by the grantors and contributors, as well as the bondholders through debt covenants.

Unrestricted – Unrestricted net position consists of net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investments in capital assets or the restricted component of net position.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Revenue Recognition

The Authority distinguishes operating revenues and expenses from non-operating items. Revenues associated with toll and train fares are recorded as operating revenues when cash is received, except for prepaid amounts which are recognized when earned. Expenses related to the administration and maintenance of toll highways and transportation system, repair and maintenance of roads and bridges, and administrative expenses are recorded as operating expenses. All other revenues and expenses are considered non-operating.

Non-operating revenues consist principally of gasoline, diesel, petroleum and cigarettes taxes and vehicle license fees which are allocated to the Authority by the Commonwealth of Puerto Rico as approved by law to finance the acquisition and construction of capital assets and for the payment of the related debt. These taxes and fees are recorded as non-operating revenues when the Puerto Rico Treasury Department collects such taxes and informs the Authority.

Contributions

Contributions are funds assigned by the federal and local governments, agencies and/or private companies such as Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) to the Authority for the exclusive purpose of the construction of specific projects or infrastructure repairs and maintenance. Capital contributions of the Authority are reported as contributions as required by GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*.

Financial Instruments

The Authority uses derivative financial instruments to manage the economic impact of fluctuations in interest rates. Effective July 1, 2009, the Authority implemented the provisions of GASB Statement No. 53, *Accounting and Financial Reporting for Derivative Instruments*, in accounting for its derivative financial instruments, which requires derivative instruments to be reported at fair value in the statement of net position.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Reclassification

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 financial statements presentation. Such reclassifications had no effect on net income as previously reported.

In connection with the June 30, 2014 audit of the Authority, an error was identified related to the 2013 classification of cash balance presented as restricted for the established of a state infrastructure bank account. The Authority has determined that the effect of correcting the classification from restricted to unrestricted cash and cash equivalents was not material to the financial statements for 2013; however, the 2013 financial statements have been revised for comparability with 2014.

The revision to the financial statements as of and for the year ended June 30, 2013, resulted in a decrease of current restricted cash and cash equivalents and an increase of current unrestricted cash and cash equivalents for \$15,019,129 in the Authority's statement of net position and statement of cash flows. In addition, net position has been revised to reflect a decrease in net position restricted for debt service and increase in unrestricted net position in the same amount.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

The implementation of GASB No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*, involved the use of assumptions and estimates in the determination of the cost of general infrastructure assets, such as roads, highways, bridges and land. The cost of such assets was estimated based on current costs for similar assets deflated using the general price index through the estimated average age of the assets.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Risk Financing

The Authority carries commercial insurance to cover casualty, theft, claims and other losses. The current insurance policies have not been cancelled or terminated. The Authority has not settled any claims in excess of its insurance coverage for the years ended June 30, 2014, 2013 and 2012.

New Accounting Pronouncements

GASB has issued the following statements that the Authority has not yet adopted:

<u>GASB Statement Number</u>		<u>Adoption Required in Fiscal Year</u>
68	Accounting and Financial Reporting for Pensions - an amendment of GASB Statement No. 27	2015
69	Governmental Combinations and Disposals of Government Operations	2015
70	Accounting and Financial Reporting for Nonexchange Financial Guarantee	2015
71	Pension Transition for Contributions Made Subsequent to the Measurement Date, An Amendment of GASB Statement No. 68	2015
72	Fair Value Measurement and Application	2016
73	Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68	2016
74	Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans	2017
75	Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions	2018
76	The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments	2016
77	Tax Abatement Disclosures	2017

The impact of these statements has not yet been determined by the Authority.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

2. Summary of Significant Accounting Policies (continued)

Effects of New Accounting Standards

The following GASB statements were effective for fiscal year 2014: Statement No. 66, *Technical Corrections – 2012 – an amendment of GASB Statements No. 10 and No. 62*; Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25*; These statements had no impact on the Authority’s net position or results of operations.

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, was issued in March 2012. The objective of this statement is to either (a) properly classify certain items previously reported as assets or liabilities as deferred outflows of resources and deferred inflow of resources, (b) recognize certain items that were previously reported as assets and liabilities as outflows of resources (expense) of inflows of resources (revenue). These determinations are based on the definitions of those elements in Concepts Statement No. 4 – Elements of Financial Statements.

A deferred outflow of resources is a consumption of net assets by government applicable to future periods and deferred inflows of resources is an acquisition of net assets by government applicable to future periods. GASB No. 65 is effective for financial statements periods beginning after December 15, 2012. The Authority has adopted the provisions of the GASB No. 65 for the year ended on June 30, 2014. The adoption of this Statement required a restatement of the beginning net position balance of the earliest comparative period presented of the Authority’s financial statements. See Note 21 for further discussion.

3. Cash and Cash Equivalents

Cash and cash equivalents at June 30, 2014 and 2013, consisted of:

	<u>2014</u>	<u>2013</u>
Cash on hand and in banks	\$ 21,405,254	\$ 23,732,246
Repurchase agreements	26,099,303	14,590,430
Total	<u>\$ 47,504,557</u>	<u>\$ 38,322,676</u>

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

3. Cash and Cash Equivalents (continued)

Cash and cash equivalents includes overnight deposits acquired under repurchase agreements with the Economic Development Bank (EDB) and the Government Development Bank for Puerto Rico (GDB) in the amounts of \$26.1 million and \$14.6 million at June 30, 2014 and 2013, respectively. These deposits are non-collateralized and, therefore, are subject to custodial credit risk.

4. Accounts Receivable, Net

Accounts receivable at June 30, 2014 and 2013, consisted of:

	2014	2013
Government and other agencies	\$ 52,945,476	\$ 48,188,827
Rent receivables	4,628,679	3,624,092
Repairs to highways recoverable from users	1,532,201	1,521,987
Others	6,972,899	12,195,865
Total	66,079,255	65,202,103
Less allowance for doubtful accounts	(53,556,688)	(49,865,513)
	\$ 12,522,567	\$ 15,665,258

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

5. Restricted Cash, Cash Equivalents, and Investments with Trustee

Restricted cash, cash equivalents and investments with trustee at June 30, 2014 and 2013, consisted of:

	2014	2013
Cash on hand and in banks	\$ 1,298,215	\$ 447,841
Cash held by:		
Puerto Rico Treasury Department	28,879,684	24,279,653
Swap Collateral Deposit	–	41,543,078
Government Development Bank	40,742,360	48,830,637
Puerto Rico State Infrastructure Bank	32,406	–
Total	\$ 70,952,665	\$ 115,101,209
 Cash equivalents and investments with trustee:		
Cash equivalents	\$ 241,563,000	\$ 118,380,849
Guaranteed investment contracts	221,704,578	219,057,320
US Government securities	37,130,217	21,672,000
Mortgage backed securities	169,173,105	236,240,295
Total	\$ 669,570,900	\$ 595,350,464

At June 30, 2014 and 2013, the above amounts were restricted to comply with long-term principal and interest debt service requirements or for construction of transportation facilities. These restricted assets are held by the Fiscal Agent under the Bonds Resolutions in the following funds and accounts:

1968 Reserve Account – Reserve for payment of principal of and interest on Highway Revenue Bonds in the event moneys in Bond Service Account or Redemption Account under Resolution 68-18 are insufficient for such purpose.

1968 Bond Service Account and Redemption Account (Sinking Fund under Resolution 68-18) –Current year requirements for principal and interest on Highway Revenue Bonds.

1998 Senior Reserve Account – Reserve for payment of principal and interest on Senior Transportation Revenue Bonds in the event moneys in Senior Bond Service Account or Senior Bond Redemption Account under Resolution 98-06 are insufficient for such purpose.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

5. Restricted Cash, Cash Equivalents, and Investments with Trustee (continued)

1998 Senior Bond Service Account and Senior Bond Redemption Account (Senior Bond Sinking Fund under Resolution 98-06) – Current year requirements for principal and interest on Senior Transportation Revenue Bonds.

1998 Subordinated Reserve Fund – Reserve for payment of principal of and interest on Subordinated Transportation Revenue Bonds in the event moneys in Subordinated Bond Service Account or Subordinated Bond Redemption Account under Resolution 98-06 are insufficient for such purpose.

1998 Subordinated Bond Service Account and Subordinated Bond Redemption Account (Subordinated Bond Sinking Fund under Resolution 98-06) – Current year requirements for principal of and interest on Subordinated Transportation Revenue Bonds.

1998 Construction Fund – Special fund created by the Resolution 98-06. The proceeds of any Transportation Revenue Bonds issued for the purpose of paying the cost of acquiring or constructing transportation facilities, together with the money received from any other source for such purpose, except proceeds which are (i) applied to the repayment of advances, (ii) deposited in the 1998 Senior Bond Reserve Account or 1998 Subordinated Bond Reserve Fund, (iii) deposited in the 1998 Senior or Subordinated Bond Service Account as capitalized interest or (iv) used for the payment of financing expenses, shall be deposited in the 1998 Construction Fund and held by the Fiscal Agent in trust.

2004 Grant Anticipation Bond Reserve Account – Reserve for payment of principal and interest on 2004 Grant Anticipation Bonds in the event insufficient funds for such purpose are available in the Bond Payment Fund.

2014 Bond Anticipation Note Reserve Account – Reserve for payment of principal and interest on 2014 Bond Anticipation Notes in the event insufficient funds for such purpose are available in the Bond Payment Fund.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

5. Restricted Cash, Cash Equivalents, and Investments with Trustee (continued)

At June 30, 2014 and 2013, amounts held by Trustee in the following accounts amounted to (in thousands):

	2014	2013
1968 Reserve Account	\$ 75,255	\$ 74,357
1968 Sinking Fund	49,032	48,318
1998 Senior Reserve Account	247,475	245,182
1998 Senior Sinking Fund	154,387	156,737
1998 Subordinated Reserve Fund	27,174	26,512
1998 Subordinated Sinking Fund	22,241	17,588
1998 Construction Fund	—	14,843
2004 Grant Anticipation Reserve Account	—	11,813
2004 Construction Fund	26,067	—
2013 BAN Fund	52,940	—
SIB Fund	15,000	—
Total	\$ 669,571	\$ 595,350

6. Deposits and Investments

The following paragraphs disclose essential risk information about deposits and investments as required by Governmental Accounting Standard Board Statement No. 40, *Deposits and Investments Risk Disclosures*:

The Authority is restricted by law to deposit funds only in institutions approved by the Puerto Rico Treasury Department, and such deposits are required to be kept in separate accounts in the name of the Authority. Resolutions 68-18, 98-06 and 04-18 (the Bond Resolutions) require that moneys in the debt service funds be held by Bank of New York (the Fiscal Agent) in trust and applied as provided in the Bond Resolutions.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

6. Deposits and Investments (continued)

Pursuant to the Investment Guidelines for the GDB, the Authority may invest in obligations of the Commonwealth, obligations of the United States, certificates of deposit, commercial paper, repurchase agreements, banker's acceptances, or in pools of obligations of the municipalities of Puerto Rico, among others. Monies in the sinking funds can only be invested in direct obligations of the United States government, or obligations unconditionally guaranteed by the United States government, and/or interest-bearing time deposits, or other similar arrangements, as provided by the Bond Resolutions.

Custodial Credit Risk - Deposits

For deposits, custodial credit risk is the risk that in the event of bank failure, the Authority's deposits may not be returned. Under Puerto Rico statutes, public funds deposited in commercial banks must be fully collateralized for the amount deposited in excess of federal depository insurance. Deposits maintained in GDB or EDB are exempt from collateral requirement established by the Commonwealth and thus represents custodial credit risk because in the event of GDB's or EDB's failure, the Authority may not be able to recover the deposits.

All moneys deposited with the Trustee or any other depository institution hereunder in excess of the amount guaranteed by the Federal Deposit Insurance Corporation or other federal agency are continuously secured by lodging with a bank or trust company approved by the Authority and by the Trustee as custodian, or, if then permitted by law, by setting aside under control of the trust department of the bank holding such deposit, as collateral security, Government Obligations or other marketable securities.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

6. Deposits and Investments (continued)

Custodial Credit Risk - Deposits (continued)

At June 30, 2014 and 2013, the Authority was exposed to the following custodial credit risk arising from the balance of deposits maintained in governmental and commercial banks as follows:

	2014			
	Non-Restricted		Restricted	
	Book Balance	Bank Balance	Book Balance	Bank Balance
Commercial banks	\$ 11,730,863	\$ 12,013,857	\$ 1,298,215	\$ 1,298,215
Governmental banks	35,773,694	35,752,098	69,654,450	79,537,560
	\$ 47,504,557	\$ 47,765,954	\$ 70,952,665	\$ 80,835,775

	2013			
	Non-Restricted		Restricted	
	Book Balance	Bank Balance	Book Balance	Bank Balance
Commercial banks	\$ 2,966,274	\$ 5,040,363	\$ 447,842	\$ 447,842
Governmental banks	35,356,402	37,185,372	114,653,367	114,913,367
	\$ 38,322,676	\$ 42,225,735	\$ 115,101,209	\$ 115,361,209

Custodial Credit Risk - Investments

For an investment, custodial credit risk is the risk that in event of the failure of the counterparty, the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Authority invests in prime investments with a minimum quality rating of Aa1 (Moody's) or AA+ (Standard and Poor's). In addition, investment in bond sinking funds are limited to investments in direct obligations of the United States government, or obligations unconditionally guaranteed by the United States government, and/or interest-bearing time deposits, or other similar arrangements, as provided by the Bond Resolutions.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

6. Deposits and Investments (continued)

Custodial Credit Risk – Investments (continued)

The Authority maintains funds and accounts under the Bonds Resolutions that are held by a trustee. As of June 30, 2014 and 2013, the total account balance amounted to approximately \$669.6 million and \$610.4 million, respectively. These accounts invest on different types of short-term and long-term securities, including Guaranteed Investment Contracts (GICs). Under these GICs, the financial institution guarantees the Authority a fixed rate of return. As established in the contract, the financial institution has invested such funds in predetermined securities such as cash, U.S. Treasury and U.S. Government Agency securities. These securities are pledged and serve as collateral for the account balance. The fair value of the GICs is determined based on the fair value of the underlying investments based on quoted market prices and then adjusted to contract value. As of June 30, 2014 and 2013, the contract value, which represents amounts deposited plus interest credited less withdrawals, is equal to the fair value.

Providers of guaranteed investment contracts as of June 30, 2014 and 2013, are as follows:

	<u>2014</u>	<u>2013</u>
Wells Fargo	\$ 39,245,588	\$ 37,359,190
Bank Of America	71,759,778	71,759,778
FSA Capital Management Services	44,674,424	44,674,424
Citigroup Financial Products, Inc.	13,441,521	13,445,477
Wachovia Bank, NA	26,512,201	26,512,201
Westdeutsche Landesbank	26,071,066	25,306,250
	<u>\$ 221,704,578</u>	<u>\$ 219,057,320</u>

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

6. Deposits and Investments (continued)

Interest-Rate Risk

Interest-rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes to market interest rate. Maturities of cash and cash equivalents and investments with Trustee at June 30, 2014 and 2013, are as follows:

	2014				
	Less than One Year	One to Five Years	Five to Ten Years	Ten to Twenty Years	Total
Cash equivalents	\$ 241,563,000	\$ -	\$ -	\$ -	\$ 241,563,000
Guaranteed investment contracts	13,441,521	26,512,201	-	181,750,856	221,704,578
US Government and agencies securities	37,130,217	-	-	-	37,130,217
Mortgage backed securities	54,400,000	68,626,401	46,146,704	-	169,173,105
Total	\$ 346,534,738	\$ 95,138,602	\$ 46,146,704	\$ 181,750,856	\$ 669,570,900

	2013				
	Less than One Year	One to Five Years	Five to Ten Years	Ten to Twenty Years	Total
Cash equivalents	\$ 118,380,849	\$ -	\$ -	\$ -	\$ 118,380,849

Total assets being depreciated	8,597,801,513	2,470,852	1,902,784	8,602,175,149
Total capital assets, net	\$ 11,040,166,343	\$ 385,371,281	\$ (435,760,951)	\$ 10,989,776,673

Interest expense incurred during the years ended June 30, 2014 and 2013, amounted to approximately \$367.2 million and \$408.6 million, respectively, of which approximately \$5.8 million and \$6.6 million, respectively, were capitalized as part of construction in progress in the accompanying statements of net position.

On July 17, 2012, the Authority exchanged a land parcel belonging to the Authority for a building with a fair value of \$22.5 million belonging to Department of Transportation and Public Works (DTPW). This resulted in a gain and payable to DTPW of \$7.5 million which was netted against DTPW account receivable balance as of June 30, 2013.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

8. Highways and Bridge under Service Concession Arrangement

Toll Roads Service Concession Agreement (PR-5 and PR-22)

On September 22, 2011, the Authority entered into a toll road service concession agreement with Autopistas Metropolitanas de Puerto Rico, LLC (the Concessionaire), in which the Authority granted to the Concessionaire the right to operate PR-5 and PR-22 highways (the Toll Roads) for a period of 40 years (the Concession Agreement). During the 40-year term, the Concessionaire will have the right to charge and collect the tolls imposed on the Toll Roads.

The Authority received an upfront concession fee payment of \$1.136 billion, from which approximately \$873.1 million was used to redeem or defease bonds issued and outstanding associated with the Toll Roads.

In 2012, the Authority recorded a deferred inflow of resources of concession arrangement of \$1.136 billion that will be amortized and recognized as revenue over the 40-year term of the agreement. In 2012, the Authority recognized \$21.0 million of revenue related to this transaction and will recognize \$28.4 million for each subsequent year through 2052. The Toll Roads (capital assets) will continue to be reported in the statements of net position as a separate item as highways and bridge under service concession arrangement. Toll Roads amounted to approximately \$90.7 million, net of accumulated depreciation. Toll Roads should not be depreciated until the end of the agreement starting on September 22, 2011 since the concession agreement requires the Concessionaire to return the Toll Roads to the Authority in its original or an enhanced condition.

In addition, the Authority capitalized and considered as deferred inflows of resources \$4.8 million and \$11.3 million during 2014 and 2013, respectively, for improvements made by the Concessionaire to the Toll Roads.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

8. Highways and Bridge under Service Concession Arrangement (continued)

Bridge Service Concession Arrangement

On December 20, 1992, the Authority and Autopistas de Puerto Rico y Compañía S.E. (Autopistas) entered into a service concession agreement amended in 2004 and 2009, for the design, construction, operation and maintenance of the Teodoro Moscoso Bridge (the Bridge), a toll bridge, which traverses the San José Lagoon between the municipalities of San Juan and Carolina. Autopistas designed and constructed the Bridge and commenced operating the Bridge on February 23, 1994 (valuation date). The initial term of this agreement was 35 years, expiring on April 3, 2027. On September 9, 2009, the agreement was amended to extend its term to 50 years (2044). GASB No. 60 establishes that in the first period that this statement is applied, changes resulting from the implementation of this statement should be treated as an adjustment of prior periods, and the financial statements presented for the periods affected should be restated. As of June 30 2013, the Authority recognized the Bridge at fair value, equivalent to what the Authority might have paid to have the Bridge constructed (replacement cost) at valuation date. The replacement cost was determined to be \$109.5 million depreciated over an estimated useful life of 50 years and a deferred inflow of resources of \$109.5 million that will be amortized and recognized as revenue over the term of the agreement (50 years). The asset balance related to the Bridge was adjusted to recognize the first 17 years of operation and the remaining amortization will be amortized by 33 years.

Under certain circumstances, including if minimum toll revenues are not achieved, the Concession Agreement may be terminated and the Authority is then obligated to assume all of Autopistas' obligations to pay principal of, and interest on, the bonds outstanding, which pursuant to the Loan Agreement will be paid from the net revenues of the use and operation of the Bridge. Although Autopistas currently has the ability to terminate the Concession Agreement and have the Authority to assume the obligations, the Authority has not received such notice and does not currently expect the Concession Agreement to terminate. The outstanding bonds (including accrued interest), which are not reflected in the Authority's statement of net position, at June 30, 2014 or 2013, amounted to approximately \$155.1 million and \$157.0 million, for each year, respectively.

10. Bond Anticipation Notes

On August 29, 2013, the Authority issued 2013A Bond Anticipation Notes (the “Series A Notes”) amounting to \$400.0 million, purchased by a financial institution, for the repayment of various Authority’s loans with GDB or lines of credit (LOC), including the corresponding fee and cost of issuance. The Series A Notes matures on September 1, 2015. On February 12, 2014, the Authority amended the documents to its \$400.0 million bond anticipation notes, limiting the holder’s right to accelerate and waiving covenant defaults due to the downgrades. Principal set-asides will continue as originally scheduled. All such notes must be paid no later than maturity date of the original note. The notes bear interest equal to LIBOR plus applicable spread. On June 30, 2014, the Authority’s outstanding bond anticipation notes were as follows:

Purpose	Date of Issue	Date of Maturity	Interest Rate	Balance
Repayment of LOC	8/28/2013	12/1/2014	8.75%	\$ 50,000,000
Repayment of LOC	8/28/2013	03/01/2015	8.75%	50,000,000
Repayment of LOC	8/28/2013	06/01/2015	8.75%	50,000,000
Repayment of LOC	8/28/2013	09/01/2015	8.75%	250,000,000
				<u>400,000,000</u>
Less: current portion of bond anticipation notes				(150,000,000)
Bond anticipation note, - non current portion				<u>\$ 250,000,000</u>

At June 30, 2014, the Authority has \$15.6 million deposited with the trustee to cover principal and interest on these bond anticipation notes. As noted in Note 23, subsequent to year-end, the Puerto Rico Infrastructure Finance Authority (PRIFA) and the Authority signed a trust agreement for the purpose to repay the agreement for the BANS outstanding balance.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

11. Bonds Payable (continued)

The bonds are secured by a pledge of the gross receipts of the gasoline excise taxes and one half of the diesel oil excise taxes, a maximum of \$11.0 million monthly (but not more than \$120.0 million annually) derived from excise taxes over crude oil and its derivatives, \$15 per vehicle per year from motor vehicle license fees, the proceeds of any other taxes, fees or charges which the Legislature of Puerto Rico may allocate to the Authority in the future and which the Authority may pledge, proceeds of any tolls or other charges which the Authority may impose for the use of any of its traffic facilities and certain investment earnings.

The proceeds of the gasoline tax, the gas oil and diesel oil tax, the crude oil tax and the motor vehicle license fees allocated to the Authority are taxes and revenues available under the Constitution of the Commonwealth of Puerto Rico for the payment of principal and interest of bonds. Accordingly, if needed, they are subject to being applied first to the payment of debt service on the public debt of the Commonwealth, but such taxes and license fees are to be used for such payments only if and to the extent that all other available revenues of the Commonwealth under the Constitution are insufficient for such purpose. The Commonwealth has not previously applied these taxes and revenues for such payments. However, on December 1, 2015, the Commonwealth announced its intention to utilize such taxes and revenues to meet its own obligation as needed.

The Bond Resolutions further provides that receipts of pledged revenues be deposited in certain accounts with the Fiscal Agent for the payment of interest and principal of the bonds outstanding.

Nothing in the Bond Resolutions is to be construed as preventing the Authority from financing any facilities authorized by the Act that created the Authority, as amended, through the issuance of bonds or other obligations, which are not secured under the provisions of the Bond Resolutions.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

11. Bonds Payable (continued)

The LIBOR based interest-rate bonds consisted of \$389.0 million of the 2007 Revenue Refunding Bonds Series N, from which approximately \$388.4 million were repurchased by the Authority through a “non-revolving” line of credit provided by Government Development Bank in the amount of \$294.6 million approximately. This transaction resulted in a gain of \$83.0 million for the year ended June 30, 2012. The repurchase portion of the 2007 Revenue Refunding Bonds Series N is held by the Authority; therefore, there is no outstanding balance at year end. The line of line of credit with GDB was paid in full during 2014.

The Series N LIBOR Bonds bear interest from their date of delivery at a per annum rate for each period equal to (a) 67% of the Three-Month LIBOR Rate for such period plus (b) a per annum spread equal to 0.53%. In each case the LIBOR-based interest rate cannot exceed the maximum rate permitted under Puerto Rico law (currently 12%).

Interest on the Consumer Price Index (CPI) Bonds will be payable on the first business day of each month commencing on July 2, 2007. The CPI Rate, which will be reset monthly, is an interest rate based on changes in the CPI and cannot exceed the maximum rate permitted under the Puerto Rico law (currently 12%).

In connection with the issuance of the CPI, LIBOR bonds and USD SIFMA index based interest-rate bonds, the Authority entered into interest-rate swap agreements. In general, the swap agreements provide that, subject to the terms thereof, the Authority will pay to the swap provider a fixed rate and the swap provider will pay to the Authority a floating rate based on the CPI or LIBOR rate, based on a notional amount equal to the principal amount of the CPI and LIBOR bonds outstanding. The purpose of the swap agreement is generally to convert the Authority’s floating rate obligations with respect to the CPI and LIBOR bonds to fixed rate obligations. These swap agreements were terminated during 2014. See Note 12 for additional information.

On July 1, 2010, the Authority issued \$253,670,000 of Highway Revenue Refunding Bonds (Series AA) and \$44,275,000 of Transportation Revenue Refunding Bonds (Series H) to convert the interest rate mode from a term rate to a fixed rate. The Series AA which consists of \$188,395,000 aggregate principal amount of Series AA-1 Bonds and \$65,275,000 aggregate principal amount of Series AA-2 Bonds, bear interest at a fixed rate of 4.95% and 5.30%, respectively, and are due on July 1, 2026 and 2035, respectively. The Series H bears interest at a fixed rate of 5.45% and is due on July 1, 2035.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

11. Bonds Payable (continued)

On June 24, 2013, the Authority paid \$86 million aggregate principal amount of the outstanding balance of the Grant Anticipation Revenue Bonds, Series 2004 under its Resolution 04-18, adopted by the Authority on April 7, 2004. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the Series 2004 bonds. The advance refunding resulted in a difference between the reacquisition price and net carrying amount of the old debt of \$1.1 million. The difference, reported in the accompanying net position statements as a part of deferred outflows of resources, is being charged to operations using the straight line method over the life of the bonds.

Debt Maturities

The outstanding bonds as of June 30, 2014, require future payments of principal and interest as follows:

Fiscal years ended June 30,	Principal	Interest	Total
2015	\$ 107,600,000	\$ 254,251,013	\$ 361,851,013
2016	110,964,963	249,101,857	360,066,820
2017	114,460,425	245,105,284	359,565,710
2018	118,375,225	240,673,972	359,049,197
2019	110,713,615	223,561,651	334,275,266
2020-2024	705,652,021	1,013,442,038	1,719,094,058
2025-2029	844,313,215	835,164,531	1,679,477,747
2030-2034	937,825,000	598,180,692	1,536,005,692
2035-2039	1,093,284,598	333,043,739	1,426,328,337
2040-2044	315,995,000	101,823,292	417,818,292
2045-2047	39,895,000	9,406,201	49,301,201
Total	<u>\$ 4,499,079,062</u>	<u>\$ 4,103,754,269</u>	<u>\$ 8,602,833,331</u>

For variable interest-rate bonds included above, the debt service requirements and net swap payments were computed assuming current interest rates remain the same for their term. As rates vary, variable-rate bond interest payments and net swap payments will vary. Refer Note 12 for swaps cancellation disclosure.

Notes to Financial Statements (continued)

June 30, 2014 and 2013

12. Derivatives

In connection with the issuance of the CPI and LIBOR Bonds, the Authority entered into interest-rate swap agreements. In general, the swap agreements provided that, subject to the terms thereof, the Authority will pay to the swap provider a fixed rate and the swap provider will pay to the Authority a floating rate based on the CPI or LIBOR Rate, based on a notional amount equal to the principal amount of the CPI and LIBOR Bonds outstanding. The purpose of the swap agreement is generally to convert the Authority's floating rate obligations with respect to the CPI and LIBOR Bonds to fixed rate obligations.

The Authority entered into pay fixed, receive variable interest-rate swap agreements in the following bonds: \$389.0 million LIBOR based interest-rate bonds, \$200.0 million USD SIFMA Swap Index based interest rate bonds, and \$58.0 million CPI based interest-rate bonds. The counterparties were Citibank, N.A. (Citibank), Morgan Stanley Capital Services, Inc. (Morgan) and UBS Financial Services (UBS).

Between September 26 and October 17, 2011, the Authority repurchased approximately \$388.4 million the LIBOR based interest-rate bonds of the 2007 Revenue Refunding Bonds Series N. Given this transaction, the Citibank derivative instrument hedging was terminated and the changes in fair value considered into operations.

Based on the provision of GASB No. 53, the Authority established a derivative liability and corresponding deferred unrealized loss on derivative instruments as of June 30 2013 of approximately \$142.4 million and \$10.6 million, respectively.

Between February 19 and February 25, 2014, the Authority terminated all its outstanding swap agreements for a total termination net payment of \$112.9 million. The Authority entered into an agreement for a \$115.4 million revolving line of credit to meet collateral posting requirement and for the termination payment of the swaps cancellation. As of June 30, 2014, there was an outstanding balance of \$115.4 million in this line of credit.

Notes to Financial Statements (continued)

June 30, 2014 and 2013

12. Derivatives (continued)

Terms and Fair Values (continued)

During fiscal 2014 and 2013, the derivatives hedging instruments generated a gain of approximately of \$17.4 million and \$65.5 million, respectively, due to the increase in the fair value upon hedge termination. These increases in value have been recorded as investment income in the accompanying statements of revenues, expenses and changes in net position.

The notional amounts of the swaps matched the principal amount of the associated debt. The swap agreements contained scheduled reductions to outstanding notional amounts that follow scheduled reductions in the associated debt.

Fair Values

The fair value estimates reflected on the statement of net position was based on pertinent information available to management at the statement of net position date. Relevant market interest rates as of June 30, 2013, valuation date of the swaps, were lower than market interest rate on the effective date of the swaps. Consequently, as of the valuation date, the swaps had a negative fair value. The fair values listed in the above table represent the theoretical cost of terminating the swaps. The fair values were estimated using present value models that take into consideration several factors, including volatility. The fair values were settled during fiscal year 2014.

As of June 30, 2013, the swaps had a negative fair value reported as a liability of approximately \$142.4 million. The negative fair value of the swaps may be countered by reduction in future net interest payments required on the variable-rate bonds, creating higher synthetic rates. There are no swaps at June 30, 2014.

Credit risk – Because all of the Authority’s swaps relied upon the performance of the third parties who serve as swap counterparties, the Authority was exposed to credit risk, or the risk that the swap counterparty fails to perform according to its contractual obligations. The appropriate measurement of this risk at the reporting date was the fair value of the swaps, as shown in the columns labeled fair value in the table above. When the fair value is positive the counterparty owes the Authority, which creates a credit risk for the Authority. When the fair value is negative the Authority owes the counterparty and therefore the Authority does not possess credit risk. The Authority minimized the credit risk in derivative instruments by entering into transactions with counterparties whose credit rating was acceptable under the investment policies of the Authority.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

12. Derivatives (continued)

Fair Values (continued)

Termination risk – In keeping with market standards, the Authority or the counterparty may terminate each swap if the other party fails to perform under the terms of the contract. In addition, the swap documents allowed either party to terminate in the event of a significant loss of creditworthiness. If the swap is terminated, the variable-rate bond no longer carries a fixed interest rate. Also, if at the time of termination the swap has a negative fair value, the Authority would be liable to the counterparty for a payment equal to the swap's fair value. The Authority terminated all outstanding swap agreement between January 19 and February 25, 2014, due to ratings downgrades.

Rollover risk – The Authority was not exposed to rollover risk since the due date of the swaps was the same due date of the related bonds.

On November 16, 2010, the Authority amended the critical terms of the hedging swap with Morgan Stanley (with notional amount of \$150.0 million) and the hedging swap with UBS (with notional amount of \$50.0 million), which represents termination of hedging accounting, based on GASB No. 53. Since the fixed rate of the new swaps is higher than the current at-the-market rate for similar swaps, the swaps are considered off-market swaps. The fair value of the new swaps now represents an imputed debt since no cash was involved in the transaction. This imputed debt needs to be amortized over the life of the new swaps. As a result, the deferral amounts of \$34.2 million, which equal the fair value of the old swaps at termination date, were reported as investment revenue (decrease in fair value upon hedge termination) in the Authority's statement of revenues, expenses and changes in net position for the year ended June 30, 2011. Amortization of the imputed debt for the years ended June 30, 2014 and 2013 amounted to approximately \$1.3 million and \$2.0 million, respectively, and was included as interest expense in the accompanying statements of revenues, expenses and changes in net position. During 2014, the unamortized portion of the imputed debt balance of \$28.9 million was eliminated thru operations.

14. Retirement Plan

The Employees' Retirement System of the Government of the Commonwealth of Puerto Rico (the Retirement System), created pursuant to Act No. 447 of May 15, 1951, as amended, is a cost-sharing, multiple-employer, defined benefit pension plan sponsored by and reported as a component unit of the Commonwealth. The Retirement System consists of different benefit structures, including a cost-sharing, multi-employer, defined benefit program, a defined contribution program and a defined contribution hybrid program.

(a) Defined Benefit Program

Pursuant to Act No. 447 of May 15, 1951, as amended, all regular employees of the Authority hired before January 1, 2000 and less than 55 years of age at the date of employment became members of the Retirement System, under the Defined Benefit Program, as a condition of their employment. No benefits are payable if the participant receives a refund of their accumulated contributions.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

(a) Defined Benefit Program (continued)

The Defined Benefit Program provides retirement, death, and disability benefits pursuant to legislation enacted by the Legislature. Retirement benefits depend upon age at retirement and the number of years of creditable service. Benefits vest after 10 years of plan participation. Disability benefits are available to members for occupational and non-occupational disabilities. However, a member must have at least 10 years of service to receive non-occupational disability benefits.'

Members who have attained 55 years of age and have completed at least 25 years of creditable service, or members who have attained 58 years of age and have completed 10 years of creditable service, are entitled to an annual benefit payable monthly for life. The amount of the annuity shall be 1.5% of the average compensation, as defined, multiplied by the number of years of creditable service up to 20 years, plus 2% of the average compensation, as defined, multiplied by the number of years of creditable service in excess of 20 years. The annuity for which the participant is eligible, is limited to a minimum of \$500 per month and a maximum of 75% of the average compensation, as defined.

Participants who have completed 30 years of creditable service are entitled to receive the Merit Annuity. Participants who have not attained 55 years of age will receive 65% of the average compensation, as defined; otherwise, they will receive 75% of the average compensation, as defined.

The Commonwealth's legislation requires employees to contribute 10% of their monthly gross salary.

Act No. 1 of February 16, 1990, made certain amendments applicable to new participating employees joining the Retirement System effective April 1, 1990. These changes consist principally of an increase in the retirement date from 55 to 65, a decrease in the benefit percentage of the average compensation in the occupational disability and occupational death benefits annuities from 50% to 40%, and the elimination of the Merit Annuity for participating employees who have completed 30 years of creditable service.

On September 24, 1999, the Legislature enacted Act No. 305, which amended Act No. 447 to establish a new retirement program. In addition, on April 4, 2013, the Legislature enacted Act No. 3, which amended the provisions of the different benefit structures under the Retirement System, including the Defined Benefit Program.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

(b) System 2000 Program

The Legislature enacted Act No. 305 on September 24, 1999, which amended Act No. 447 to create, among other things the System 2000 Program, a new benefit structure, similar to a cash balance plan (defined contribution plan). All regular employees hired for the first time on or after January 1, 2000, and former employees who participated in the Defined Benefit Program, received a refund of their contributions, and were rehired on or after January 1, 2000, and became members of the System 2000 Program as a condition to their employment. In addition, employees who at December 31, 1999 were participants of the Defined Benefit Program had the option, up to March 31, 2000, to irrevocably transfer their prior contributions to the Defined Benefit Program plus interest thereon to the System 2000 Program.

Commonwealth's legislation requires employees to contribute 10% of their monthly gross salary to the System 2000 Program. Employee contributions are credited to individual accounts established under the System 2000 Program. Participants have three options to invest their contributions to the system 2000 Program. Investment income is credited to the participant's account semiannually.

Under System 2000 Program, contributions received from participants are pooled and invested by the Retirement System, together with the assets corresponding to the Defined Benefit Program. Future benefit payments under the Defined Benefit Program and the System 2000 Program will be paid from the same pool of assets. As a different benefit structure, the System 2000 Program is not a separate plan and the Commonwealth does not guarantee benefits at retirement age.

Corresponding employers' contributions will be used by the Retirement System to reduce the unfunded status of the Defined Benefit Program.

The System 2000 Program reduced the retirement age from 65 years to 60 years for those employees who joined this plan on or after January 1, 2000.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

(b) System 2000 Program (continued)

Upon retirement, the balance in each participant's account will be used to purchase an annuity contract, which will provide for a monthly benefit during the participant's life and 50% of such benefit to the participant's spouse in case of the participant's death. Participants with a balance of \$10,000 or less at retirement will receive a lump-sum payment. In case of death, the balance in each participant's account will be paid in a lump sum to the participant's beneficiaries. Participants have the option of receiving a lump sum or purchasing an annuity contract in case of permanent disability.

On April 4, 2013, the Legislature the Legislature enacted Act No. 3 which amended the provisions of the different benefit structures under the Retirement System, including the System 2000 Program.

(c) Defined Contribution Hybrid Program

On April 4, 2013, the Legislature enacted Act No. 3, which amended Act No. 447, Act No. 1 and Act No. 305 to establish, among other things, a defined contribution program similar to the System 2000 Program (the Defined Contribution Hybrid Program) to be administered by the Retirement System. All regular employees hired for the first time on or after July 1, 2013, and former employees who participated in the Defined Benefit Program and the System 2000 Program, and were rehired on or after July 1, 2013, become members of the Defined Contribution Hybrid Program as a condition to their employment. In addition, employees who at June 30, 2013, were participants of previous plans will become part of the Defined Contribution Hybrid Program. Act No. 3 froze all retirement benefits accrued through June 30, 2013 under the Defined Benefit Program, and thereafter, all future benefits will accrue under the defined contribution formula used for the 2000 System Program participants.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

Participants in the Defined Benefit Program who as of June 30, 2013, were entitled to retire and receive some type of pension, may retire on any later date and will receive the annuity corresponding to their retirement plan, as well as the annuity accrued under the Defined Contribution Hybrid Program. Participants who as of June 30, 2013, have not reached the age of 58 and completed 10 years of service or have not reached the age of 55 and completed 25 years of service can retire depending on the new age limits defined by the Defined Contribution Hybrid Program and will receive the annuity corresponding to their retirement plan, as well as the annuity accrued under the Defined Contribution Hybrid Program.

Participants in the System 2000 Program who as of June 30, 2013, were entitled to retire because they were 60 years of age may retire on any later date and will receive the annuity corresponding to their retirement plan, as well as the annuity accrued under the Defined Contribution Hybrid Program. Participants in the System 2000 Program who as of June 30, 2013, have not reach the age of 60 can retire depending on the new age limits defined by the Defined Contribution Hybrid Program and will receive the annuity corresponding to their retirement plan, as well as the annuity accrued under the Defined Contribution Hybrid Program.

In addition, Act No. 3 amended the provisions of the different benefit structures under the Retirement System, including, but not limited to, the following:

1. Increased the minimum pension for current retirees from \$400 to \$500 per month.
2. The retirement age for the Act No. 447 participants will be gradually increased from age 58 to age 61.
3. The retirement age for the active System 2000 Program participants will be gradually increased from age 60 to age 65.
4. Eliminated the “merit annuity” available to participants who joined the retirement System prior to April 1, 1990.
5. The retirement age for new employees was increased to age 67.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

6. The employee contribution rate was increased from 8.275% to 10%.
7. For the System 2000 Program participants, the retirement benefits will no longer be paid as a lump sum distribution, instead, they will be paid through a lifetime annuity.
8. Eliminated or reduced various retirement benefits previously granted by special laws, including Christmas and summer bonuses. The Christmas bonus payable to current retirees was reduced from \$600 to \$200 and was eliminated for future retirees. The summer bonus was eliminated. Resulting employer contribution savings will be contributed to the Retirement System.
9. Disability benefits were eliminated and substituted for a mandatory disability insurance policy.
10. Survivor benefits were modified.

Employee contributions are credited to individual accounts established under the Defined Contribution Hybrid Program. In addition, a mandatory contribution equal to or less than point twenty five percent (0.25%) is required for the purchase of disability insurance.

Upon retirement, the balance in each participant's account will be used to purchase an annuity contract, which will provide for a monthly benefit during the participant's life. In case of the pensioner's death, the designated beneficiaries will continue receiving the monthly benefit until the contributions of the participant are completely consumed. In case of the participants in active service, a death benefit will be paid in one lump sum in cash to the participant's beneficiaries. Participants with a balance of less than \$10,000 or less than five years of computed services at retirement will receive a lump-sum payment. In case of permanent disability the participants have the option of receiving a lump sum or purchasing an annuity contract.

For the year ended June 30, 2014, the Authority was required to contribute 12.275% of each participant's gross salary under the different benefit structures. The Retirement System will use these contributions to increase its level of assets and to reduce the actuarial deficit. Beginning on July 1, 2013, and up until June 30, 2016, the employer's contribution rate shall be annually increased by one percent (1%). Beginning July 1, 2016, and up until June 30, 2021, the employer's contribution rate that is in effect on June 30 of every year shall be annually increased on every successive July 1st by one point twenty-five percent (1.25%).

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

14. Retirement Plan (continued)

Total employee contributions for the defined benefit pension plan, the defined contribution plan and the defined contribution hybrid program during the year ended June 30, 2014 and 2013, amounted to approximately \$5.1 million and \$4.5 million, respectively. The Authority's contributions (either paid or accrued) during the year ended June 30, 2014 and 2013 amounted to approximately \$8.0 million and \$7.7 million, respectively. These amounts represented 100% of the required contribution for the corresponding year. Total payroll subjected to retirement contributions amounted to approximately \$51.3 million and \$62.8 million for the year ended June 30, 2014 and 2013, respectively. Individual information for each option is not available since the allocation is performed by the Retirement System itself.

Additional information on the Retirement System is provided on its standalone financial statements for the year ended June 30, 2014, a copy of which can be obtained from the Employees' Retirement System of the Commonwealth of Puerto Rico, P.O. Box 42004, San Juan PR 00940-2004.

15. Other Post-Employment Benefits

The Authority has implemented GASB Statement No. 45, *Accounting and Financial Reporting for Employers for Postemployment Benefits Other Than Pensions* (GASB 45). This Statement establishes the standards for the measurement, recognition, and display of Other Postemployment Benefits (OPEB) expense/expenditures and related liabilities (assets), note disclosures, and, if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers.

Postemployment benefits are part of an exchange of salaries and benefits for employee services rendered. Most OPEB have been funded on a pay-as-you-go basis and have been reported in financial statements when the promised benefits are paid. GASB No. 45 requires state and local government's financial reports to reflect systematic, accrual-basis measurement and recognition of OPEB cost (expense) over a period that approximates employees' years of service and provides information about actuarial accrued liabilities associated with the OPEB and whether and to what extent progress is being made in funding the plan.

(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

15. Other Post-Employment Benefits (continued)

Plan Description

The Authority agreed to provide medical, pharmacy, dental and vision medical insurance coverage to eligible retirees, its spouses and dependents, for a period of two years after retirement as a single employer defined benefit as Other Post-Employment Benefits Plan (the Plan) and the voluntary termination benefits as per Act No. 70. Under the Act No. 70, the Authority agreed to pay the pension benefit until the member reaches a specified age and/or service amount. The Plan can be amended by action of the Authority subject to applicable collective bargaining and employment agreements. The Plan does not issue a stand-alone financial report since there are no assets legally segregated for the sole purpose of paying benefits under the Plan.

Funding Policy

The obligations of the Plan members' employer are established by action of the Authority pursuant to applicable collective bargaining and employment agreements. The required contribution rates of the employer and the members vary depending on the applicable agreement.

The Authority currently contributes enough money to the Plan to satisfy current obligations on a pay-as-you-go basis. The costs of administering the Plan are paid by the Authority.

Annual OPEB Cost and Net OPEB (Asset) Obligation

The Authority's annual OPEB cost (expense) is calculated based on the annual required contribution of the employer (ARC). The Authority has engaged an actuary to calculate the ARC and related information per the provisions of GASB No. 45 for employers in the Plan with more than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

15. Other Post-Employment Benefits (continued)

Annual OPEB Cost and Net OPEB Obligation (continued)

The following table shows the components of the Authority's annual OPEB cost for the years ended June 30, 2014 and 2013, the amount actually contributed to the plan, and the Authority's net OPEB (asset) obligation to the Plan at June 30:

	2014	2013
Annual required contribution (ARC)	\$ 4,610,120	\$ 4,650,460
Adjustment to annual required contribution	138,433	88,576
Annual OPEB cost (AOC)	4,748,553	4,739,036
Contribution made	5,009,400	5,336,900
Decrease in net OPEB obligation	(260,847)	(597,864)
Net OPEB asset at beginning of year	(2,050,108)	(1,452,244)
Net OPEB asset at end of year	\$ (2,310,955)	\$ (2,050,108)

The OPEB asset is recorded in the Prepaid Expenses and Other Assets accounts in the accompanying financial statements. The Authority's annual OPEB cost, percentage of annual OPEB cost contribution to the plan, and net OPEB (asset) obligation for the year ended June 30, 2014, were as follows:

Ended	OPEB Cost	OPEB Cost Contributed	(Asset)/ Obligation
2014	\$ 4,749,000	105.5%	\$ (2,311,000)
2013	4,739,000	112.6%	(2,050,000)
2012	4,496,000	138.0%	(1,452,000)
2011	4,432,000	95.7%	254

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

15. Other Post-Employment Benefits (continued)

Annual OPEB Cost and Net OPEB Obligation (continued)

As of June 30, 2014 and 2013, the actuarial accrued liability for benefits was \$45,107,000 and \$48,781,000, respectively, all of which were unfunded. The covered payroll (annual payroll of active employees covered by the plan) were approximately \$66,413,892 and \$94,172,000 during the years ended June 30, 2014 and 2013, respectively, and the ratio of the unfunded actuarial accrued liability to the covered payroll were approximately 51.8% as of June 30, 2014 and 2013.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to the point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The valuation date was July 1, 2012 and the *Projected Unit Credit Cost Method* was used. The actuarial assumptions were based on a set of assumptions modified to the Authority.

Turnover rates were taken from a standard actuary table, T-5. This table was chosen so as to match the Authority's historical turnover experience. Retirement rates were also based on recent Authority's experience, but are less reliable due to the size of the current retiree group and the relative newness of the program.

A discount rate of 4% was used. This rate is the best actuarial estimate of expected long-term experience and is in accordance with guidelines for selection of these rates under GASB 45. The healthcare trend rates are based on the actuarial knowledge of the general healthcare environment and the specific coverage offered by the Authority.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

16. Voluntary Termination Benefits

On July 2, 2010, the Commonwealth enacted Act No. 70 to establish a program that provides benefits for early retirement or economic incentives for voluntary employment termination to eligible employees, as defined, including employees of the Authority. Act No. 70 established that early retirement benefits will be provided to eligible employees that have completed between 15 years to 29 years of credited service in the Retirement System and will consist of biweekly benefits ranging from 37.5% to 50% of each employee' salary, as defined. In this early retirement benefit program, the Authority will make the employee and the employer contributions to the Retirement System and pay the corresponding pension obligation until the employee complies with the requirements of age and 30 years of credited service in the Retirement System. Economic incentives are available to eligible employees who have less than 15 years of credited service in the Retirement System or who have at least 30 years of credited service in the Retirement System and the age for retirement or who have the age for retirement.

Economic incentives will consist of a lump-sum payment ranging from one-month to six-month salary based on employment years. For eligible employees that choose the economic incentives and have at least 30 years of credited service in the Retirement System and the age for retirement or have the age for retirement, the Authority will make the employee and the employer contributions to the Retirement System for a five-year period.

Additionally, eligible employees that choose to participate in the early retirement benefit program or that choose the economic incentive and have less than 15 years of credited service in the Retirement System are eligible to receive health plan coverage for up to 12 months in a health plan selected by management of the Authority.

The financial impact resulting for the benefits granted to participants on this program was the recognition within the Authority's financial statements of a liability of \$80.5 million and \$88.2 million in the statements of net position as of June 30, 2014 and 2013, and a charge of \$1.0 million and \$14.3 million in the statements of revenues, expenses and changes in net position for the years ended June 30, 2014 and 2013, respectively. At June 30, 2014 and 2013, unpaid long-term benefits granted on this program were discounted between 2.84% and 2.9%, respectively, for early retirement benefits that will be provided to eligible employees that have completed between 15 years to 29 years of credited service in the Retirement System and between 1.04% and 1.66% and .80% and 1.52%, respectively, for employee and the employer contributions to the Retirement System to eligible employees that have 30 years of credited service in the Retirement System and the age for retirement or have the age for retirement.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

17. Related Party Transactions

Operating administrative and general expenses during the fiscal years ended June 30, 2014 and 2013, included approximately \$11.8 million and \$15.2 million, respectively, of charges from Puerto Rico Electric Power Authority (PREPA), a component unit of the Commonwealth.

As of June 30, 2014 and 2013, the Authority had approximately \$46.8 million and \$42.5 million, respectively, of receivables from the Commonwealth and its component units, which were reported in accounts receivable in the accompanying statements of net position.

Over the years, GDB, as fiscal agent and bank of the Commonwealth, had extended lines of credit to the Authority in order to finance capital improvement projects and operational deficits. As of June 30, 2014 and 2013, the Authority had an outstanding balance of approximately \$1,813.9 million and \$2,045.1 million, respectively, under these lines of credit. Related to these lines of credit, the Authority had interest payable accumulative to \$186.6 million and \$144.9 million at June 30, 2014 and 2013, respectively.

Bonds payable include \$200.0 million variable rate bonds, purchased by GDB from a third-party on May 19, 2014.

As of June 30, 2014 and 2013, the Authority has amounts due to other governmental entities for operating leases and other agreements of approximately \$47.9 million and \$38.8 million, respectively.

18. Commitments and Contingent Liabilities

Construction

As of June 30, 2014 and 2013, the Authority had commitments of approximately \$163.3 million and \$199.5 million, respectively, related to construction contracts.

Employee Related

On June 24, 2014, the Puerto Rico Public Corporation Debt Enforcement and Recovery Act was approved by the Commonwealth of Puerto Rico in order to establish a debt enforcement, recovery, and restructuring regime for the public corporations and other instrumentalities of the Commonwealth of Puerto Rico during an economic emergency during three years. Resulting from the approval and implementation of this Act, the vacation and sick leave policy was modified in which the employees will earn a vacation benefit at a rate of 15 days and an accumulate sick leave benefit at a rate of 12 days per year.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

18. Commitments and Contingent Liabilities (continued)

Leases

The Authority has various non-cancelable operating leases for office space with the Puerto Rico Public Buildings Authority and Puerto Rico Port Authority, which are related parties, and other lessors. These leases have an initial term of three years or more, the latest of which expires in June 2090, and can be renewed at end of lease term for an additional year. The rental expense net of capitalization for the years ended June 30, 2014 and 2013, was approximately \$214.8 thousand and \$1.4 million, respectively. Future rental payments as of June 30, 2014 under these leases are as follows:

<u>Year ending June 30.</u>	
2015	\$ 2,117,520
2016	2,042,742
2017	1,818,408
2018	1,818,408
2019	1,818,408
2020-2024	5,615,616
Thereafter	<u>1,445,196</u>
	<u>\$ 16,676,298</u>

Litigation

The Authority is defendant or co-defendant in various lawsuits for alleged damages in cases principally related to construction projects. These are generally either fully or partially covered by insurance. The contractors are required, under the terms of the construction agreements, to carry adequate public liability insurance and to hold harmless the Authority from lawsuits brought on account of damages relating to the construction of the projects.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

18. Commitments and Contingent Liabilities (continued)

Litigation (continued)

As of June 30, 2014 and 2013, the Authority, based on legal advice, has recorded a liability of approximately \$216.1 million and \$139.7 million, respectively, for probable losses on those claims not fully covered by insurance. Outstanding legal liability is composed of \$91.6 million of cases related to construction projects and \$124.5 million related to expropriation and related costs. In the opinion of legal counsel, any liability in excess of the recorded liability that may arise from such claims would not be significant to the Authority's financial position or results of operations.

Special Facility Revenue Bonds

On December 20, 1992, the Authority and Autopistas de Puerto Rico y Compañía S.E. (Autopistas) entered into a service concession agreement (the Concession Agreement), amended in 1992, and again in 2004, for the design, construction, operation and maintenance of the Teodoro Moscoso Bridge (the Bridge), a toll bridge, which traverses the San José Lagoon between the municipalities of San Juan and Carolina. Autopistas designed and constructed the Bridge and commenced operating the Bridge on February 23, 1994. The initial term of this agreement is 35 years, expiring on April 3, 2027. On September 9, 2009, the agreement was amended to extend its term to 50 years (2044).

In March 1992, the Authority issued Special Facility Revenue Bonds, 1992 Series A, B and C amounting to approximately \$117.0 million for the purpose of facilitating the construction of the Bridge. The proceeds from the sale of the bonds were transferred by the Authority to Autopistas, the borrower, pursuant to a loan agreement (the Loan Agreement) by and between Autopistas and the Authority.

On October 30, 2003, the Authority issued Special Facility Revenue Refunding Bonds, 2004 Series A amounting to approximately \$153.0 million for the purpose of refunding the Authority's Special Facility Revenue Bonds, 1992 Series A, B, and C, which were issued to fund the construction of the Bridge, and to pay the cost of issuance of the bonds. The proceeds from the sale of the bonds were transferred by the Authority to Autopistas, pursuant to a new loan agreement by and between Autopistas and the Authority.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

18. Commitments and Contingent Liabilities (continued)

Special Facility Revenue Bonds (continued)

Under certain circumstances, including if minimum toll revenues are not achieved, the Concession Agreement may be terminated and the Authority is then obligated to assume all of Autopistas' obligations to pay principal of, and interest on, the bonds outstanding, which pursuant to the Loan Agreement will be paid from the net revenues of the use and operation of the Bridge. Although Autopistas currently has the ability to terminate the agreement and has the Authority to assume the obligations, the Authority has not received such notice and does not currently expect the Concession Agreement to terminate. The outstanding bonds (including accrued interest), which are not reflected in the Authority's statement of net position, at June 30, 2014 or 2013, amounted to approximately \$155.1 million and \$157.0 million, for each year, respectively.

Federal Assistance Programs

The Authority participates in a number of federal financial assistance programs. These programs are subject to audits in accordance with the provisions of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, or to compliance audits by grantor agencies. On March 31, 2014, the Federal Highway Transportation approved \$756.4 million in toll credits that may be applied toward the non-Federal matching share of transit projects. These toll credits will remain available until used.

19. Operation and Maintenance of Urban Train System

The Authority entered into a System and Test Track Turnkey Contract (STTT Contract) with Siemens Transportation Partnership Puerto Rico, S.E., Juan R. Requena y Asociados, and Alternate Concepts, Inc. (all together known as "Siemens") for the purpose of operating and maintaining the Tren Urbano. During 2005, the STTT Contract became effective upon the execution of the contract for an initial term of five years with an option by the Authority to extend the term for an additional five years. The compensation is based on a schedule included in the master agreement which approximates \$4.0 million on a monthly basis. The total annual operation and maintenance cost, including cost of insurance and electricity, for fiscal year 2014 and 2013, was approximately \$91.2 million and \$75.1 million, respectively.

Costs incurred in connection with the integrated transportation system financed in part by the Authority during the years ended June 30, 2014 and 2013, amounted to approximately \$9.2 million and \$11.1 million, respectively.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

19. Operation and Maintenance of Urban Train System (continued)

As authorized by Resolution 2007-40, the Authority contracted the Metropolitan Bus Authority (AMA), a public corporation of the Commonwealth of Puerto Rico, to operate the service known as Metrobus II which consists of a feeder bus service of 21 AMA routes that were changed to service the Urban Train stations. This feeder bus service is considered a key strategy for increasing rail ridership.

Metrobus I service consists of two express routes, Metrobus Route I and Metrobus Expreso, which provides service between the University of Puerto Rico and Old San Juan. The Authority contracted First Transit to operate this service. The service is provided seven days a week using 24 buses owned by First Transit. The existing service agreement with First Transit expired on June 30, 2015.

20. Other Operational Income

Other income for the years ended June 30, 2014 and 2013, consisted of:

	2014	2013
Impact fee	\$ 2,697,375	\$ 2,277,449
Electronic toll label sales and fines fees	29,401,815	18,764,664
Bridge Fee	1,534,112	668,837
Metrobus fare fees	588,464	880,755
Bad debt recovery, rent and others	(1,262,559)	(15,795,155)
Total	\$ 32,959,207	\$ 6,796,550

21. Fiscal Condition and Liquidity

The Authority has experienced significant recurring losses from operations and faces a number of business challenges that have been exacerbated by the Commonwealth's economic recession and the fact that the Authority has not increased tolls to its customers at sufficient levels to offset the effects of its rising costs. Its principal challenges, some of which are interrelated, are: (i) reduction of operating costs; (ii) increase in the use of federal grants; and (iii) improving its liquidity. The Authority is committed to take all necessary measures to ensure it achieves a healthy financial condition.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

21. Fiscal Condition and Liquidity (continued)

On January 15, 2015, the Act No.1, as amended, was created by the Commonwealth of Puerto Rico to increase the petroleum tax revenues from \$9.25 to \$15.50 per petroleum barrel, starting on March 15, 2015. The new tax rate of the petroleum products tax will be distributed as follows: \$6.00 per barrel to the Authority; and \$9.50 per barrel to the Puerto Rico Infrastructure Finance Authority (PRIFA). The Authority has alternative plans to repay the outstanding debt balance, by its due date if the bond issuance is not closed. The Authority's alternative plans are the following:

- During the fiscal years 2014 and 2015, the Authority received a new source of revenues of \$135.0 million and \$145.0 million, respectively from the new tax rate of \$6.00 per barrel as authorized by the Act No.1, as amended, created by the Commonwealth of Puerto Rico on January 15, 2015.
- As authorized by the Act No. 31, approved on June 25th 2013, the Authority will receive an annual transfer of \$20 million from the excise tax on the consumption of cigarettes. The cigarette tax actual amount transferred to the Authority in fiscal years 2014 and 2015 amounted to \$20 million.
- On June 25, 2013, the Act No. 30 established the transfer of motor vehicle fees to the Authority that was previously deposited in the General Fund of the Commonwealth Government. In fiscal years 2014 and 2015, the transfer of those motor vehicle fees to the Authority amounted to \$58.25 million and \$57.0 million, respectively.
- On March 31, 2014, the Federal Highway Transportation approved \$756.4 million in toll credits that may be applied toward the non-Federal matching share of transit projects. These toll credits will remain available until used.
- On August 3, 2014, the Governor of the Commonwealth of Puerto Rico signed the Law No. 123-2014 to create the Integrated Transportation Authority of Puerto Rico (ATI) to establish their purposes, duties, powers and authorities and to authorize the Authority to transfer the Urban Train System during fiscal year 2016. According to this Act, ATI will be in charge of the Metropolitan Bus Authority and the Authority of Maritime Transportation. The train operating and maintenance expense net of revenues will be reduced by approximately \$58 million annually after the transfer of the Urban Train System.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

21. Fiscal Condition and Liquidity (continued)

- On July 1, 2015, the electronic toll system is administered by a new operator with a new contract for five years ending on July 1, 2019. This agreement decreased the toll operation expense by \$10.0 million per year.
- Certain taxes and revenues as discussed above have been previously assigned by law to the Authority. However, the Commonwealth recently announced both its ability and intention to utilize such taxes and other revenues to maintain sufficient liquidity in order to allow it to continue to meet its obligations as well as provide other essential central government services. Such action, if taken, could have a significant negative impact on the liquidity of the Authority.

The Authority does not currently have sufficient funds available to fully repay its various obligations as they come due or that are currently in default, and is working on extending the due date of the obligations or obtaining new financing to provide relief and/or funds to repay the existing amounts of principal and interest or bring the outstanding balances current at the various due dates as well as to continue operate and to finance capital improvement projects. Additionally, significant support and funding for obligations of the Authority has previously been provided by the Commonwealth and sources from other entities that are part of the Commonwealth, such as the GDB or other. The Commonwealth and such entities are experiencing significant financial difficulties and may be unable to continue to extend, refinance or otherwise provide the necessary liquidity to the Authority as and when needed. As such, current defaults may not be cured and future defaults on the Authority's obligations may not be avoided. Management has plans to address its liquidity situation and continue its services and believes it will be able to repay or refinance its obligations and also continue to operate as a separate governmental entity. However, there can be no assurance that the Commonwealth will continue to provide adequate support or continue to allow the Authority to operate as a separate entity or that the affiliated or unaffiliated lenders will be able and willing to refinance or modify the terms of the Authority's obligations. As such, there can be no assurance that management's current plans to repay or refinance the obligations or extend their terms will be achieved or that services will not have to be terminated, curtailed or modified.

In February and October 2015, the Commonwealth of Puerto Rico filed Bill H.R. 870 and Bill H.S. 1774, respectively, to amend the Bankruptcy Code to include the Commonwealth's instrumentalities, as eligible municipalities, under Chapter 9.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

21. Fiscal Condition and Liquidity (continued)

To the extent, the Commonwealth or any of its public corporations is allowed to and seeks relief under Chapter 9 of the United States Bankruptcy Code or any similar law, creditor rights and remedies may be adversely affected. Moreover, the Commonwealth or such public corporation, as applicable, may not be required to honor its outstanding obligations in full to the extent certain creditors agree to the plan presented by the Commonwealth or such public corporation.

22. Adoption of Accounting Principle

On July 1, 2012, GASB No. 65, *Items Previously Reported as Assets and Liabilities* became effective, which requires recording the non-insurance portion of deferred debt issuance costs previously presented as “Other Assets” in the Authority’s statements of net position, as operating expenses, and proper classification of certain items previously reported as assets of liabilities as “deferred outflows of resources” and “deferred inflows of resources”. As a result of the implementation of GASB No. 65, starting with the 2014 fiscal year, all debt issuance costs will be presented as expense during the year they are incurred.

We have restated the opening June 30, 2013 net position, appearing herein, from amounts previously reported to present retroactive application of change in accounting principle. The table below summarizes the effect of restatement on previously reported net position as of July 1, 2012 and June 30, 2013:

	2013		2012 and prior
Unamortized debt issue costs, <i>as reported</i>	\$ 77,706,577	\$	83,882,693
Restatement, June 30, 2012	(83,882,693)		(83,882,693)
Restatement, June 30, 2013	6,176,116		—
Total restatement	(77,706,577)		(83,882,693)
Unamortized debt issue costs, <i>as restated</i>	—		—
GASB 65 restatement	(77,706,577)		(83,882,693)
Net position, <i>as previously reported</i>	3,245,394,886		3,385,849,174
Net position, <i>as restated</i>	\$ 3,167,688,309	\$	3,301,966,481

23. Subsequent Events

On August 3, 2014, the Governor of the Commonwealth of Puerto Rico signed the Law No. 123-2014 to create the Integrated Transportation Authority of Puerto Rico (ATI) to establish their purposes, duties, powers and authorities and to authorize the Authority to transfer the Urban Train System during the fiscal year 2016. According to this Act, ATI will be in charge of the Metropolitan Bus Authority and the Authority of Maritime Transportation.

The lines of credit described in Note 13, expiring on January 1, 2015, were extended for one year as approved by GDB's Board of Directors.

Puerto Rico Highways and Transportation Authority
(A Component Unit of the Commonwealth of Puerto Rico)

Notes to Financial Statements (continued)

June 30, 2014 and 2013

23. Subsequent Events (continued)

The lines of credit described in Note 13, expiring on August 31, 2015 (after extension), are in default as of the date of this report.

On January 15, 2015, the Act No.1, as amended, was created by the Commonwealth of Puerto Rico to increase the petroleum tax revenues from \$9.25 to \$15.50 per petroleum barrel, starting on March 15, 2015. The new tax rate of the petroleum products tax was distributed as follows: \$6.00 per barrel to the Authority; and \$9.50 per barrel to the Puerto Rico Infrastructure Finance Authority (PRIFA). The \$9.25 per barrel received by PRIFA will be used to provide funds for the debt service of the proceeds of a new bond issuance by PRIFA which will be used to pay the twenty four lines of credit with GDB, the \$200 million Variable Rate Bonds and the Bonds Anticipation Notes. (See Note 17.)

On March 16, 2015, the Authority and the PRIFA signed a trust agreement to create a Dedicated Tax Fund Revenue Bond Anticipation Notes (PRIFA BANs) for the purpose of repaying the Bonds Anticipation Notes outstanding balance of \$227.6 million and the associated fees of issuance relating to the PRIFA BANs. These notes will be secured either by payments made by the Authority and or by certain petroleum and vehicle licenses revenues.

On June 5, 2015, the Authority extended the contract for the operation and maintenance of the Urban Train for one (1) additional year ending on June 6, 2016.

Effective July 1, 2015, the electronic toll system will be administered by a new operator with a new contract for five years ending on July 1, 2019.

On December 1, 2015, the Commonwealth announced that it will have to claw back revenues pledged to certain public corporations and agencies, including the Authority.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Directors
Puerto Rico Highways and Transportation Authority

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Puerto Rico Highways and Transportation Authority (the Authority), which comprise the statement of financial position as of June 30, 2014, and the related statements of activities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 18, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described we identified certain deficiencies in internal control that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described below to be material weaknesses.

Finding Number: 2014-001

Criteria

The Authority manually processes a significant volume of transactions related to their construction in progress operation. Due to the nature and magnitude of this control deficiency, such control deficiency is considered to be a material weakness.

Condition

We selected a sample of projects classified as construction in progress (CIP) at June 30, 2014, and assessed if the project was accurately classified as such based on the supporting evidence provided by project engineers. In addition, we examined details of transactions for a sample of CIP projects. Based on the results of our procedures, management analyzed all open projects and as a result recorded an impairment of \$72 million for projects that were deemed to be impaired given significant stoppage of time and lack of funding. Further, management reclassified \$113 million of projects from construction in progress to capital assets. The effect on depreciation of capitalized projects amounted to \$5.2 million. These overstatements of capital assets were offset by \$68.7 million understatement of capital assets related to expropriations and right of way.

In addition, as result of our search for unrecorded liabilities we identified unrecorded construction expenditures for approximately \$1.4 million, which were paid during fiscal year 2015 but incurred during fiscal year 2014.

Effect

A material misstatement in the financial statements of the Authority may not be detected and information used by management to make decisions may be inaccurate.

Cause

The lack of internal controls regarding the reconciliation of records between the accounting and construction divisions impairs the Authority's ability to properly identify and transfer projects from CIP to other capital assets on a timely manner and to identify projects that do not meet the Authority's capitalization policy and/or are determined to be expenses and should be charged to expense.

Recommendation

We recommend that the Authority integrate its construction and financial information systems to automate the processes of: maintaining updated status of projects during construction and the monthly reconciliation of the subsidiary with the general ledger. Also, we recommend that the Authority revise its policies and procedures regarding the monitoring of construction projects and requirements to put in service capital projects. Communication among the departments, including project engineers, should be improved. The Authority should establish a quarterly process in which Management performs a thorough review of its capital assets accounts including CIP projects (active and inactive) and related expenses. Evidence of this review should be documented.

Management's Response and Planned Corrective Actions

Effective on July 1, 2014, the Authority has an updated subsidiary ledger for CIP which is reviewed as part of the monthly accounting closing. A roll forward of capital assets is also updated as part of this monthly review including property and equipment. At year end, projects with minimum or no movement during the year are analyzed in coordination with the Programming Office and Projects Control Office. Based on a report submitted by the Programming Office and Projects Control Office, it is determined if a project should be classified as Impairment or maintained as CIP and is recorded accordingly in the subsidiary and general ledgers. On a monthly basis, the Costs Section in the Accounting Department determines when a project will be capitalized based on a report submitted by the Projects Control Office. This report indicates when projects are completed and ready to use.

The Authority is in the process of implementing budget controls for projects with the use of a Projects Module integrated to the Oracle financial system which will monitor budget controls for each project and construction offices.

Finding Number: 2014-002

Criteria

The Authority's financial statement closing process was not performed in a timely manner. Due to the nature and magnitude of this control deficiency, such control deficiency is considered to be a material weakness.

Condition

As result of our audit, a total of nineteen (19) audit adjustments were identified. These misstatements include four (4) reclassifications and fifteen (15) misstatements. These misstatements resulted in a change of net position of \$84.3 million, of which \$72 million are related to capital assets as explained in Finding 2014-001. Audit adjustments to reconcile differences, correct amounts incorrectly recorded, and to correct actual year-end balances of assets and liabilities were required to present fairly stated financial statements in accordance with US GAAP.

As result of our audit procedures, we noted that there is lack of internal controls over the financial statement closing process.

Effect

A material misstatement in the financial statements of the Authority may not be detected and information used by management to make decisions might be inaccurate.

Cause

The Authority's year-end financial reporting closing process was not performed in a timely manner. Information initially gathered during phases of the closing process is often incomplete, resulting in several revisions to the Authority's internal assessment and financial statements. This contributes to significant time delays in the completion of accurate financial reporting and additional time spent to complete the audit. The lack of a well-designed closing process results in inefficient use of finance group resources and results in management not receiving timely and fairly stated financial information for decision-making.

Recommendation

Management must reassess its monthly financial statement closing procedures to ensure that significant accounts are reconciled on a timely basis and analyzed in order to detect and correct material misstatements. The Authority should develop formal closing instructions and deadlines based upon the revised procedures and distribute them to individuals responsible for specific closing procedures.

Management's Response and Planned Corrective Actions

Management has implemented a monthly work plan which assigns the accounting cycle among the accounting staff in order to minimize post-closing and audit adjustments at year-end. Measures have been taken to minimize the adjusting entries at the end of the fiscal year.

The Authority has a formal procedure for accounting closings (Procedure #09-09-38). At year end, projects with minimum or no movement during the year are analyzed in coordination with the Programming Office and Projects Control Office. Based on a report submitted by the Programming Office and Projects Control Office, it is determined if a project should be classified as Impairment or maintained as CIP and is recorded accordingly in the subsidiary and general ledgers. The Fiscal Oversight Agreement (FOA) and the Government Development Bank (GDB) require the closing and issuance of monthly financial statements. This financial package is analyzed by expert personnel at GDB. If questions or doubts arise, these are discussed and required adjustments are recorded, if any.

Finding Number: 2014-003

Criteria

The Authority has control deficiencies in its internal controls over monitoring of tolls revenues. Due to the nature and magnitude of this control deficiency, such control deficiency is considered to be a material weakness.

Condition

During our documentation of controls over “Auto Expreso” operations, we noted that there is a lack of effective monitoring controls over transactions processed by the service organization that manages the collection and reporting of such revenue. We were not able to ascertain that the information received from the service organization is validated by the Authority.

Effect

A material misstatement of the financial statements of the Authority may not be detected and information used by management to make decisions may be inaccurate.

Cause

Lack of effective internal controls over the monitoring and validation of toll revenue information received from the service organization.

Recommendation

The Authority should make arrangements with the service organizations to obtain reports with appropriate scope and coverage to evaluate the internal controls implemented within their environment.

Management’s Response and Planned Corrective Actions

The Authority has a contract agreement with Transcore, a company which manages all transactions related to toll revenues. Transcore has over eighty (80) years’ worldwide experience offering services on wireless toll payment systems. Also, the Authority gathers all the information provided for the toll revenues operations. Since the implementation of the electronic toll, capturing of toll revenues has increased and fines have been issued and collected.

Finding Number: 2014-004

Criteria

The Authority did not accrue federal expenditures and compiled the Schedule of Federal Expenditures Awards (SEFA) in a timely manner. Due to the nature and magnitude of this control deficiency, such control deficiency is considered to be a material weakness.

Condition

During our audit procedures, we noted that the Authority had not properly accrued \$1.4 million of Highway Planning and Construction Expenses (CFDA No. 20.205).

Effects

The lack of appropriate procedures to ensure a complete compilation of the SEFA and matching of revenues and expenses may cause material omissions of certain grant expenditures and also may cause delays in the audit process. The effect of recording the receivable and recording the capital grant revenue resulted in a net increase of \$1.4 million in changes in net position.

Cause

There are ineffective internal controls to ensure that the SEFA is accurately and timely prepared and transactions related to Federal grants are timely recorded.

Recommendation

We recommend that the Authority establishes policies and procedures to ensure that an accurate compilation of the SEFA is performed on a timely basis. This schedule should include all Federal awards expended during the period and all related revenue transactions.

Management's Response and Planned Corrective Actions

Federal Expenditures Revision will be incorporated as part of the Accounting Cycle's Monthly Work Plan to ensure that they are recorded and reported in the period incurred.

Finding Number: 2014-005

Criteria

The Authority's lack of control over the accounts payable reconciliation process led to material adjustments in the financial statements. Due to the nature and magnitude of this control deficiency, such control deficiency is considered to be a material weakness.

Condition

Lack of controls over contractor's withholdings reconciliations has prevented the Authority from establishing an accounts payable sub-ledger.

Effects

This resulted in significant adjustments during the audit on the Authority's financial statements. We detected a \$6.2 million net understatement of accounts payable as June 30, 2014.

Cause

The Authority does not have controls or procedures in place to reconcile all accounts payable and accrued liabilities. Sub-ledgers are not prepared in order to monitor aging and movement of accounts payable and accrued liabilities.

Recommendation

We recommend that the Authority should develop procedures to facilitate the accurate monthly recording and reconciliation of accounts payable and accrued liability balances to provide management with accurate information. These procedures should include comparing vendors' monthly statements with the Authority's accounting records. Also, the Authority should prepare a full detail accounts payable sub-ledger.

Management's Response and Planned Corrective Actions

The Authority is currently developing procedures to reconcile and record accounts payable and accrued liabilities, including the preparation of the contractors' sub-ledgers with their related withholdings. The procedures will be part of the monthly accounting work plan.

Finding Number: 2014-006

Criteria

OMB Circular A-133, Subpart C, Section .320 (a) established that the audit shall be completed and the data collection form described in paragraph (b) and reporting package described in paragraph (c) shall be submitted within the earlier of 30 days after receipt of the auditor's reports, or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit.

Condition

The Data Collection Form (DCF) and the Single Audit reporting package were not submitted within nine months after the end of the audit period.

Effects

The lack of appropriate procedures to ensure a complete financial reporting package may cause delays in the single audit issuance process thus affecting low-risk auditee status and future grant awards.

Cause

The Authority did not compile the Schedule of Expenditures of Federal Awards (SEFA) in a timely manner. There are ineffective internal controls to ensure that the SEFA is accurately and timely prepared and transactions related to federal grants are timely recorded.

Recommendation

The Authority should improve the procedures to ensure that the information required to complete the financial statements audit is available for examination by the external auditors with sufficient time to complete and issue the reporting package and submit the required single audit report and data collection form within the required period.

Management's Response and Planned Corrective Actions

The main reason the Authority did not comply with the date for submitting the report was the delay in receiving some specialist reports which are related to new GASBs implementations. To ensure that the situation does not repeat, the next fiscal year the Authority shall arrange for the specialists' recruitment process beforehand.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Authority's Response to Findings

The Authority's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
